Healing and Cancer Wayne B. Jonas, Alyssa McManamon, 2024-04-23 Healing and Cancer strives to bring the concepts of healing and whole person care further into health care delivery so that people with cancer feel better and live longer This important book places the concepts science delivery tools and access to further resources for whole person care into the hands of cancer care teams for use with patients and caregivers These days cancer care generally focuses on attacking and killing the cancer cell a laudable goal However if eliminating the tumor overshadows everything else teams can lose sight of the care and healing of the person as a whole This has great costs for the person there are costs in time money side effects and fear and for the care team there are costs in the joy of practice the energy to improve practice and in overall vitality Often key patient needs are inadvertently pushed to the background for lack of time tools and resources Moral injury and human suffering ensue Advances in science have now clearly demonstrated that cancer does not develop in isolation and its occurrence progression and regression are largely influenced by the surrounding environment the immune system inflammation in the body and things we ingest and are exposed to By utilizing the methodologies and concepts outlined in this book oncology teams can bring the full science of cancer biology into the care of the patient while inviting the person into full engagement in their own care Doing so they will have achieved the highest quality of care for people diagnosed with cancer Care teams that practice deep listening up front and early on to patients as people move beyond patient centered care to person centered and whole person care With increasing numbers of survivors of cancer and the intensity and duration of relationships in oncology cancer care is a field uniquely positioned to further the uptake of whole person care and to join colleagues in primary care who are doing the same Healing and Cancer first defines what whole person cancer care is and drawing on examples from around the world illustrates how and why it needs to be standard in all of oncology The authors describe the science behind whole person care and the evidence that supports its application including real world examples of how it's being done in small clinics and large institutions both academic and community based Finally Healing and Cancer directs readers to the
