Center and periphery: Twenty-first-century literature, cinema, media from Spain Amparo Alpañés,2025-01-07 In a country where the richness of diverse cultures is often overshadowed by historical conflicts this book delves into the complex relationship between the so called center and periphery within Spain's borders Traditionally the center has symbolized Castilian identity while the periphery encompassed other regional cultures But in today's rapidly evolving social landscape what do these terms really mean This groundbreaking work reexamines the center vs periphery paradigm through the lens of contemporary Spanish literature cinema and media It poses critical questions about the existence and nature of a unified Spanish identity and investigates whether the tension between these cultural spheres persists The book also challenges readers to consider which aspects linguistic gender or other forms of identity play the most significant role in this dynamic Furthermore it scrutinizes whether marginalized groups such as BIPOC LGBTQ and differently abled communities are relegated to the periphery in modern Spain With no other published work focusing on these issues in 21st century Spain this book offers a fresh and nuanced perspective on cultural tensions that have shaped and continue to shape the nation Its innovative approach makes it an indispensable reference for researchers and students in gender and women's studies Queer studies media studies Spanish literature and language as well as those exploring nationalism separatism race and Blackness
