Psyche and Bible Rivkah Scharf Kluger, 1974 *Psyche and Bible* Rivkah Schärf Kluger, 1974 Psychological Hermeneutics for Biblical Themes and Texts: HAROLD J. ELLENS, J. Harold Ellens, 2012-04-26 An assessment of the development and achievements of the field of Psychological Hermeneutics Soul and Psyche Wayne G. Rollins, 1999 The first introduction to the history and method of biblical psychological interpretation **A Traditional Quest** Louis Jacobs, Dan Cohn-Sherbok, 1991-01-01 Psychological Biblical Criticism D. Andrew Kille, 2001 This volume provides an introduction to psychological interpretations of the Hebrew Bible with the Garden of Eden story as a test case It approaches the text from Freudian Jungian and Developmental psychologies comparing and contrasting the different methods while taking on the hermeneutical issues Ricoeur's work is used to establish criteria for adequate interpretation Genesis 3 presents a fruitful text for psychological interpretation given its importance in Western culture Its themes of sexuality guilt consciousness and alienation are issues of great concern for everyone in our society Kille's aim is to locate psychological criticism within the field of biblical studies and to propose a hermeneutical framework for describing and evaluating psychological approaches The second part is devoted to analysis of different evaluations of Genesis 3 from the three chosen psychological perspectives **A Psychoanalytic History of the Jews** Avner Falk, 1996 This includes the evolution of the Hebrew religion as a projective response to the inner conflicts produced by the human family the sociopsychological development of the Israelite kingdoms in Canaan the fascinating duality of Jewish life in the Diaspora and the emotional ties of the Jews to their idealized motherland from the Babylonian exile to modern political Zionism **Jung and the Jungians on Myth** Steven Walker, 2014-04-08 Carl Gustav Jung 1875 1961 was never more insightful and intriguing than when he discussed mythology The key to understanding the Jungian approach to mythology lies in the concept of the image which provides the basis for his theory of the unconscious By emphasizing the image over the word Jungian psychology distinguishes itself dramatically from Freudian Lacanian and other psychologies that stress the task of interpreting the language the words of the unconscious In *Jung and the Jungians on Myth* Steven Walker carefully leads the reader through the essential lines of thought in Jungian psychology before developing his method for using Jungian ideas to approach mythological texts Whether one is sympathetic toward Jung's ideas or critical of them one will find in Walker's discussion a lucid introduction to Jungian perspectives on myth and psychology American Pluralism and the Jewish Community Seymour Martin Lipset, In a landmark volume of new essays destined to reshape the parameters of future discourse on American Jews and their relationships to major ideologies and organization of our time Lipset has brought together many of the finest social analysts of Jewish life both in the United States and overseas Indeed Canadian and Israeli perspectives add a comparative dimension that increases the special value of this book S N Eisenstadt calls attention in his opening chapter to the thrust of the volume as a whole a focus on the most distinguishing aspect of the American Jewish experience the

incorporation of Jews into all arenas and aspects of American life and the effects of such incorporation on the structuring of Jewish life and self perception The work emphasizes the burgeoning of Jewish institutions the visibility and acceptability of such institutions and the changing Jewish definition of their collective identity The work is conceived of as Festschrift essays in honor of Earl Raab Thus the work has a community dimension that typifies Raab s work The four essays in the final segment California is Different will come as a pleasant bonus in a work that otherwise features the more global dimensions of Jewish life in America The first section on the North American Community features essays by S N Eisenstadt Nathan Glazer Arnold Eisen Chaim Waxman and Morton Weinfield The second section on Politics contains contributions by Irving Kristol Carl Sheingold Eyton Gilboa and Alan Fisher The third segment is on Jewish Community Life with essays by Daniel Elezar Larry Ruben and Arnold Dashevsky This is in short a major collective statement by scholars long associated with the subject It will be of interest to political scientists and sociologists interested in ethnic studies and Jewish life in America

Jung and the Monotheisms Joel Ryce-Menuhin, 1994 This book provides an exploration of some of the essential aspects of Judaism Christianity and Islam Leading Jungian analysts theologians and scholars bring to bear psychological religious and historical perspectives in an attempt to uncover the nature and psychology of the three monotheisms
