**Teaching a Dark Chapter** Daniela R. P. Weiner,2024-07-15 Teaching a Dark Chapter explores how textbook narratives about the Fascist Nazi past in Italy East Germany and West Germany followed relatively calm undisturbed paths of little change until isolated flashpoints catalyzed the educational infrastructure into periods of rapid transformation Though these flashpoints varied among Italy and the Germanys they all roughly conformed to a chronological scheme and permanently changed how each dark past was represented Historians have often neglected textbooks as sources in their engagement with the reconstruction of postfascist states and the development of postwar memory culture But as Teaching a Dark Chapter

demonstrates textbooks yield new insights and suggest a new chronology of the changes in postwar memory culture that other sources overlook Employing a methodological and temporal rethinking of the narratives surrounding the development of European Holocaust memory Daniela R P Weiner reveals how long before 1968 textbooks in these three countries served as important tools to influence public memory about Nazi Fascist atrocities As Fascism had been spread through education then education must play a key role in undoing the damage Thus to repair and shape postwar societies textbooks became an avenue to inculcate youths with desirable democratic and socialist values Teaching a Dark Chapter weds the historical study of public memory with the educational study of textbooks to ask how and why the textbooks were created what they said and how they affected the society around them    **Nazi Germany** Catherine A. Epstein,2014-12-22 Nazi Germany Confronting the Myths provides a concise and compelling introduction to the Third Reich At the same time it challenges and demystifies the many stereotypes surrounding Hitler and Nazi Germany Creates a succinct argument driven overview for students by using common myths and stereotypes to encourage critical engagement with the subject Provides an up to date historical synthesis based on the latest research in the field Argues that in order to fully understand and explain this period of history we need to address its seeming paradoxes for example questioning why most Germans viewed the Third Reich as a legitimate government despite the Nazis criminality Incorporates useful study features including a timeline glossary maps and illustrations

**Between Nazis and Soviets** Marek Jan Chodakiewicz,2004-01-01 Between 1939 and 1947 the county of Jan w Lubelski an agricultural area in central Poland experienced successive occupations by Nazi Germany 1939 1944 and the Soviet Union 1944 1947 During each period the population including the Polish majority and the Jewish Ukrainian and German minorities reacted with a combination of accommodation collaboration and resistance In this remarkably detailed and revealing study Marek Jan Chodakiewicz analyzes and describes the responses of the inhabitants of occupied Jan w to the policies of the ruling powers He provides a highly useful typology of response to occupation defining collaboration as an active relationship with the occupiers for reasons of self interest and to the detriment of one s neighbors resistance as passive and active opposition and accommodation as compliance falling between the two extremes He focuses on the ways in which these reactions influenced relations between individuals between social classes and between ethnic groups Casting new light on social dynamics within occupied Poland during and after World War II Between Nazis and Soviets yields valuable insight for scholars of conflict studies
