Porter, 2005 Parts of Africa experience persistent violence and seemingly intractable conflicts These violent conflicts have drawn researchers seeking to determine and explain why conflicts are prevalent what makes them intensify and how conflicts can be resolved This book examines the ethical and practical issues of researching within violent and divided societies It provides fascinating and factual case studies from Angola the Democratic Republic of Congo Ghana Nigeria Rwanda and South Africa The authors provide insights about researching conflict in Africa that can only be gained through fieldwork experience *Understanding Peace Research* Kristine Hoglund, Magnus Oberg, 2011-03-01 This textbook provides a comprehensive overview of different methods and sources of information gathering for peace and conflict students and researchers as well as the challenges presented by such work Research on conflict ridden societies carries special challenges for the collection and evaluation of information about the conflict and its actors First due to the nature of information emerging incentives to misrepresent and propaganda is common News coverage is sometimes poor and reporting is often incomplete selective and biased Second the sensitivity of the topic and the questions posed in peace and conflict research means that access to and the security of informants can be a problem Peace and conflict research as a discipline encompasses a number of different approaches for obtaining empirical information which serve as a basis for analyzing various research topics This book provides a comprehensive overview of different methods and sources of information gathering for students and researchers as well as the challenges presented by such work It offers tools for evaluating sources and information suggestions on where different types of information can be found advice on using different types of sources including news reports and written narratives practical guidelines for constructing large scale datasets insights and guidelines for comparative fieldwork in depth interviews focus groups and surveys reflection and discussion on important ethical concerns in peace research This book will be of much interest for students and researchers of peace and conflict studies conflict resolution war and conflict studies development studies security studies and IR as well as for NGO workers researchers Kristine Hoglund is Associate Professor at the Department of Peace and Conflict Research Uppsala University She has a PhD in Peace and Conflict Research from Uppsala University Sweden 2004 She is author of *Peacemaking in the Shadow of Violence* Magnus berg is Associate Professor at the Department of Peace and Conflict Research Uppsala University and Associate Editor of the *Journal of Peace Research* since 2006 He has a PhD in Peace and Conflict Research from Uppsala University 2003 and is co editor of *Resources Governance and Civil Conflict* Routledge 2008

Participatory Research Methodologies Alpaslan Özerdem, Richard Bowd, 2016-05-13 Participatory research methodologies have been used since the 1970s as a tool to garner accurate information about communities in which development practitioners operate. Their usefulness as a collection of research techniques has been evident in academic disciplines such as politics, sociology, anthropology, and economics among others. This informative text assesses the use of participatory methods as a research tool in the contexts of development and reconstruction after conflict and disasters by identifying cross-cutting themes and establishing a comparative lessons learned framework that can help inform future uses of them both for practitioners and researchers. More importantly, rather than adopting a prescriptive perspective, this book provides a critical analysis of such methodologies. Specifically, the reader will benefit from the collation of the experiences of those who utilize participatory research methods in different countries and contexts and from different academic and practitioner perspectives.

The Ashgate Research Companion to Political Violence Marie Breen-Smyth, 2016-03-23 Aimed at scholars, students, and lay persons interested in peace and conflict studies, *The Ashgate Research Companion to Political Violence* is a comprehensive resource to understand the principal debates on political violence, a field which is becoming an increasingly important part of courses on peace and conflict. Organized into seven main sections, this volume deals with a wide range of issues covering the following important research areas: Issues of definition and nomenclature and how contests over these relate to political violence; Theoretical frameworks and methods for understanding and researching political violence; Motivations and goals of those who use political violence; The various forms of political violence; Perspectives on countering political violence by state and non-state actors; Why and how political violence ends; The aftermath of political violence. Contributions by leading scholars in the field provide an authoritative guide and source book on political violence for the scholar, the researcher, and the informed general reader.

Ethics and Values in Social Research Paul Ransome, 2013-04-23 Ethical responsibility has intellectual and practical implications for social researchers. This book explores a range of issues, theories, and questions enabling readers to reflect upon, understand, and critique these with confidence. With helpful examples and a glossary of terms, it is essential reading for new and experienced researchers alike.

Transitional Justice in Practice Renée Jeffery, 2017-01-06 This book examines the practice of transitional justice in the Solomon Islands from the period of *The Tensions* to the present. In late 1998, the Solomon Islands were plunged into a period of violent civil conflict precipitated by a complex web of grievances, injustices, ethnic tensions, and economic insecurities. This conflict dragged on until the middle of 2003, leaving an estimated 200 people dead and more than 20,000 displaced from their homes. In the time that has elapsed since the end of *The Tensions*, numerous at times incompatible approaches to transitional justice have been implemented in the Solomon Islands. The contributors to this volume examine how key global trends and debates about transitional justice were played out in the Solomon Islands, how its key mechanisms were adapted to meet the specific demands of post-conflict justice in this local context, and how well its practices and

processes fulfilled their perceived functions **Peace and Conflict: Europe and Beyond** Alexander I Gray,Ibrahim Al-Marashi,2006-01-01 Peace and Conflict Studies is an increasingly observed discipline as researchers seek to investigate complex issues and to aid in the building of knowledge which can be used towards transforming conflict Analyzing case studies from Europe and beyond this edited volume seeks to provide theoretical tools and alternative approaches for examining the root causes of violence and to extrapolate possibilities for transcending peace through conflict transformation The reader is presented with specific case studies from the Middle East South Eastern Europe the Mediterranean rim and South America What differentiates this work is that more than just analyzing the conflicts contributors offer either methodological or theoretical alternatives for their transformation While not discarding the value of traditional approaches to conflict resolution a new generation of peace workers is emerging and proposing that a certain level of conflict is a natural and sometimes necessary aspect of human relations There is a growing recognition that it would be almost impossible to rid society of conflict altogether A view that is gaining increasing currency is one which promotes the idea of conflict transformation This approach entails transforming levels of conflict in order to alleviate discord avoid violence and create circumstances for future peace building **New Perspectives in Political Ethnography** Lauren Joseph,Matthew Mahler,Javier Auyero,2007-09-20 The use of ethnographic research social research based on the observation of individuals or institutions where the researcher becomes part of the group or very close to the group to better understand their actions is becoming more and more of a prevalent methodology within sociology As ethnography gains prominence within the discipline its focus theoretical underpinnings and narrative styles are also expanding to the yet unexamined worlds and institutions of society Politics political institutions and those working in politics state officials politicians and activists have so far missed the lens of the ethnographer As a group politicians and those in politics can be found in every corner of the world While political systems and politicians are by no means the same in every country what brings these people together to be part of the political process Ethnography is uniquely equipped to look microscopically at the foundations of political institutions and their attendant sent of practices just as it is ideally suited to explain why political actors behave the way they do and to identify the causes processes and outcomes that are part and parcel of political life The volume based on a special issue of Qualitative Sociology has a two fold purpose to bring politics into the ethnographic literature and of ethnography in studies of politics The case studies included are based on the research of ethnographers studying the various level of politics in Brazil Japan El Salvador Bosnia the Philippines India and the United States It will be of interest to those in the sociology of politics political science and those looking for ethnographic research on a global level **Legitimacy in Peacebuilding** Franzisca Zanker,2017-09-13 The book offers a critical analysis of legitimacy in peacebuilding with a focus on peace negotiations and civil society participation in particular The aim of this book is to unpack the meaning of legitimacy for the population in peacebuilding processes and the relationship this has with civil society involvement There is a growing

consensus for addressing local concerns in peacebuilding with the aim of ensuring local ownership Moreover scholars have noted a relationship between civil society inclusion in peace negotiations and legitimacy Yet the very idea of legitimacy remains a black box Using data from original empirical fieldwork including over 100 semi structured interviews and 12 focus group discussions the book focuses on two case studies of negotiations that respectively ended a long civil war in Liberia in 2003 and ended the post election violence in Kenya in 2008 It argues that civil society involvement is conceptually insufficient to show a multidimensional understanding of legitimacy Instead the book shows a complex picture of legitimate peace negotiations based on outcome and participation based characteristics with the involvement of both guarantors of legitimacy and a more general civic agency which includes the general population Through forms of participative communication the passive audience become active stakeholders in the construction of legitimacy This has repercussions for how we think about civil society and peacebuilding more generally This book will be of much interest to students of peacebuilding conflict resolution security studies and IR in general

Researchers and Their 'subjects' Marie Smyth, Emma Williamson, 2004-10-13 Offering an insight into research participants perspectives and discussing the ethical regulations and guidance governing researchers in different disciplines this work analyses case studies of innovative research projects where ethics have been central to the researcher subject relationship

Doing Global Fieldwork Jesse Driscoll, 2021-04-13 To do quality research many social scientists must travel to far flung parts of the world and spend long stretches of time living in places they find unfamiliar and uncomfortable No matter how prepared researchers think they are everyone encounters unexpected challenges in the course of their work in the field In *Doing Global Fieldwork* the political scientist Jesse Driscoll offers a how to guide for social scientists who are considering extended mixed methods international fieldwork He details the major steps in fieldwork planning and execution from creating a plan to what happens when political conditions throw up obstacles to research to distilling and writing up research findings upon return Driscoll emphasizes the ability to improvise and adapt because in the field ideas will shift plans will change and something will inevitably go wrong He offers a practical overview of the types of psychological and physical preparation professionalization and self presentation that social scientists conducting research abroad need to prioritize Driscoll describes the challenges that arise when working in difficult settings such as war zones areas of contested sovereignty and volatile nondemocratic states He explores the practical and ethical considerations for data collection in these unique situations including whether and how much to reveal about one's research and common psychological harms associated with fieldwork *Doing Global Fieldwork* is an up to date methodological guide for graduate students and social science researchers of all stripes who need blunt no nonsense advice about how to make the best of their time in the field

Women and the Lebanese Civil War Jennifer Philippa Eggert, 2021-11-09 This book analyses the reasons for women's participation in the various Lebanese and Palestinian militias involved in the Lebanese Civil War 1975-1990 Whilst most existing accounts of the Civil War in Lebanon either overlook the roles and experiences of women

entirely or focus on women as victims or peacemakers only Women and the Lebanese Civil War highlights that women were involved as militants and often also as fighters in all of the militias partaking in the war Analysing individual motivations organisational characteristics security related aspects and societal factors the book explains why women were included as fighters in some of the militias but not in others Based on extensive fieldwork in Lebanon the book is the first comprehensive study of female perpetrators and supporters of political violence during the Lebanese Civil War Beyond the case of Lebanon it questions widespread assumptions about the roles of women at times of violent conflict and war **Doing Narrative**

Research Molly Andrews, Corinne Squire, Maria Tamboukou, 2013-07-22 Written by an international team of experts in the field the second edition of this popular text considers both the theoretical underpinnings and practical applications of narrative research The authors take the reader from initial decisions about forms of narrative research through more complex issues of reflexivity interpretation and the research context Existing chapters have been updated to reflect changes in the literature and new chapters from eminent narrative scholars in Europe Australia and the United States have been added on a variety of topics including narratives and embodiment visual narratives narratives and storyworlds new media narratives and Deleuzian perspectives in narrative research This book will be invaluable for all students researchers and academics looking to use narrative methods in their own social research *Insider Research on Migration and Mobility* Lejla Voloder, Liudmila Kirpitchenko, 2016-05-23 With an increasing proportion of migration and mobility field studies being conducted by migrants and members of ethnic minorities in home contexts the implications of insider research are increasingly subject critical scrutiny Researchers who may share migration experiences or cultural ethnic linguistic or religious identities with their participants are exploring the means ethics and politics of mobilizing insider capital for the purpose of gaining access to and representing research participants Bringing together the latest international scholarship in the sociology and anthropology of migration this volume explores the complexities joys and frustrations of conducting insider research The book offers analyses of key methodological ethical and epistemological challenges faced by migration researchers as they question the ways in which they come to identify with their research topic or their participants Addressing questions of identity and categorization ethics and methodology epistemology and situated knowledge *Insider Research on Migration and Mobility* will appeal to scholars across the social sciences with interests in migration mobilities diaspora studies and ethnic and racial identities as well as those interested in qualitative research design and analysis
