

An abstract painting of a nest. Several bright yellow, oval-shaped eggs are nestled among dark green, black, and blue branches. The background is a mix of these colors, creating a textured, painterly effect. A white rectangular box with a thin black border is centered over the lower half of the image, containing the title and author's name.

*Mental Disorders in the Social Environment* Stuart A. Kirk, 2005 Social workers provide more mental health services than any other profession yet recent biomedical trends in psychiatry appear to minimize the importance of their traditional concerns which focus on the social environment that accompanies mental disorders and their treatment In twenty four chapters written by distinguished scholars this book not only calls attention to this emerging problem and challenges conventional mental health beliefs and practices but also raises provocative questions Has social work become too closely associated with psychiatry and too quick to adopt a medical approach Has the focus on the therapeutic relationship negated social work's commitment to social reform Is the social worker marginalized by the emphasis in mental health on biochemistry and psychopharmacology This book calls on social workers and other health care professionals to be more skeptical about diagnosis community treatment evidence based practice psychotherapy medications and managed care

**Childhood, Youth, and Social Work in Transformation** Lynn

M. Nybell, Jeffrey J. Shook, Janet L. Finn, 2009-01-30 Social workers today not only face competing claims concerning the rights and needs of children and youth but they also confront contradictions between policy and practice Social workers are expected to fight for the best interests of the child even though financial support for children's welfare and education grows scarce They are asked to save children at risk while at the same time they are urged to protect communities from risky children and they are encouraged to leave no child behind while also implementing zero tolerance policies to keep educational environments free from troubled youth A cutting edge text that deals directly with the confusion and complexity of modern child welfare *Childhood Youth and Social Work in Transformation* features contributions from a truly interdisciplinary group of practitioners scholars and activists Examining the theoretical political and practical aspects of working with youth today this volume breaks free from existing modes of thought and strategies of practice and prompts readers to critically reflect on accepted approaches and new possibilities of action Contributors analyze how economic political and cultural changes over the last several decades have reshaped the experiences and representations of children and youth in the United States They examine conceptions of troubled children and youth in contemporary policies and programs and assess why certain discourses about troubling youth are so compelling to professionals policymakers and the public In conclusion these skilled professionals explore the reinvention of social work policy and practice including the need to forge relationships that respect the experiences rights and personhood of children and youth *The Development of Criminal and Antisocial Behavior* Julien Morizot, Lila Kazemian, 2014-12-02 This edited book summarizes the current state of knowledge on the development of criminal and antisocial behavior over the life course It focuses mainly on the developmental perspective which has had a paradigmatic influence on current theoretical and empirical works in criminology With a multidisciplinary perspective the book reviews a the fundamental concepts of developmental criminology b the risk factors and developmental processes related to the most salient personal e g genetics personality and environmental e g family peers school domains explaining the development of criminal and antisocial behavior c the developmental issues related to a number a special themes e g women criminality street gangs and d the applied and policy implications of research in developmental criminology In each chapter prominent researchers from different disciplines such as criminology and psychology summarize the state of knowledge on a specific topic identify the shortcomings of past research offer recommendations for future research needs **Professional Issues in Child and Youth Care Practice** Kiaras Gharabaghi, 2013-09-13 This book provides an overview of the core professional issues in the field of child and youth care practice The author explores themes ranging from relationships and the exploration of Self to career building and field specific approaches to management The book is written from a pragmatic perspective and serves both to advance current thinking in the field about professional issues as well as to provide the student of child and youth care practice and practitioners with practical and accessible approaches to developing a strong and sustainable professional identity All of the

themes in this book are explored within a context of ethical decision making and practice approaches informed by a commitment to children's rights and empowerment. Throughout the discussions, concepts and themes are considered in relation to four specific lenses: the power lens, the diversity lens, the language lens, and the transitioning from theory to practice lens. These lenses serve to ensure that the reader adopts a critical understanding of the professional issues in the field and is able to develop his or her own professional identity while mitigating the power and identity issues necessarily associated with being a practitioner in a helping profession. This book was published as a special issue of *Child and Youth Services*.
