Dear Prudence Guy Fletcher, 2021-04-08 Philosophers have long theorized about what makes people's lives go well and why and the extent to which morality and self interest can be reconciled However we have spent little time on meta prudential questions questions about prudential discourse thought and talk about what is good and bad for us what contributes to well being and what we have prudential reason or prudentially ought to do This situation is surprising given that prudence is prima facie a normative form of discourse and cries out for further investigation of what it is like and whether it has problematic commitments It also marks a stark contrast from moral discourse about which there has been extensive theorizing in meta ethics

Dear Prudence The Nature and Normativity of Prudential Discourse has three broad aims Firstly Guy Fletcher explores the nature of prudential discourse Secondly he argues that prudential discourse is normative and authoritative like moral discourse Thirdly Fletcher aims to show that prudential discourse is worthy of further explicit attention both due to its intrinsic interest but also for the light it sheds on the meta normative more broadly
