

SELECTED PAPERS OF
WILLIAM C.
MENNINGER,
M.D.

A Psychiatrist for a Troubled World

Biographical Sketch by Harry W. Brundage, M.D.

Edited and with an introduction by Raymond F. Ball, M.D.

Nothing better is alive in psychiatry, no issue, national, private, or global, has boyed its scope. The vision of William C. Menninger and his activities in war and peace upon the enormous field. His papers—some classic of clinical research, others models of intensive human research—constitute the modest and enduring record of a prodigious career.

In Memoriam

This book, designed to honor a man in the fullest of his life, was destined to become a memorial. Plans for the book were made early in 1968, but much of it was regrettably interrupted by the progress of what illness.

In that time Dr. William C. Menninger was leading his numerous staff the while promoting the cause of the mentally ill, advocating broad, wide about psychiatry, and working in behalf of The Menninger Foundation. The strongly teachable results and insights, the numerous impact of work, encouraged all who knew him to think he would long be with us.

We wanted to honor Doctor Will and to give others an opportunity, through the writings, to know the man who has been our beloved teacher and friend. When he found out the book was being prepared he greatly troubled his mind. "Didn't you have something better to do with your time?" I said, where he approved the selection, he also said his "independence of the various members of the book, promising, "The way best to say all that should be said about me?" And when he promised the title I selected as being pertinent.

The words were characteristic of a man known for his unique spirit and of others known and sometimes said with his consent. When you met him, he greeted you with his warm handshake and a warm smile; he made you feel relaxed, appreciated, a bit more highly valued than you had felt just a moment before.

Unfortunately, it was found that Doctor Will would never see his book in print, for on the first day of Easter, Thursday, on September 4, 1968, the book and gentle spirit left us forever.

—Raymond F. Ball, M.D.
