many other survivors as well as on the knowledge of counselors and mental health professionals She offers a strong helping hand and invaluable guidance to the vast numbers of family and friends who are left behind by the more than thirty thousand people who commit suicide each year struggling to make sense of an act that seems to them senseless and to pick up the pieces of their own shattered lives And perhaps most important for the first time in any book she allows survivors to see that they are not alone in their feelings of grief and despair
