"Heil Hitler"? François Roux, 2023-12-21 If a deep and lasting crisis shook our democracies as happened to German society from 1929 to 1933 would we be able to resist the fascist temptation On January 31 1933 thirty two million Germans who had not voted Nazi woke up caught in the trap of dictatorship How did they behave under the new power How did they react to the suppression of freedoms to the recruitment to the anti Semitic persecutions to the march towards war What compromises were necessary to survive Was it possible not to collaborate with the Third Reich Was it possible to resist it and how By comparing more than two hundred testimonies with the works of the greatest historians of this period François Roux carries out a panoramic study of the history of Nazism and the Germans from 1918 to 1946 He also forces us to challenge our preconceived notions yes thousands of Germans died resisting Hitler's Reich and no the majority of them did not want this regime By making us face the choices they had to make this book gives us an intimate almost physical understanding of the relationship between dictatorship and its subjects and tells us a story that could one day be our own François Roux has studied cognitive psychology For the past twelve years he has been exploring the mechanisms of submission and resistance of individuals and groups in situations of extreme duress A regular contributor to the history magazine *Gavroche* François Roux has published *La Grande guerre inconnue les poilus contre l'armée française* Ed Max Chaleil 2006 Since 2007 he has been working as a consultant in the field of organization and management for the professional branch of the book trade
