## Protecting The Commons:

**Protecting the Commons** Joanna Burger, Elinor Ostrom, Richard Norgaard, David Policansky, Bernard D. Goldstein, 2001-01-01 Commons lands waters and resources that are not legally owned and controlled by a single private entity such as ocean and coastal areas the atmosphere public lands freshwater aquifers and migratory species are an increasingly contentious issue in resource management and international affairs Protecting the Commons provides an important analytical framework for understanding commons issues and for designing policies to deal with them The product of a symposium convened by the Scientific Committee on Problems of the Environment SCOPE to mark the 30th anniversary of Garrett Hardin s seminal essay The Tragedy of the Commons the book brings together leading scholars and researchers on commons issues to offer both conceptual background and analysis of the evolving scientific understanding on commons resources The book gives a concise update on commons use and scholarship offers eleven case studies of commons examined through the lens provided by leading commons theorist Elinor Ostrom provides a review of tools such as Geographic Information Systems that are useful for decision making examines environmental justice issues relevant to commons Contributors include Alpina Begossi William Blomquist Joanna Burger Tim Clark Clark Gibson Michael Gelobter Michael Gochfeld Bonnie McCay Pamela Matson Richard Norgaard Elinor Ostrom David Policansky Jeffrey Richey Jose Sarukhan and Edella Schlager Protecting the Commons represents a landmark study of commons issues that offers analysis and background from economic legal social political geological and biological perspectives It will be essential reading for anyone concerned with commons and commons resources including students and scholars of environmental policy and economics public health international affairs and related fields *Protecting future generations through commons* Saki Bailey, Gilda Farrell, Ugo Mattei, 2014-01-09 The recent austerity measures currently adopted in numerous European countries assume that a rise in public debt should automatically result in cuts to social programmes and the privatisation of inefficiently managed resources This type of reasoning is being used to justify the destruction of social rights of citizens for the profit of the private sector resulting in more limited access to the most fundamental resources such as water nature housing culture knowledge and information mainly for the most vulnerable members of society Such a view informed solely by short term growth and profit cycles is endangering access to those resources not only for current generations but for future ones as well This book is an attempt to go beyond liberal approaches to intergenerational and distributive justice It emphasises the role of commons and communities of the commons driven by the desire to defend and perpetuate those fundamental resources under the threat of expropriation by the state and the market This book also offers policy makers and citizens who wish to accept their political responsibility by being active and refusing corporate ideology some best practices as well as methods and solutions for renewing the configurations of societal relationships through commons thereby integrating the interests of future generations in the European Community s decision making processes and institutions This is a contribution by the

Council of Europe and the International University College of Turin to the protection of the dignity of every person especially of those who even though unable to enjoy existing social rights have the right to benefit from choices and policies that ensure that human life remains unspoiled The tradable permits approach to protecting the commons : what have we learned?

Tom Tietenberg,2002 *International Ethics* Mark R. Amstutz,2005-01-03 This text presents the concepts theories methods and traditions of ethical analysis and then applies them to case studies in the areas of human rights military force foreign intervention economic statecraft and global political justice **The Economics of Transnational Commons** Partha Dasgupta,Karl-Göran Mäler,Alessandro Vercelli,1997 Transnational commons cross border areas without well defined property rights have long been ignored in official development economics This volume redresses the balance by adopting an environmental approach which stresses the importance of shared natural resources and the links between acute poverty and environmental degradation The Economics of Transnational Commons draws together eminent contributors from fields as diverse as law population studies social anthropology biological sciences and economics to present authoritative accounts that combine empirical case studies with rigorous theoretical foundations Despite the multi disciplinary approach the main focus of the articles is the same that the reciprocal externalities and problems of free riding created by any common resource are complicated in the case of transnational commons by difficulties in monitoring enforcement and unequal access to information Often using theories of negotiation taken from game theory the studies then suggest possible solutions both at an institutional and educational level In order to make these materials suitable for teaching purposes the authors have been encouraged to survey their topics rather than present their most recent findings A companion publication The Environment and Emerging Development Issues Volumes 1 11 edited by Dasgupta and Mahler deals with national environmental issues
