underscores how Africa has failed to use either technology or intellectual property for its development effectively and proposes some reforms. The book explores the intersection of IP and technology in areas such as cultural heritage, tax, education, and agriculture among others. While the problem of access and adoption underpins the entire book, each chapter offers a different perspective on tackling this issue. This book will interest researchers and scholars working in the areas of intellectual property, technology, law, and development in Africa, as well as lawmakers, policymakers, state actors, and other stakeholders concerned with the access and adoption of technologies in emerging economies. It was originally published as a special issue of the *International Review of Law, Computers, Technology* **Books in Print**, 1994 **Personnel Literature** United States Civil Service Commission. Library, 1970 *Piety and Public Funding* Axel R. Schäfer, 2012-06-28. How is it that some conservative groups are viscerally antigovernment even while enjoying the benefits of government funding? In *Piety and Public Funding*, historian Axel R. Schäfer offers a compelling answer to this question by chronicling how in the first half century since World War II, conservative evangelical groups became increasingly adept at accommodating their hostility to the state with federal support. Though holding to the ideals of church-state separation, evangelicals gradually took advantage of expanded public funding opportunities for religious, foreign aid, health care, education, and social welfare. This was especially the case during the Cold War when groups such as the National Association of Evangelicals were at the forefront of battling communism at home and abroad. It was evident too in the Sunbelt where the military-industrial complex grew exponentially after World War II and where the postwar right would achieve its earliest success. Contrary to evangelicals' own claims, liberal public policies were a boon, not a threat, to their own institutions and values. The welfare state forged during the New Deal and renewed by the Great Society hastened, not hindered, the ascendancy of a conservative political movement that would in turn use its resurgence as leverage against the very system that helped create it. By showing that the liberal state's dependence on private and nonprofit social services made it vulnerable to assaults from the right, *Piety and Public Funding* brings a much-needed historical perspective to a hotly debated contemporary issue: the efforts of both Republican and Democratic administrations to channel federal money to faith-based organizations. It suggests a major reevaluation of the religious right which grew to dominate evangelicalism by exploiting institutional ties to the state while simultaneously brandishing a message of free enterprise and moral awakening **Shaping History** Helen Geracimos Chapin, 1996-07-01. Just a decade after the first printing press arrived in Honolulu in 1820, American Protestant missionaries produced the first newspaper in the islands. More than a thousand daily, weekly, or monthly papers in nine different languages have appeared since then. Today they are often considered a secondary source of information, but in their heyday, Hawai'i's newspapers formed one of the most diversified, vigorous, and influential presses in the world. In this original and timely work, Helen Geracimos Chapin charts the role Hawai'i's newspapers played in shaping major historic events in the islands and how the rise of the newspaper abetted the rise of American influence in Hawai'i. *Shaping History* is based on a wide selection of

written and oral sources including extensive interviews with journalists and others working in the newspaper industry Students of journalism and Hawaiian history will find this comprehensive history of Hawai i s newspapers especially valuable
