THE SCIENCE OF PSYCHIC HEALING William Walker Atkinson,Yogi Ramacharaka,2017-07-06 This book is intended to be a practical presentation of the various forms of Psychic Healing Very little about theory although giving a general outline of the underlying theories that the healer may understand the nature of the work he is doing and have tried to make the book tell how to do the work In introducing the subject we wish to say that we have not tried to make a religion of Psychic Healing for this seems a folly to us We do not see why Psychic Healing should be made into a religion any more than should Drug Healing Massage Osteopathy or any other form of healing All true healing results from an application of perfectly natural laws and the power employed is as much a natural law as is electricity For that matter all natural laws are of divine religion and are equally worthy of respect and reverence William Walker Atkinson Yogi Ramacharaka 1862 1932 was a prolific writer His works treat themes related to the mental world occultism divination psychic reality and mankind s nature They constitute a basis for what Atkinson called New Psychology or New Thought *Are You Psychic?* Hans Holzer,2023-03-19 Have you ever had an old tune pop into your head only to turn on the radio hear it being played Or think of someone you haven t seen for years only to answer the phone and hear that person on the other end Is it coincidence or is it something more If you have ever wondered if you might be psychic this book may hold the answer to this most intriguing question As will see everybody has some psychic ability For some people the ability might be as mild as intuition for others it might be as strong as mediumship but it all falls under the category of that sixth sense *Are You Psychic* is a fascinating and revealing look at our extrasensory powers Author and professor of parapsychology Dr Hans Holzer explores all the various

forms of the psychic experience foretelling the future interpreting psychic feelings thought transference and past life memories among others explains in clear and understandable language what they are how they work and what you can do to develop your own inner abilities He delves into the history of psychic abilities discusses the psychic experiences of dreams deja vu and out of body experience and shows how natural healing can be a form of the human psychic ability Throughout the book Dr Holzer gives examples of real life psychic phenomena that illustrate how these powers work and demonstrate that they are very real If you are one of those people who have had their fair share of those funny coincidences maybe it s time to find out more Maybe it s time to answer the question you have asked yourself a hundred times Are You Psychic
