Reflective Teaching and Learning Dymoke S & Harrison J, 2008-05-23 This core

text is an introduction for beginning secondary teachers on developing the art of critical reflective teaching throughout their professional work **Caring for Students Who Need It Most in Open Distance E-Learning Environments** Doniwen

Pietersen,2025-09-09 In a world where online education is too often reduced to transactional and very philosophical one size fits all instruction this book boldly redefines open distance digital learning ODeL as a space for radical transformation Bridging critical pedagogy care ethics and social justice it challenges the status quo by centering student agency dialogue and co creation in virtual classrooms Grounded in real experiences from developing universities this work exposes the limitations of traditional ODeL models where power imbalances and passive learning prevail and offers a compelling alternative Through actionable strategies vivid case studies and the voices of students themselves it equips educators to build inclusive democratic learning ecosystems that nurture both intellectual growth and socio emotional well being More than a critique this book is a manifesto for humanizing digital education It is essential reading for educators administrators and policymakers committed to making online learning a force for equity empowerment and meaningful connection in higher education **Faith-Based Education That Constructs** HeeKap Lee,2010-08-09 Constructivism is everywhere It is a hot

issue at this time in the field of philosophy education technology and religion However can constructivism be an alternative approach in faith based education While some conclude that Jesus knew learning was an active knowledge creating process and that he always encouraged his disciples to think deeply and go beyond the surface level others would find that constructivism undercuts faith based education because of its claims to relativity For example constructivists claim that meaning is imposed on the world by us rather than existing in the world independently from us Thus they proclaim that truth is relative to particular times places and people Christians hold that truth does exist absolutely So how can there be a way forward for faith based educators who see the good in the constructivist approach In Faith Based Education that Constructs readers will find a unique approach whereby constructivism may appropriately be applied to a faith based education setting Although disagreement can occur between constructivism and faith based education this book concludes that constructivist thought and Christian faith based education are in the end congruent and harmonious in significant ways Those faith based educators who continue to hold cautionary views of radical constructivist assertions against absolute truths need not disregard all other aspects of constructivism *The Power of Small Groups in Christian Formation* Harley T.

Atkinson,2018-01-10 Small groups continue to be a significant part of church life and Christian formation in the twenty first century impacting a church and society characterized by loneliness and fragmentation As such Julie Gorman is prompted to declare Small groups have come of age They have found unprecedented acceptance and endorsement This is a comprehensive book on small groups and Christian formation informed by theology church history and the social sciences It addresses both the foundations and praxis of groups with a special emphasis on leading dynamic group discussions

Exploring and Engaging Spirituality for Today's Children La Verne Tolbert,2014-05-19 Exploring and Engaging

Spirituality for Today's Children: A Holistic Approach answers questions about the most effective ways to help children, pre-teens and teens develop spiritually. This collection of research gleaned from presentations during the Fourth Triennial Children's Spirituality Conference at Concordia University in 2012 is divided into four major sections: 1. theological and historical foundations; 2. engaging parents and congregations; 3. engaging methodologies; and 4. exploring children at risk, child pornography, social justice, intercultural diversity and abstinence education. Researchers acknowledge that the home is the foundation for Christian nurture. In *Exploring and Engaging Spirituality for Today's Children*, both scholars and ministry leaders come together with parents to promote a holistic environment where children are encouraged to love, respect and obey God. From birth to high school, children's voices resonate throughout these studies as they are invited to share their reflections and experiences. *Exploring and Engaging Spirituality for Today's Children* is a lively, easy-to-read collection that reflects a broad range of faith traditions and is ideal for all those who are committed to the spiritual development of children.
