Protestant Diplomacy And The Near East Missionary Influence On American Policy 1810 1927:

Protestant Diplomacy and the Near East Joseph L. Grabill, 1971 *American Arabists in the Cold War Middle East*, 194675 Teresa Fava Thomas, 2016-07-06 This book examines the careers of 53 area experts in the US State Department's Middle East bureau during the Cold War. Known as Arabists or Middle East hands, they were very different in background, education, and policy outlook from their predecessors, the Orientalists. A highly competitive selection process and rigorous training shaped them into a small corps of diplomatic professionals with top-notch linguistic and political reporting skills. Case studies shed light on Washington's perceptions of Israel and the Arab world, as well as how American leaders came to regard and often disregard the advice of their own expert advisors. This study focuses on their transformative role in Middle East diplomacy from the Eisenhower through the Ford administrations.

The Contested Origins of the 1865 Arabic Bible David D. Grafton, 2015-11-09 This study examines the history of an Arabic Bible translation of American missionaries in late Ottoman Syria. Comparing the history of this project as recorded by the American missionaries with private correspondence and the manuscripts of the translation, *The Contested Origins of the 1865 Arabic Bible* provides new evidence for the Bible's compilation, including the seminal role of Syrian Christians and Muslims. This research also places the project within the wider social-political framework of a transforming Ottoman Empire, where the rise of a literate class in Beirut served as a catalyst for the Arabic literary renaissance. Nahal and within the international field of New Testament textual studies.

Colonialism and Christianity in Mandate Palestine Laura Robson, 2011-09-01 Drawing on a rich base of British archival materials, Arabic periodicals, and secondary sources, *Colonialism and Christianity in Mandate Palestine* brings to light the ways in which the British colonial state in Palestine exacerbated sectarianism. By transforming Muslim, Christian, and Jewish religious identities into legal categories, Laura Robson argues, the British ultimately marginalized Christian communities in Palestine. Robson explores the turning points that developed as a result of such policies, many of which led to permanent changes in the region's political landscapes. Cases include the British refusal to support Arab Christian leadership within Greek-controlled Orthodox churches, attempts to avert involvement from French or Vatican-related groups by sidelining Latin and Eastern Rite Catholics, and interfering with Arab Christians' efforts to cooperate with Muslims in objecting to Zionist expansion. Challenging the widespread but mistaken notion that violent sectarianism was endemic to Palestine, *Colonialism and Christianity in Mandate Palestine* shows that it was intentionally stoked in the wake of British rule, beginning in 1917 with catastrophic effects well into the twenty-first century.

The Oxford Handbook of Christian Fundamentalism Andrew Atherstone, David Ceri Jones, 2024-01-18 This authoritative volume offers the fullest account to date of Christian fundamentalism, its origins in the nineteenth century, and its development up to the present day. It looks at the movement in global terms and through a number of key subjects and debates in which it is actively engaged.
