few powerful families and their green saints Millions of people are imprisoned in teeming cities millions more labour on Pharaonic projects to rebuild ruined ecosystems On the moons of Jupiter and Saturn the Outers descendants of refugees from Earth s repressive regimes have constructed a wild variety of self sufficient cities and settlements scientific utopias crammed with exuberant creations of the genetic arts the last outposts of every kind of democratic tradition The fragile detente between the Outer cities and the dynasties of Earth is threatened by the ambitions of the rising generation of Outers who want to break free of their cosy inward looking pocket paradises colonise the rest of the Solar System and drive human evolution in a hundred new directions On Earth many demand pre emptive action against the Outers before it s too late others want to exploit the talents of their scientists and gene wizards Amid campaigns for peace and reconciliation political machinations crude displays of military might and espionage by cunningly wrought agents the two branches of humanity edge towards war

Innovation and Implementation Richard Veit, Harold Mytum, 2023-07-14 Providing a comprehensive set of guidance to assist researchers wishing to carry out curate and disseminate field research at a historic burial ground chapters offer up to date methods for surface and subsurface survey and for the recording and archiving of burial monument data Divided into three parts considering documentary research and recording of mortuary landscapes reflections on memorial recording projects and archiving and wider dissemination of data and interpretations Also included is the archaeological potential of pet cemeteries and other pet memorials Discussions therefore include how methodologies may or may not be applicable to both human and animal subjects

THE QUIET WAR Who decides what it means to be human Twenty third century Earth has been ravaged by climate change and is now dominated by a few powerful families with millions of people in prison and millions more labouring to rebuild ruined ecosystems Meanwhile on Jupiter and Saturn live the Outers They have built a wild variety of scientific utopias crammed with exuberant creations of the genetic arts Now they want to colonise Earth and drive human evolution in a new direction On Earth some want to launch a pre emptive strike against the Outers while others wish to exploit the talents of the gene wizards It is clear that the fragile detente between the two branches of humanity is breaking down and they may be

heading towards war GARDENS OF THE SUN The Quiet War is over A century of enlightenment rational utopianism and exploration of new ways of being human has fallen dark But victory is fragile and riven by vicious internal politics While seeking out and trying to anatomise the strange gardens abandoned in place by Avernus the Outers greatest genius the gene wizard Sri Hong Owen is embroiled in the plots and counterplots of the family that employs her The diplomat Loc Ifrahim soon discovers that profiting from victory isn't as easy as he thought And in Greater Brazil the Outers democratic traditions have infected a population eager to escape the tyranny of the great families who rule them After such a conflict only one thing is clear No one can escape the consequences of war especially the victors Change That Law! C.J. Darling, When mean old Mayor Man decides to pass a Law making ferrets illegal the five clever ferrets in the Mustela Secret Service decide to teach him how to laugh and play and not be so angry and mean But when they creep into his cold dark house late that night they find him hurt on the floor How can five little ferrets work together to save his life Excerpt Taz Nova said twitching her whiskers in the dim red light why does Mayor Man want to get rid of all ferrets Even Humans don't do things without a reason Not usually Taz agreed with a worried flick of his tail He says and his dark eyes moved toward Maggie that ferrets look like rats Most Humans are afraid of rats They aren't welcome here Maggie was so angry she reared up on her back legs and clawed at the air Ferrets do not look like rats We have bushy tails and masks on our faces like raccoons Even I have one you just can't see it The other ferrets were black silver cinnamon or brown Their masks were the same colors and easy to see They did look a lot like raccoons with their shiny dark eyes and curious noses Maggie was pure white except for the tip of her tail so it made sense that her mask would also be white Though he would never admit it Taz thought she did look a bit like a sleek white rat though no rat had ever been so proud of her bushy black tipped tail Maggie groomed it all the time nibbling away dust and dirt to keep it full and shiny We're not blaming you Maggie Nova soothed Mayor Man is not very smart if he can't see that most ferrets look totally different But Taz is right A lot of Humans are afraid of mice and rats because they steal food and make messy nests in their walls We make nests too Goliath said proudly My nest is in Boy's bottom clothes drawer His pants make a nice bed and keep me warm at night We know Goliath Zephyr smiled Everyone knew where Goliath's nest was But we keep our nests clean We only put toys and special snacks in them Mice and rats aren't clean That's why Humans hate them The young giant thought about that for a few minutes Maybe we could teach them to be clean and then the Humans wouldn't hate them or us It was a great idea but Nova couldn't see how to make it happen Not all Humans hate us she reminded Goliath Just the Mayor Man He has a lot of power in this town We need to find some way of changing his mind or he will make our Humans get rid of us They talked and talked and talked some more But none of them could figure out how to make the mean old Mayor Man change his mind about ferrets We are not ugly and messy Maggie scowled as they paused for a snack of crunchy brown ferret pellets We just like to play and have fun I wish we could show him how to have fun Zephyr sighed Then maybe he wouldn't be so mean Taz sat up so suddenly that old Quincy jolted awake on his branch
