Saints, Sinners, and Soldiers Jeffrey A. Keshen, 2007-10-01 The first ever synthesis of both the patriotic and the problematic in wartime Canada Saints Sinners and Soldiers shows how moral and social changes and the fears they generated precipitated numerous and often contradictory legacies in law and society From labour conflicts to the black market to prostitution and beyond Keshen acknowledges the underbelly of Canada s Second World War and demonstrates that the Good War was a complex tapestry of social forces not all of which were above reproach *The Red Man's on the Warpath* R. Scott Sheffield, 2007-10 This book explores how wartime symbolism and imagery propelled the Indian problem onto the national agenda and why assimilation remained the goal of post war Canadian Indian policy even though the war required that it be rationalized in new ways Voices Raised in Protest Stephanie Bangarth, 2008-07-01 The uprooting and confinement of Japanese Americans and Japanese Canadians during the Second World War constituted the worst violations of citizenship rights in twentieth century North America Voices Raised in Protest examines the meaning and impact of these actions and how they diverged in Canada and the United States Many North Americans opposed their governments wartime policies toward their fellow citizens of Japanese extraction In this timely book Stephanie Bangarth studies the efforts and discourse of anti internment advocates and discusses the various cases they brought before the courts Persons of Japanese ancestry were also active in their own defence Their critiques of the removal and deportation policies were seminal examples of a growing general interest in civil rights and would provide a foundation for rights activism in subsequent years Voices Raised in Protest offers valuable perspective for today s debates over ethnic and racial profiling treatment of enemy combatants and tensions between civil liberty and security imperatives It will be of interest to activists and general readers as well as to scholars and students in history law politics and Asian Canadian American studies **The Butterflies of Canada** Ross A. abundance flight seasons and noteworthy habits Thirty two colour plates provide diagnostic details for each species and also feature butterflies in their natural habitats There is an extensive bibliography *Fighting from Home* Serge Durflinger,2011-11-01 In Verdun English and French speakers lived side by side Through their home front activities as much as through enlistment they proved themselves partners in the prosecution of Canada s war Shared experiences and class similarities shaped responses based first and foremost in a sense of local identity *Fighting from Home* paints a comprehensive at times intimate portrait of Verdun and Verdunites at war Durflinger offers an innovative interpretive approach to wartime Canadian and Quebec social and cultural dynamics It will appeal to anyone interested in the history of the Canadian home front during the Second World War Battle Grounds P. Whitney Lackenbauer,2011-11-01 Base closures use of airspace for weapons testing and low level flying environmental awareness and Aboriginal land claims have focused attention in recent years on the use of Native lands for military training But is the military s interest in Aboriginal lands new *Battle Grounds* analyzes a century of government Aboriginal interaction and negotiation to explore how the Canadian military came to use Aboriginal lands for training It examines what the process reveals about the larger and evolving relationship between governments and Aboriginal communities and how increasing Aboriginal assertiveness and activism have affected the issue **Mammal Community Dynamics** Cynthia J. Zabel,Robert G. Anthony,2003-09-18 Conservation of mammals in the coniferous forests of western North America has shifted in recent years from species based strategies to community and ecosystem based strategies resulting in an increase in the available information on mammalian communities and their management This book provides a synthesis of the published literature on the role of forest mammals in community structure and function with emphasis on their management and conservation In addition to coverage of some of the charismatic megafauna such as grizzly bears gray wolves mountain lions elk and moose the book also provides a thorough treatment of small terrestrial mammals arboreal rodents bats medium sized carnivores and ungulates The unique blend of theoretical and practical concepts makes this book equally suitable for managers educators and research biologists who will find it a valuable reference to the recent literature on a vast array of topics on mammalian ecology **Hitler's Deserters** Douglas Carl Peifer,2025 The Wehrmacht executed thousands of its own in World War II for desertion and undermining the military spirit This study examines who these Wehrmacht deserters were why they deserted what punishment they could expect and how German military justice operated It argues that after the First World War the German military embraced the Dolchstoß legend and determined that if it ever went to war again the military would punish deserters ruthlessly This view arrived at independently accorded fully with that of Adolf Hitler The study analyses the challenges associated with hiding in the Third Reich surrendering to the enemy or crossing over into neutral Switzerland or Sweden After the Second World War Germans began a debate about how these deserters should be remembered Vergangenheitsbewältigung and whether they should be rehabilitated The study analyzes the contested meaning attached to the Wehrmacht
