CertAcles de la Universidad de Granada con el MCER Shackleton, Caroline , Este estudio como parte del proceso de validación fehaciente del uso e interpretación de las puntuaciones del examen de inglés binivel de la Universidad de Granada UGR pretende relacionar oficialmente la prueba de comprensión oral de este examen con el Marco Común Europeo de Referencia MCER Con tal fin seguimos las recomendaciones del Consejo de Europa 2009 para determinar unos puntos de corte representativos de los niveles B1 y B2 del MCER La prueba utilizada en el estudio fue la convocatoria de marzo del 2017 N 464 que demostró ser un instrumento de medición fiable y apropiado En el estudio participaron diez expertos quienes tras una sesión para familiarizarse con el MCER realizaron varias sesiones de fijación de puntos de corte Se utilizaron dos métodos el método Basket o de la cesta para familiarizar a los participantes con los temas de la prueba después del cual se analizaron los resultados empleando un modelo de múltiples facetas de Rasch MFR por otro lado el método Bookmark o del

marcador que incorporamos los niveles de dificultad del tem resultantes de un análisis Rasch de los puntajes de la prueba La mediana final de los puntos de corte aportados por los expertos se calculó empleando una probabilidad de respuesta de 0.67 y se transfirió a la escala de capacidad zeta del modelo Rasch para determinar las puntuaciones brutas que representaran los dos niveles de dominio del MCER en cuestión. También se realizaron otros controles de fiabilidad y de validez para proporcionar una documentación transparente sobre el proceso completo recomendado por el Consejo de Europa 2009. El método de equiparación de puntuaciones del modelo Rasch permite que los puntajes sean reproducibles en futuras versiones de la prueba y por tanto apoyan la inferencia de generalización del argumento de validez para la prueba binivel de la UGR.

La causa y la comprensión en el derecho Carlos Cossio, 2023-12-01. El título de este libro que no puede tener otro mejor que el que lleva acaso aleje indebidamente al lector de cultura general y a no al filósofo. Sería de lamentar porque para no despistar a nadie el título no puede ser otro que el que es y porque el libro está escrito se aladamente también para ellos y no sólo para los especialistas en el estudio del Derecho. En el siglo XIX la filosofía del hombre se desentendió de la jurisprudencia y a su vez ésta por su parte se desentendió de la filosofía. Una y otra se degradaron por el mismo motivo. Hoy nos parece absurdo semejante doble divorcio. Una manera de superar este absurdo acaso sea en verdad la única manera es convocar al especialista y al filósofo para que trabajen de la mano. El lector apreciará como filósofo o como jurista si esto es cosa lograda en este libro si esto alcanza a la jerarquía de un nuevo estilo para el trabajo intelectual dentro del horizonte de la antropología filosófica. Carlos Cossio.

Verdad, libertad, acontecer Alejandro G. Vigo, 2021-01-21. El presente libro reúne un conjunto de trece estudios publicados en volúmenes colectivos y revistas especializadas en Hispanoamérica y Europa y puede verse como una continuación natural del publicado en 2014 con el título *Arqueología y aleitología*. Estudios heideggerianos. Los estudios reunidos en el volumen no configuran capítulos de una monografía unitaria sino que constituyen discusiones particulares referidas a diferentes aspectos del pensamiento heideggeriano tal como éste se desarrolla sobre todo en el período que va desde 1927 a o de la publicación de *Sein und Zeit* hasta fines de los años 30. Sin embargo hay en ellos temas y motivos recurrentes y también una orientación básica común en lo que concierne al modo de entender el pensamiento de Heidegger en su perfil temático su diseño metodológico y su evolución. Desde el punto de vista temático los estudios pueden ser divididos en tres grupos diferentes. Un primer grupo discute diversos aspectos de la concepción de *Sein und Zeit*. Un segundo grupo examina desde diferentes ángulos el desarrollo que conduce desde la concepción de *Sein und Zeit* hasta el pensamiento ontohistórico tal como éste hace su aparición a mediados de los años 30. Por último un tercer grupo aborda la cuestión relativa al modo en el cual el giro hacia el pensamiento ontohistórico impacta sobre la confrontación con diversos autores de referencia de la tradición del pensamiento metafísico.

El hechizo de la comprensión Teresa Gutiérrez de Cabiedes Hidalgo de Caviedes, 2011-09-01. Prologo de Alejandro Llano. Puede el eco cobrar fuerza con el tiempo en vez de languidecer. Quiéscende Hannah Arendt para que casi cuarenta años después de morir su voz siga originando huracanes en el mundo contemporáneo. Probablemente una de

las fuerzas ocultas que actúan de inmediato sobre esta autora sea esa cabezonería intelectual para intentar razonar lo irrazonable para robar un poco de luz a la asfixiante oscuridad para construir puentes entre el pasado y el futuro aunque la ensimismada de la Historia se los lleve por delante una vez más También hoy vivimos tiempos de tiniebla Primero fue la amenaza de un terrorismo global sobre nuestras cabezas y después nos ha reventado en las manos un sistema económico que creía infalible nuestra seguridad se ha hecho vulnerable En días como estos en los que la palabra crisis tasta a nuestra actualidad hasta asfixiarla no bastan los discursos ideológicos más o menos brillantes Necesitamos vidas que nos hablen que nos interpelen que aporten experiencia vivida a nuestras certezas descalabradas El hechizo de la comprensión es la primera biografía de Hannah Arendt publicada originalmente en castellano Sus páginas intentan ofrecer una historia que merece la pena ser conocida por la pasión histórica humana e intelectual que encierra Y busca contar la historia con todos los recursos que la literatura brinda al pensamiento sin que la técnica de la ficción robe espacio al rigor científico Viene acompañada por un completo anexo de publicaciones de y sobre la pensadora alemana Estamos ante un libro que convierte una historia de gran densidad humana e intelectual en lectura que resulta difícil dejar una vez comenzada Se trata de una navegación por aguas agitadas tormentosas a ratos que se lleva a cabo con sorprendente y suave facilidad Este es el caso de una escritora de raza que nos cuenta la vida y nos interpreta la obra de una pensadora que ha descifrado algunos de los enigmas más inquietantes de nuestro tiempo El resultado es memorable del Prólogo de Alejandro Llano *Gadamer: Aplicación y Comprensión* Pedro Karczmarczyk, 2007-01-01 El libro intenta dar cuenta de cómo el concepto de aplicación una de las nociones fundamentales en la hermenéutica de Gadamer intenta solucionar o mejor disolver el problema de las ciencias históricas en el siglo XIX la imposibilidad de disponer de un objeto independiente el pasado tal cual ocurrió para confrontar la adecuación de las visiones actuales del mismo y la imposibilidad de erradicar la perspectiva del presente intereses ideológicos etc en los relatos históricos Gadamer revisa las categorías en las cuales se inserta esta dificultad las nociones de conocimiento realidad y verdad modeladas de acuerdo a la perspectiva de las ciencias naturales En esta revisión se perfila el concepto de aplicación destacando que nuestra condición de agentes históricos insertos en una tradición y en una comunidad lingüística no es un obstáculo sino justamente la condición que hace posible que podamos comprender lo diferente a lo propio en la forma de la alteridad histórica lingüística o personal La tesis del libro es que la estructura de la aplicación con la historicidad que acarrea se presenta tanto en las macroestructuras de la comprensión textos tradición arte como en las estructuras de un nivel más básico realización de juicios y comprensión de conceptos punto que motiva una comparación con las ideas del segundo Wittgenstein **La comprensión del otro** Pablo Quintanilla, 2019-05-01 Los malentendidos y la incomprensión mutua son causa de muchos de los conflictos humanos En el pasado las personas o las comunidades que se malentendían podían alejarse a territorios apartados para evitar la convivencia Esto es cada vez menos posible Comprendernos recíprocamente no es pues una elección sino una necesidad Pero los fenómenos involucrados en la comprensión

n humana son mltiples y complejos pues pueden ser procesos neuronales hereditarios que tienen millones de aos habilidades culturales aprendidas en una comunidad o tcnicas individuales desarrolladas en la experiencia entre otros Este libro se propone analizar lo que ocurre cuando nos comprendemos o por el contrario cuando nos malentendemos Esto nos obliga a analizar otros fenmenos vinculados con la comprensi n como la explicaci n la interpretaci n la naturaleza de las comunidades epistmicas el significado la racionalidad la irracionalidad y las formas de vida Estas cuestiones no son solo relevantes para la filosofa sino tambi n para la psicolog a la tica la poltica y las ciencias sociales pues vivimos en un pequeo mundo en el que compartimos proyectos e infortunios con seres humanos que pertenecen a diferentes tipos de comunidades e identidades
