Research with the Locus of Control Construct Herbert M. Lefcourt, 1981      **Communication Research Measures II**, 2009 Expanding and building on the measures included in the original 1994 volume Communication Research Measures II A Sourcebook provides new measures in mass interpersonal instructional and group organizational communication areas and highlights work in newer subdisciplines in communication including intercultural family and health It also includes measures from outside the communication discipline that have been employed in communication research The measures profiled here are the best of the best from the early 1990s through today They are models for future scale development as well

**Handbook of Individual Differences, Learning, and Instruction** David H. Jonassen, Barbara L. Grabowski, 2012-12-06 Written for teachers trainers and instructional designers anyone who is responsible for designing or preparing instruction this book begins with one basic premise individual differences mediate learning at all levels and in all situations That is some learners find it easier or more difficult to learn some skills or to learn from certain forms of instruction because they vary in terms of aptitude cognitive styles personality or learning styles This volume describes most of the major differences in a readable and accessible way and demonstrates how to design various forms of instruction and predict the ease with which learners will acquire different skills Most books that discuss any learner differences focus on those that characterize special education populations whereas this book focuses on normal learners Designed as a handbook this volume is structured to provide easy and consistent access to information and answers and prescriptions and hypotheses When definitive answers are not possible because there is no research documentation the authors suggest theories designed to stimulate future research      **Obesity Assessment: Tools, Methods, Interpretations** Sachiko St. Jeor, 1997-05-15 This book provides reference points for researcher clinicians and educators for assessing obesity in different individuals and populations It serves as a ready reference for selected measures of weight nutrition and dietary intake activity and exercise behavior well being and disease risk relationships It presents assessment tools along with their applications and practical interpretations Emphasis is given to the differences by age gender weight status and the many interrelated variables that contribute to the development and or exacerbation of the obese state      **Proceedings of the 1997 World Marketing Congress** Samsinar MD Sidin, Ajay K. Manrai, 2015-06-25 This volume includes the full proceedings from the 1997 World Marketing Congress held in Kuala Lumpur Malaysia The focus of the conference and the enclosed papers is on marketing thought and practices from a global perspective This volume presents papers on various topics including marketing management marketing strategy and consumer behavior Founded in 1971 the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory research and practice Among its services to members and the community at large the Academy offers conferences congresses and symposia that attract delegates from around the world Presentations from these events are published in this

Proceedings series which offers a comprehensive archive of volumes reflecting the evolution of the field Volumes deliver cutting edge research and insights complimenting the Academy's flagship journals the Journal of the Academy of Marketing Science JAMS and AMS Review Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science      *Advances in Cognitive—Behavioral Research and Therapy* Philip C. Kendall, 2013-10-22

*Advances in Cognitive Behavioral Research and Therapy* Volume 3 provides information pertinent to the fundamental aspects of cognitive behavioral approaches to psychotherapy This book presents the developments in the study of cognition personality learning development social interaction and behavior therapy Organized into six chapters this volume begins with an overview of attributional processes in dyadic relationships with emphasis on therapeutic and theoretical aspects This text then examines the advanced methodology of multidimensional scaling Other chapters consider the application of cognitive behavioral interventions in educational settings This book discusses as well the social cognitive processes and effective social behavior which are linked within a theoretically rich and empirically supported systems model The final chapter deals with the rational emotive theoretical position to the area of childhood problems This book is a valuable resource for research and applied psychologists Researchers and clinicians struggling with the interplay of behavior cognition and emotion will also find this book useful      *Research with the Locus of Control Construct* Herbert M. Lefcourt, 2013-09-03

*Research with the Locus of Control Construct* Volume 1 Assessment Methods was created to serve two purposes The first is to fill the researcher's need for information about the application of appropriate locus of control scales to their particular purposes or samples It presents a variety of locus of control scales and describes the relevant research and applications The second purpose for this book involves the general field of personality psychology Often personality constructs emerge occupy center stage for the better part of a decade and then almost silently disappear from view By contrast the locus of control construct has occupied a central position in personality research for a decade The contributions to this volume represent some of the innovations that extend the utility of the locus of control construct to different areas of concern It illustrates a simple principle that a construct continues to be viable only as long as it continues to inspire innovations if it remains static the construct will eventually disappear This book is intended to provide information regarding new developments and to encourage new questions and applications that may allow the locus of control construct to outlive the brief life span that is common among personality constructs It is assumed that the reader is already familiar with the basic literature on locus of control research      *Social Psychology, 2nd Edition* Roger Brown, 1986

Providing a complete new set of information in the second edition world renowned psychologist Roger Brown provides insight on language and communication issues of sexual liberation and equity and altruism in regard to social psychology A completely revised book with new organization and topics in comparison to the first volume *Social Psychology* evaluates the pros and cons of current arguments in the ever changing world of psychology In a balance of opinion and research in order to activate a flow of relevant memories and introspection

Roger Brown helps readers comprehend abstract concepts and principles in psychology As each chapter is fully understandable on its own this reference book is the perfect source of information for students teachers and professionals

**Control in the Elderly** P.S. Fry, 1988-12-01 The past few years have witnessed widespread acceptance of the notion that few elderly individuals are willing to stand by silently in the process of growing and to relinquish whatever actual controls autonomy or control beliefs they had in the past Increasingly old age is viewed as the dynamics of growth in mastery control and self efficacy on the one hand and a relative decline in psychological and physical resources on the other It is the intent of this volume to communicate both aspects of these changes and to offer a comprehensive review of the cross fertilization of the field of gerontology and the psychology of reactance freedom and control Leading psychologists and social science researchers from the United States Canada and Europe give their views on the meaning and application of control related constructs having specific implications for the field of human aging They address themselves to one or more of the major themes issues or concerns which currently figure in discussions of control beliefs and control constructs as they apply to aging and old age Written primarily for scholars researchers and developmental theorists interested in the complexities and generativity of control constructs and their applications for the psychological well being of older adults the data and issues presented will be equally informative to gero psychologists and mental health professionals concerned with healthy adaptive functioning of the elderly **Annual Review of Gerontology and Geriatrics, Volume 29, 2009**, 2009-11-01 It is

increasingly recognized that an individual's experience of old age is fundamentally influenced by their earlier life experiences This volume of the Annual Review of Gerontology and Geriatrics begins with an overview of the theoretical underpinnings of both the Life Span and the Life Course perspectives on health disparities in aging populations examining them in the context of a changing structure of society This volume focuses on morbidities in general as well as specific morbidities such as diabetes cardiovascular disease and hypertension giving special attention to life time influences on cognition and functional abilities Finally this new volume addresses broader policy issues with relation to Life Span and Life Course perspectives on aging Key Features Addresses an important topic of increasing relevance Addresses the issue of disparities from genes to geography Presents traditional and emerging scientific perspectives *Evaluation in Social Work* Yvonne A. Gabor, Richard M. Grinnell, 2007 This book was written for you a graduate social work student as an introduction to program evaluation We selected and arranged its contents so it can be used in a beginning one semester social work program evaluation course a social work administrative course or a program planning course It is designed to prepare you to Participate in evaluative activities within your social service organization Become a beginning critical producer of the professional evaluative literature Become a beginning consumer of the professional evaluative literature Master more advanced evaluation courses and texts Introducing Sport Psych Prac Guid A. Leunes, 2011 An INTRODUCING PRACTICAL GUIDE to optimizing your mind for sports *Life in the Middle* Sherry L. Willis, James B. Reid, 1998-11-03 There is a growing body of scientific knowledge regarding development during the middle years which has so far been relegated to discipline specific texts and journals e g clinical psychology and endocrinology *Life in the Middle* consolidates main findings across disciplines with a life span perspective regarding mid life Coverage includes individual development in middle age from the psychological and biological perspectives as well as the sociocultural context in which middle aged individuals live and work including physical health in mid life psychological well being cognitive development the impact of work on the individual and the general development of the self This age period is increasingly becoming the focus of scholarly attention as the largest cohort in U S history are now moving into the middle years e g the babyboomers From 1990 to 2015 the number of middle aged people will increase 72 percent from 47 to 80 million Contributors are outstanding scholars in the field of adult development Addresses critical theoretical issues in midlife Includes important contributions to our understanding of physical health at midlife Presents a thorough review of women s health at midlife Takes a holistic approach to biopsychosocial functioning at midlife *The Cognitive Foundations of Personality Traits* Shulamith Kreitler, Hans Kreitler, 2013-06-29 Hardly anything in psychology is as irking as the trait concept Psychologists and laypersons alike use primarily adjective trait names to characterize and even conceptualize the individuals they encounter There are more than a hundred well defined personality traits and a great many questionnaires for their assessment some of which are designed to assess the same or very similar traits Little is known about their ontogenetic development and even less about their underlying dynamics Psychoanalytic theory was invoked for explaining the psychodynamics underlying a few personality traits without however presenting sufficient empirical evidence for the validity of these interpretations In a reductionistic vein behaviorally inclined psychologists have propounded the thesis that all traits are acquired behaviors Yet this view neither reduces the number of personality tests nor explains the resistance of traits to modification by means of reward and punishment Dissatisfied with these and some other less well known approaches to personality traits we decided to explore whether applying our psychosemantic theory of cognition to the trait concept would do better The way we had to follow was anything but easy Psychology Library Editions: Personality Various, 2021-07-29 The study of personality has a long history and many different theoretical viewpoints within psychology Psychology Library Editions Personality 16 Volume
