Psychiatric Aspects Of Imprisonment By Gunn:

Psychiatric Aspects of Imprisonment John Charles Gunn, 1978 *The Essentials of Postgraduate Psychiatry* Robin Murray, 1997-08-21 The third edition of this highly successful postgraduate psychiatry text offers a comprehensive review of the characteristic causes and treatment of the main psychiatric disorders As with earlier editions it is subdivided into four parts models and principles origins presentation and course of major clinical symptoms psychiatry in the social forensic and medical contexts treatments both biological and psychological It is also extensively referenced throughout and emphasises the relationship of research findings to clinical practice The text has been extensively revised and updated in line with the most recent developments in psychiatric practice and thinking In particular more discussion is given to measurement issues concepts of illness brain function and neurophysiology The highly distinguished team of contributors has also been enhanced through the introduction of one or two of the newer stars in the field This new edition will without doubt be valued by all members of the multidisciplinary mental health care team as well as general practitioners who seek an authoritative yet readable account of modern psychiatry **Psychiatry in Prisons** Simon Wilson, Ian Cumming, 2009-10-01 Psychiatry in Prisons provides a comprehensive overview of the history problems and development of psychiatric health care in prisons It tackles a broad range of issues from familiar mental health issues such as substance misuse self injury and health screening to complex legal moral and philosophical dilemmas *Recovery from Schizophrenia* Richard Warner, 2013-03-01 The first edition of *Recovery from Schizophrenia* was acclaimed on publication as a work of major importance It demonstrated convincingly but controversially how political economic and labour market forces shape social responses to the mentally ill mould psychiatric treatment philosophy and influence the onset and course of one of the most common forms of mental illness In this revised and fully updated edition Dr Warner examines the changes in approach to schizophrenia since publication of his original book and analyses new research to answer the question Are they advances or not Mind, State and Society George Ikkos, Nick Bouras, 2021-06-16 A multidisciplinary account of the reforms in psychiatry and mental health in Britain during 1960 2010 and their relation to society **Therapeutic Community for Women Prisoners** Elaine Player, Elaine Genders, 2025-09-02 Based upon an extensive empirical study of a democratic therapeutic community for women serving long and medium sentences this book explores the opportunities it provided for restorative rehabilitation In so doing it identifies some of the interconnected ways in which these ambitions are undermined by pervasive yet often tacit assumptions that underly penal policies and practices Drawing on a wealth of data gathered from a study spanning a period of eighteen years at the only democratic therapeutic community for women prisoners in the UK the book highlights how feminist criminology has revealed an invidious history of women's treatment in prison demonstrating how reformist and rehabilitative interventions have reproduced and exacerbated existing states of inequality and oppression Consequently the question explored in this book is whether a proportionate sentence that imposes a loss of liberty is inevitably destined to this

fate or whether it can be constructed in ways that are progressive and transformative By identifying and understanding some of the interconnected ways in which progressive efforts have typically been undermined it opens a debate about the insinuation of certain often unspoken assumptions that underly penal policies and practices and the need for their deconstruction It opens an axiomatic debate about how women imprisoned for serious offences might have that loss of liberty interpreted to facilitate a restorative reparative and reintegrative process of rehabilitation informed by principles of social justice This book will be of great interest to students and scholars of criminology feminist studies public policy and human rights It will also be of value to policymakers and practitioners in women s prisons and psychologists and psychiatrists interested in therapeutic communities

Diminished Responsibility Lee Peng Kok,Molly Cheang,Kuan Tsee Chee,1990 This book is primarily designed as a sourcebook for lawyers and psychiatrists who are interested or involved in the subject of diminished responsibility It is an attempt to convey a general picture of the concept which shows how it has been interpreted by the courts and expert witnesses The book begins with an overview and analysis of the concept of diminished responsibility and a general introduction of where law and psychiatry intersect in this area Thereafter the authors adopt the traditional approach of describing and discussing basic principles in relation to the various aspects of abnormality of mind as envisaged under the definition of diminished responsibility before passing to a study of actual cases The final chapter is an attempt to deal with and confront what are perceived to be the potentially problematical issues recommending proposals wherever feasible in which the complex relationship between law and psychiatry is presently concerned in interpreting diminished responsibility

Personality Disorders Jonathan H. Dowson,Adrian T. Grounds,2006-11-02 Personality disorders consist of long term patterns of maladaptive behaviour which have a generally unrecognised importance in clinical practice However personality disorders are the origins of many medical consultations and social ills including substance abuse alcoholism self harm suicide neglect of children criminality and HIV transmission In a comprehensive summary and evaluation of the clinical literature this book seeks to dispel the myth that personality disorder is simply a category for those problem individuals for whom nothing can be done With detailed coverage of recognition assessment and management Drs Dowson and Grounds provide a co ordinated empirically based account of those aspects of personality disorders which are of relevance to psychiatrists and allied disciplines including clinical psychologists social workers criminologists specialist nurses and primary care physicians
