Prospect Spirit Of Creative Poetry:

Prospect Spirit of Creative Poetry Walter Lee Moore, 1999-03 *Oriental Prospects* ,2022-07-04 A great deal of stimulating and valuable discussion as well as some indignation and hot air has been stimulated by Edward Said whose provocative study of Orientalism *Western Conceptions of the Orient* appeared twenty years ago This present book will we believe be recognized as a worthy addition to the many attempts that have since been made to sift the intrinsic and ingrained attitudes of West to East The fifteen articles in *Oriental Prospects* *Western Literature and the Lure of the East* cover literature from the Renaissance through the eighteenth and nineteenth centuries to the modern period some in pragmatic accounts of responses to and uses of experiences of the Orient and its cultural attitudes and artefacts others contending more theoretically with issues that Edward Said has raised Despite all the misunderstanding prejudice and propaganda in the scholarly and literary depiction of the Orient still today as in the past what emerges from this wide range of articles is that no species of literary text or academic study can appear without risking the accusation of escapist exoticism or cultural and economic exploitation and thus regrettably masking the essential and vital significance of the political and the real and imaginative trading between East and West

The Oxford Handbook of William Wordsworth Richard Gravil, Daniel Robinson, 2015-01-22 The Oxford Handbook of William Wordsworth deploys its forty seven original essays to present a stimulating account of Wordsworth's life and achievement and to map new directions in criticism In addition to twenty two essays wholly on Wordsworth's poetry other essays return to the poetry while exploring other dimensions of the life and work of the major Romantic poet The result

is a dialogic exploration of many major texts and problems in Wordsworth scholarship This uniquely comprehensive handbook is structured so as to present in turn Wordsworth's life career and networks aspects of the major lyrical and narrative poetry components of The Recluse his poetical inheritance and his transformation of poetics the variety of intellectual influences upon his work from classical republican thought to modern science his shaping of modern culture in such fields as gender landscape psychology ethics politics religion and ecology and his 19th and 20th century reception most importantly by poets but also in modern criticism and scholarship **The Creative Crone** Sylvia Henneberg,2010

Henneberg shows how these writers offer radically different but richly complementary strategies for breaking the silence surrounding age Rich provides an approach to aging so strongly intertwined with other political issues that its complexity may keep us from immediately identifying age as one of her chief concerns On the other hand Sartre's direct treatment of aging sensitizes us to its importance and helps us see its significance in such writings as Rich's Meanwhile Rich's efforts to politicize age create stimulating contexts for Sartre's work Henneberg explores elements of these writers individual poems that develop themes of aging including imagery and symbol the construction of a persona and the uses of rhythms to reinforce the themes She also includes analyses of their fiction and nonfiction works and draws ideas from age studies by scholars such as Margaret Morganroth Gullette Kathleen Woodward and Thomas Cole From publisher description **L. The Publishers' Trade List Annual ,2000 *Philosophy and the Spiritual Life* Victoria S. Harrison,Tyler Dalton

McNabb, 2023-07-01 This book breaks new ground for the philosophy of religion by showcasing work that engages with the lived reality of the spiritual life. It demonstrates that philosophy's relationship with spirituality is more than a historical curiosity and that in the twenty-first century it is still meaningful to think about philosophy in connection with spirituality. The chapters are organised around the following themes: spiritual practice and philosophical understanding; philosophical reflections on living a spiritual life; philosophical problems concerning the spiritual life. The first part discusses whether or not the topic of spirituality should be given a more fundamental role within the philosophy of religion and if so how that might be accomplished. The second part addresses fundamental issues concerning human beings: their lives and their self-understanding in relation to the spiritual life. The final part considers philosophical problems that emerge when discussing the spiritual life. By bringing together discussions of these topics, this volume constitutes a valuable resource for scholars in disciplines in which the spiritual life is a focus of interest, particularly philosophy, theology, and religious studies. **The**
