Residential Child Care An International Reader:

Residential Child Care Me'ir Gotesman, 1991 This book provides an overview of the history current state and future prospects of 22 residential child and youth care and education systems as they were at the time of writing The book concentrates on Europe and North America While not a formal comparative study the contributors follow uniform guidelines thus enabling the reader to draw parallels between the various systems Despite enormous cultural and social differences similarities between the systems seemed greater than dissimilarities The book also demonstrates how considerable progress had been made worldwide in the 25 years up to publication The book is a companion volume to Recent Changes and New Trends in Extrafamilial Child Care An international perspective also published by Whiting and Birch

The Occupational Experience of Residential Child and Youth Care Workers Jerome Beker, Mordecai Arieli, 2013-04-03 From open and straightforward accounts of residential care workers The Occupational Experience of Residential Child and Youth Care Workers shows you how care is handled not how it should be handled This book introduces you to a social reality a sometimes very difficult and challenging social reality as it is viewed by its participants If you want to know more about what is actually going on in residential care and the discontent that workers frequently experience this is the book that lays out the facts the problems and the nature of residential youth centers The Occupational Experience of Residential Child and Youth Care Workers broaches the problem of tension between workers and residents and hopes that bringing the problem out into the open will be a first step toward a solution You learn that the very arrangement of residential care automatically sets up antagonism between the sole group care worker and his/her wards residents tend to resist the inherently coercive efforts of the worker who tries to bring them through processes of change and socialization The Occupational Experience of Residential Child and Youth Care Workers will make you think about residential care and conflicts group interaction career satisfaction and dissatisfaction interpretive sociology of education and its methodology social control Interviews with Israeli residential care workers are presented to help you understand the circumstances under which residential care providers experience discontent or job dissatisfaction You learn which workers are most likely to feel discontented and how staff members cope with the stress and discontent they experience Youth care workers policymakers child care staff recruiters supervisors and trainers will find this book sheds much light on the problem of discontent and the need to make child and youth care facilities more humane for residents and staff alike It will also help social work educators and researchers in sociology social work and the social psychology of education get in touch with what goes on inside the walls of residential care centers
