Resistances Of Psychoanalysis Meridian Stanford Univ Pr:

Resistances of Psychoanalysis Jacques Derrida, 1998 In the three essays that make up this stimulating and often startling book Jacques Derrida argues against the notion that the basic ideas of psychoanalysis have been thoroughly worked through argued and assimilated The continuing interest in psychoanalysis is here examined in the various resistances to analysis conceived not only as a phenomenon theorized at the heart of psychoanalysis but as psychoanalysis's resistance to itself an insusceptibility to analysis that has to do with the structure of analysis itself Derrida not only shows how the interest of psychoanalysis and psychoanalytic writing can be renewed today but these essays afford him the opportunity to revisit and reassess a subject he first confronted in an essay on Freud in 1966 They also serve to clarify Derrida's thinking about the subjects of the essays Freud Lacan and Foucault a thinking that especially with regard to the last two has been greatly distorted and misunderstood The first essay on Freud is a tour de force of close reading of Freud's texts as philosophical reflection By means of the fine distinctions Derrida makes in this analytical reading particularly of *The Interpretation of Dreams* he opens up the realm of analysis into new and unpredictable forms such as meeting with an interdiction when taking an analysis further is forbidden by a structural limit Following the essay that might be dubbed Derrida's return to Freud the next is devoted to Lacan the figure for whom that phrase was something of a slogan In this essay and the next on Foucault Derrida reencounters two thinkers to whom he had earlier devoted important essays which precipitated stormy discussions and numerous divisions within the intellectual milieus influenced by their writings In this essay which skillfully integrates the concept of resistance into larger questions Derrida asks in effect What is the origin and nature of the text that constitutes Lacanian psychoanalysis considering its existence as an archive as teachings as seminars transcripts quotations etc Derrida's third essay may be called not simply a criticism but an appreciation of Foucault's work an appreciation not only in the psychological and rhetorical sense but also in the sense that it elevates Foucault's thought by giving back to it ranges and nuances lost through its reduction by his readers his own texts and its formulaic packaging *Without Alibi* Jacques Derrida, Peggy Kamuf, 2002 This book brings together for the first time five recent essays by Jacques Derrida which advance his reflections on many issues lying perjury forgiveness confession the profession of faith and most recently cruelty sovereignty and capital punishment Strongly linked by their attention to performatives and the as if the essays show the necessity of thinking beyond the category of acts that are possible for a subject Derrida argues forcefully that thought must engage with the impossible that is the order of the unforeseeable event the absolute future still to come This acute awareness of the limits of performative programs informs the essays throughout and attunes them closely to events of a world undergoing globalization The first essay *History of the Lie* reviews some classic and modern definitions of the lie Augustine Rousseau Kant Koyr Arendt while renewing questions about what is called lying as distinguished from other forms of nontruth This inventive analysis is followed by *Typewriter Ribbon* which examines at length the famous lie recounted by

Rousseau in his Confessions when he perjured himself by accusing another of his own crime Paul de Man's reading of this textual event is at the center of Derrida's patient at times seriously funny analyses *Le parjure* Perhaps engages with a remarkable novel by Henri Thomas that fictionalizes the charge of perjury brought against Paul de Man in the 1950s Derrida's extraordinary fineness as a reader and thinker of fiction here treats to profound effect the fatal experience of perjury The two final essays *The University Without Condition* and *Psychoanalysis Searches the States of Its Soul* address the institutions of the university and of psychoanalysis as sites from which to resist and deconstruct the nontruth or phantasm of sovereignty For the university the principle of truth remains at the core of its resistance for psychoanalysis there is the obligation to remain true to what may be Derrida suggests its specific insight into psychic cruelty Resistance to the sovereign cruelty of the death penalty is just one of the stakes indicated by the last essay which is the text of a keynote address to the States General of Psychoanalysis held in Paris July 2000 Especially for this volume Derrida has written *Provocation* Forewords which reflects on the title *Without Alibi* while taking up questions about relations between deconstruction and America This essay foreword also responds to the event of this book which Peggy Kamuf in her introduction presents as event of resistance *Without Alibi* joins two other books by Derrida that Kamuf has translated for Stanford University Press *Points Interviews* 1974 1994 1994 and *Resistances of Psychoanalysis* 1998 *Twentieth-century European Cultural Theorists* Paul Hansom, 2001 Presents biographies of the men and women who wrestled with the complex theoretical problems of twentieth century culture Many of the theorists treated in this volume are concerned with the effects of mass culture technology and consumerism *Intoxication, Modernity, and Colonialism* Dušan I. Bjelić, 2017-01-25 This book depicts how Freud's cocaine and Benjamin's hashish illustrate two critiques of modernity and two messianic emancipations through the pleasures of intoxicating discourse Freud discovered the libido and unconscious in the industrial mimetic scheme of cocaine whereas Benjamin found an inspiration for his critique of phantasmagoria and its variant psychoanalysis in hashish's mimesis In addition as part of the history of colonialism both drugs generated two distinct colonial discourses and consequently two different understandings of the emancipatory powers of pleasure the unconscious and dreams After all great ideas don't liberate they intoxicate **What Is Psychoanalysis?** Barnaby B Barratt, 2013-05-20 2020 American Board Academy of Psychoanalysis ABAP's book award winner In a radically powerful interpretation of the human condition this book redefines the discipline of psychoanalysis by examining its fundamental assumptions about the unconscious mind the nature of personal history our sexualities and the significance of the Oedipus Complex With striking originality Barratt explains the psychoanalytic way of exploring our inner realities and criticizes many of the schools of psychoanalytic psychotherapy that emerged and prospered during the 20th century In 1912 Sigmund Freud formed a Secret Committee charged with the task of protecting and advancing his discoveries In this book Barratt argues both that this was a major mistake making the discipline more like a religious organization than a science and that this continues to infuse psychoanalytic institutes today What is

Psychoanalysis takes each of the four fundamental concepts that Freud himself said were the cornerstones of his science of healing and offers a fresh and detailed re examination of their contemporary importance Barratt s analysis demonstrates how the profound work as well as the playfulness of psychoanalysis provides us with a critique of the ideologies that support oppression and exploitation on the social level It will be of interest to advanced students of clinical psychology or philosophy as well as psychoanalysts and psychotherapists **Psychoanalysis and Literature** , Marilyn Charles,2015-03-25

Psychoanalysis offers many concepts that are extremely useful clinically but not always accessible in the original In Psychoanalysis and Literature The Stories We Live Marilyn Charles pairs case vignettes with examples from literature to highlight the essential human struggles that play out in the consulting room This pairing depathologizes those struggles and offers a conceptual framework that can help the clinician facilitate these journeys of discovery Describing first how literature affords an opportunity for vicarious engagement with struggles endemic to the human condition she then focuses on trauma dreams and cultural collisions turning more explicitly to the developmental challenges of identity relatedness aging and generativity Psychoanalysis and Literature is accessible relevant and timely Around the Book Henry Sussman,2011 A splendid addition to the now long list of Professor Sussman s admirable books J HILLIS MILLER University of California Irvine The Macabresque Edward Weisband,2018 Studies of genocide and mass atrocity most often focus on their causes and consequences their aims and effects and the number of people killed But if the main goal is death why is torture necessary By understanding how and why mass violence occurs and the reasons for its variations The Macabresque aims to explain why so many seemingly normal or ordinary people participate in mass atrocity across cultures and why such egregious violence occurs repeatedly through history **99 Poets/1999** Charles Bernstein,1999 99 Poets 1999 An International Poetics Symposium presents the work of ninety nine poets in dialogue with one another across the divides of language nation and temperament Grounded in resonances and affiliations among the contributing poets this issue is as striking for its interwoven themes concerns and forms as for its immediacy and intimacy Indeed this issue is the result of years of informal exchange through translations readings and visits Starting in 1997 with the help of several coeditors I asked poets from around the world to respond to a series of interrelated questions concerning national multinational international global regional or local contexts for their work as poets or for the poetry they most value Introduction

Making Sense of Society Alex Khasnabish,2022-05-30T00:00:00Z Grounded in the sister disciplines of sociology and anthropology this textbook is an accessible and critical introduction to contemporary social research Alex Khasnabish eschews the common disciplinary silos in favour of an integrated approach to understanding and practising critical social research Situated in the North American context the text draws on cross cultural examples to give readers a clear sense of the diversity in human social relations It is organized thematically in a way that introduces readers to the core areas of social research and social organization and takes an unapologetically radical approach in identifying the relations of oppression and

exploitation that give rise to what most corporate textbooks euphemistically identify as social problems Focusing on key dynamics and processes at the heart of so many contemporary issues and public conversations this text highlights the ways in which critical social research can contribute to exploring understanding and forging alternatives to an increasingly bankrupt violent unstable and unjust status quo **American Book Publishing Record** ,2000 Bibliographic Guide to Psychology New York Public Library. Research Libraries,2000 **Bookseller** ,1998 **One-Dimensional Man 50 Years On** Terry Maley,2017-06-27T00:00:00Z Herbert Marcuse's One Dimensional Man has been called one of the most important books of the post WWII era Published in 1964 Marcuse's work was highly critical of modern industrial capitalism its exploitation of people and nature its commodified aesthetics and consumer culture the military industrial complex and new forms of social control at the height of the Keynesian era Contributors to this collection assess the key themes in One Dimensional Man from a diverse range of critical perspectives including feminist ecological Indigenous and anti capitalist In light of the current struggles for emancipation from neoliberalism in Canada and across the globe this critical look at Marcuse's influential work illustrates its relevance today and introduces his work to a new generation *Law and Disorder* Illan Rua Wall,2020-12-20 Focusing on the moment when social unrest takes hold of a populace *Law and Disorder* offers a new account of sovereignty with an affective theory of public order and protest In a state of unrest the affective architecture of the sovereign order begins to crumble The everyday peace and calm of public space is shattered as sovereign peace is challenged In response the state unleashes the full force of its exceptionality and the violence of public order policing is deployed to restore the affects and atmospheres of habitual social relations This book is a work of contemporary critical legal theory It develops an affective theory of sovereign orders by focusing on the government of affective life and popular encounters with sovereignty The chapters explore public order as a key articulation between sovereignty and government In particular policing of public order is exposed as a contemporary mode of exceptionality cast in the fires of colonial subjection The state of unrest helps us see the ordinary affects of the sovereign order but it also points to crowds as the essential component in the production of unrest The atmospheres produced by crowds seep out from the squares and parks of occupation settling on cities and states In these new atmospheres new possibilities of political and social organisation begin to appear In short crowds create the affective condition in which the settlement at the heart of the sovereign order can be revisited This text thus develops a theory of sovereignty which places protest at its heart and a theory of protest which starts from the affective valence of crowds This book's examination of the relationship between sovereignty and protest is of considerable interest to readers in law politics and cultural studies as well as to more general readers interested in contemporary forms of political resistance **The Asian American Avant-Garde** Audrey Wu Clark,2015-10 The Asian American Avant Garde is the first book length study that conceptualizes a long neglected canon of early Asian American literature and art Audrey Wu Clark traces a genealogy of counter universalism in short fiction poetry novels and art produced

by writers and artists of Asian descent who were responding to their contemporary period of Asian exclusion in the United States between the years 1882 and 1945. Believing in the promise of an inclusive America, these avant-gardists critiqued racism as well as institutionalized art. Clark examines racial outsiders including Isamu Noguchi, Dong Kingman, and Yun Gee to show how they engaged with modernist ideas, particularly cubism. She draws comparisons between writers such as Sui Sin Far and Carlos Bulosan with modernist luminaries like Stein, Eliot, Pound, and Proust. Acknowledging the anachronism of the term Asian American with respect to these avant-gardists, Clark attempts to reconstruct it. *The Asian American Avant Garde* explores the ways in which these artists and writers responded to their racialization and the Orientalism that took place in modernist writing. **Cruel Delight** James A. Steintrager, 2004. *Cruel Investigation* investigates the fascination with joyful malice in 18th-century Europe and how this obsession helped inform the very meaning of humanity. James A. Steintrager reveals how the understanding of cruelty moved from an inexplicable, apparently paradoxical, inhuman pleasure in the misfortune of others to an eminently human trait stemming from will and freedom. *Forthcoming Books* Rose Arny, 1998-04.

Collectivity in Struggle Shaul Setter, 2021-01-15. We live in a neoliberal regime that works to dismantle social institutions and eradicate forms of collective gathering. Over and against this state of affairs, *Collectivity in Struggle* revisits a crucial moment in recent history when the formation of collectivity sat at the heart of a radical emancipatory struggle and called for a creative endeavor, both artistic and political. The book examines two projects developed in the 1970s: Jean Luc Godard's cinematic engagement with the Palestinian forces and Jean Genet's textual enterprise alongside them. Through an inverse reading that uncovers from the seemingly discrete and finalized artworks Godard's film or Genet's book, the process of their becoming. Shaul Setter explores the ways in which these projects portray and conceptualize the revolutionary stage of the Palestinian revolt, its abrupt end, and two different modes of prolonging it. Concentrating on their formal experimentation, their potentiality for collective enunciation, their conflicted positioning on the threshold of colonial European culture, and the hidden Semitic languages inscribed in them, Setter claims that these two projects insist on the writerly aspects of revolutionary political action. *And Justice for All?* Ian Balfour, Eduardo Cadava, 2004. Questions of human rights are among the most pressing and intractable matters at this historical moment. If claims to human rights are by definition universal, the formulation, legislation, and implementation of them tend to be significantly less than universal. *And Justice for All*, a special issue of *SAQ*, examines the idea and the reality of human rights and their attendant discourses. The essays gathered here, from academics and activists working in law, philosophy, political theory, literature, medicine, and NGOs, collectively interrogate these universal claims to human rights and the political justice that may or may not follow from them. Grappling with the philosophical and theoretical questions at the heart of human rights, these essays take into consideration current political configurations such as sovereignty, genocide, humanitarian intervention, and the neglected domain of cultural rights: the right to a cultural identity. Drawing on Enlightenment thinking about human rights at the same time that they

analyze the central concepts at work there including the humanity of man and the nature of rights or of law the contributors make a necessary intervention in a world system that Enlightenment thinkers could scarcely have envisioned Contributors Etienne Balibar Rony Brauman Wendy Brown Rebecca Comay Jacques Derrida Paul Downes Werner Hamacher Thomas Keenan Susan Maslan Jacques Rancière Bruce Robbins Avital Ronell Gayatri Chakravorty Spivak Elsa Stamatopoulou Slavoj Žižek
