LaPolla, 2001 Tibetan Subjectivities on the Global Stage Shelly Bhoil, Enrique Galvan-Alvarez, 2018-11-08 Tibetan Subjectivities on the Global Stage Negotiating Dispossession explores the many ways Tibetans are reimagining their cultural identity since the communist takeover of Tibet in the 1950s Focusing on developments taking place in Tibet and the diaspora this collection of essays addresses a wide range of issues at the heart of Tibetan modernity From the political dynamics of the exiled community in India to the production of contemporary Tibetan literature in the PRC the collection delves into various aspects of current significance for the Tibetan community worldwide such as the construction of Bon identity in exile the strategic use of the discourse of development or the issue of cultural and linguistic purity in an increasingly hybrid and globalized world Moving away from the preservationist paradigm that regards Tibetan culture as an endangered and precious object the essays in this book portray Tibetan identities in motion as lived subjectivities that travel change and creatively reimagine themselves on various global stages Even if recent Tibetan history is marked by imposed transitions and a sense of dispossession this collection highlights the ways Tibetans have not only managed traumatic historical events but also become agents of change and reinventors of their own traditions **A Grammar of Bunan** Manuel Widmer, 2017-09-11 This book provides a comprehensive grammatical description of Bunan a Tibeto Burman languages that is spoken by approximately 4 000 people in the North Indian Himalayas The grammar offers a systematic analysis of a wide range of grammatical phenomena ranging from phonetics and phonology to complex syntactic constructions Moreover it contains a wealth of historical annotations annotated texts and a Bunan English glossary **When Tibetan Meditation Goes Global** Mara Lisa Arizaga, 2022-08-22 This book provides an in depth examination of the Yungdrung Bon religion in light of globalization In its global dimension Bon has been attracting a growing number of Westerners particularly to its Dzogchen teachings and meditation practices In this expansion Bon operates in a dynamic context where forces that create changes in the tradition coexist sometimes in tension and sometimes in tandem with other forces that aim to preserve it In tracing the process through which Bon has become a global religion this monograph narrates the story of the principal figures who initially facilitated this transmission following their journey from Tibet to India and Nepal The narrative then moves to explore the dynamics taking place in the transmission and reception of Yungdrung Bon in Western countries opening up a new viewpoint on the expansion of Tibetan religious traditions into the West and painting a comprehensive picture of the modern history of the Yungdrung Bon religion as narrated by its participants In so doing it makes an invaluable contribution to the study of Tibetan traditions in the West as well as to the wider history of religions social anthropology psychology and conversion studies Languages of the Himalayas George van Driem, 2022-09-12 The survey work Languages of the Himalayas provides a bird s eye view of Himalayan languages and language communities It also constitutes a primary source for much new hitherto unpublished data

on several languages The demographic mosaic of the Himalayas today is viewed in a historical and comparative linguistic perspective The reader will find an outline of the historical and prehistorical developments that have determined the modern ethnolinguistic composition of the Himalayan region involving various independent linguistics stocks or language families Maps illustrate the distribution of language communities and trace the routes of ancient migrations There is an illuminating discussion of grammatical features found in Himalayan languages The print edition is available as a set of two volumes 9789004103900
