Public Documents, 1975 *New York Legislative Documents* New York (State). Legislature, 1927 The New Astronomy: Opening the Electromagnetic Window and Expanding our View of Planet Earth Wayne Orchiston, 2006-01-17 This is an unusual book combining as it does papers on astrobiology history of astronomy and sundials but after all Woody Sullivan is an unusual man In late 2003 I spent two fruitful and enjoyable months in the Astronomy Department at the University of Washington UW working on archival material accumulated over the decades by Woody for a book we will co author with Jessica Chapman on the early development of Australian astronomy The only serious intellectual distraction I faced during this period was planning for an IAU colloquium on transits of Venus scheduled for June 2004 in England where I was down to present the Cook paper I knew Woody was also interested in transits and indeed anything remotely connected with shadows see his paper on page 3 and in discussing the Preston meeting with him it transpired that his 60th birthday was timed to occur just one week later This was where the seed of Woodfest began to germinate Why not invite friends and colleagues to

join Woody in Seattle and celebrate this proud event I put the idea to Woody and others at UW they liked it and Woodfest was born

Bringing Home the White House Melissa Estes Blair, 2023-09-01 In *Bringing Home the White House* Melissa Estes Blair introduces us to five fascinating yet largely unheralded women who were at the heart of campaigns to elect and reelect some of our most beloved presidents By examining the roles of these political strategists in affecting the outcome of presidential elections Blair sheds light on their historical importance and the relevance of their individual influence In the middle decades of the twentieth century both major political parties had Women s Divisions The leaders of these divisions five women who held the job from 1932 until 1958 organized tens of thousands of women all over the country turning them into the saleswomen for the party by providing them with talking points fliers and other material they needed to strike up political conversations with their friends and neighbors The leaders of the Women s Divisions also produced a huge portion of the media used by the campaigns over 90 percent of all print material in the 1930s and were close advisors of the presidents of both parties In spite of their importance these women and their work have been left out of the narratives of midcentury America In telling the story of these five West Wing women Blair reveals the ways that women were central to American politics from the depths of the Great Depression to the height of the Cold War
