

Radical Monotheism and Western Culture by H. Richard Niebuhr

H. Richard Niebuhr, for many years Sterling Professor of Christian Ethics at Yale University Divinity School, was one of mid-century's most respected teachers and writers. This book presents in revised and expanded form the Montgomery Lectures on Contemporary Civilization which Dr. Niebuhr gave at the University of Nebraska in 1957. The six chapters were originally three lectures. To them are added four supplementary essays that expand and complement the ideas in the Lectures.

Published in Louisville, KY by Westminster/John Knox Press, 1993. Originally published, New York, Harper, 1960. This material prepared for Religion Online by Richard and Sue Kendall.

(ENTIRE BOOK) Niebuhr gives a thorough analysis of faith as confidence and loyalty, and the forms of faith as henotheism, polytheism and radical monotheism. He then analyzes the implications of radical monotheism for western religion, the political community, western science, and ethical value systems.

Forward by James M. Gustafson

Dr. Gustafson introduces Niebuhr's book as making theology and theological thinking intelligible by showing their continuities with other forms of thinking and activity, while at the same time reinterpreting other forms of activity in the light of theology.

I: Introduction: Theology and Faith

This introduction deals with the conflict of faiths in our Western Culture ...a conflict between radical monotheism and polytheism, or henotheism (a social faith which makes a finite cultural or religious society the object of trust and loyalty).

II. The Idea of Radical Monotheism

This chapter contrasts polytheism, social faith and radical faith in the One God.

III. Radical Faith - Incarnate and Revealed in History

This chapter focuses upon the persons and movements through whom radical monotheism finds expression in human history and in all of human life.

IV. Radical Monotheism and Western Religion

The Paradox of Church and World Jon Diefenthaler, 2015-11-01 Ultimately or so H Richard Niebuhr wrote as early as 1929 the problem of church and world involves us in a paradox unless the church accommodates itself to the world it becomes sterile inwardly and outwardly unless it transcends the world it becomes indistinguishable from the world and loses its effectiveness no less surely In the same context he went on to state The rhythm of approach and withdrawal need not be like the swinging of the pendulum mere repetition without progress it may be more like the rhythm of the waves that wash upon the beach each succeeding wave advances a little farther into the world with its cleansing gospel before that gospel becomes sullied with the earth Niebuhr's thought on the paradox of church and world is an essential piece of our understanding of twentieth century theology in America In this volume Jon Diefenthaler collects for the first time over forty writings that trace the lineage of Niebuhr's thought presents them in a single place and makes a case for their enduring value in a post church religious environment The volume is a treasury of little known and hard to find pieces making scholarship and understanding easier

[A Philosophy of Christian Materialism](#) Christopher Baker, Thomas A. James, John Reader, 2016-03-09 A Philosophy of Christian Materialism offers a new religious engagement with the public sphere via means of interdisciplinary analysis and empirical examples developing what the authors call a Relational Christian Realism building upon interaction with contemporary Philosophy of Religion The book argues that the current discourse on public religion is inadequate in addressing the issues now to be faced including material religious practice in the sphere of education the growth of alternative political movements and the developing awareness of environmental concerns and urban social justice Key concepts that support this strategic analysis are entangled fidelities the form of a materialist religious practice the possibility of a relational Christian realism including

new developments in how we interpret key categories of doctrine including God and creation salvation and humanity and the post secular public sphere including the emerging phenomenon of postsecular rapprochement namely the coming together of both religious and secular actors in methodologies and politics of pragmatism as well as ethical discourse for the sake of the public commons Co authored by theologians in both the USA and the UK this book represents an exciting contribution to philosophy and practice of religion on both sides of the Atlantic and aspires to be sufficiently interdisciplinary to also appeal to readerships engaged in the study of modern political and social trends
