The Researcher's Toolkit David Wilkinson, 2000 *The Researcher's Toolkit* is a practical rather than an academic text for all those undertaking perhaps for the first time small scale research Written by an experienced team of practising researchers it covers the entire research process from designing and submitting a research proposal through to its completion This book is suitable for all researchers but is particularly designed for those practitioner based researchers from the fields of education social work nursing criminal justice and community work This fresh new idea for those conducting small scale research comes from a team of practising researchers who possess a broad range of experiences and knowledge of research design execution and completion They write in a user friendly style that those researchers new to the subject will find easy to follow and understand It will act both as a roadmap to planning execution and completing research and also as a dip in reference guide Using features such as activity boxes to highlight key concepts and short summary boxes to indicate fundamental elements of the research area under discussion this accessible book will be of great value to all who read it

The Researcher's Toolkit David Wilkinson, 2002-01-04 *The Researcher's Toolkit* is a practical rather than an academic text for all those undertaking perhaps for the first time small scale research Written by an experienced team of practising researchers it covers the entire research process from designing and submitting a research proposal through to its completion This book is suitable for all researchers but is particularly designed for those practitioner based researchers from the fields of education social work nursing criminal justice and community work This fresh new idea for those conducting small scale research comes from a team of practising researchers who possess a broad range of experiences and knowledge of research design execution and completion They write in a user friendly style

that those researchers new to the subject will find easy to follow and understand It will act both as a roadmap to planning execution and completing research and also as a dip in reference guide Using features such as activity boxes to highlight key concepts and short summary boxes to indicate fundamental elements of the research area under discussion this accessible book will be of great value to all who read it

Being a Researcher Nollaig Frost, 2024-11-12 The book covers what it is to be a researcher in that being a researcher is different to carrying out research The book's aim is to inform and support researchers at all stages of their research practice to understand what of themselves is important to research and how recognition of personal characteristics skills motivations and experiences can enhance both the quality of the research and its enjoyment It does this by showing the techniques of research practice and discussing that these form only part of what is necessary for research to be good research and that these aspects can be better understood and cultivated to aid becoming and maintain being a good researcher The work highlights the value and importance of the person people carrying out the research showing that whilst there are tasks and systematic approaches that must be used research quality is elevated and enhanced by understanding that it is not only what a researcher does but who a researcher is that is just as important The book will be multidisciplinary in its approach by demonstrating that this is the case whatever approach to research is employed As such the text will be useful to objective researchers seeking a neutral observational stance subjective researchers regarding themselves as central to and often an instrument of the research and to researchers who strive to be both subjective and objective as in mixed methods research By exploring characteristics values and practices of researchers across different research approaches and in different settings the book will consider researchers who are successful in their research and who enjoy doing it researchers doing research as a requirement of their institution and researchers who learn to love research against their expectations Its emphasis throughout is on the person rather than the methods of research with the aim of equipping readers to nurture and encourage the researcher within them Each chapter takes as its focus an aspect of being a researcher and considers it first in general and then in more detail across different approaches Each chapter will include reflections and insights from researchers in different fields gathered from interviews with them and salient points will be highlighted in and summarised with a Key Points section at the end of each chapter
