Técnicas reproductivas en las especies animales Carlos C. Pérez Marín, Lydia Gil Huerta, Luis Ángel Quintela Arias, 2023-09-14 Técnicas reproductivas en las especies animales recoge de forma clara y precisa y con un enfoque eminentemente práctico todas las actuaciones que se llevan a cabo en el campo de la biotecnología de la reproducción. Sus contenidos se estructuran en secciones temáticas bien diferenciadas que incluyen el control del ciclo estral la obtención de semen la conservación del esperma la inseminación artificial la transferencia y criopreservación de embriones y las técnicas de producción in vitro. Dentro de cada sección y con objeto de facilitar la consulta cada capítulo se centra en una sola especie animal: equinos, bovinos, pequeños rumiantes, cerdos, perros y gatos. Incluye una sección dedicada a las técnicas reproductivas de mayor interés en conejos, camélidos y gallinas, especies de gran importancia pero a menudo pasadas por alto en otros manuales de la especialidad. Todos los capítulos han sido elaborados por profesionales docentes e investigadores especializados en sus áreas respectivas que aportan su amplia experiencia y conocimientos actualizados. Ofrece numerosas imágenes de gran calidad que ayudan a ilustrar los conceptos expuestos. Este manual resultará de interés tanto a estudiantes de Veterinaria para aclarar y afianzar conceptos como a egresados que deseen actualizar sus conocimientos sobre las diferentes técnicas empleadas en reproducción animal. Falangist and National Catholic Women in the Spanish Civil War (1936-1939) Angela Flynn, 2020-03-11 Although there is an established historiography on women's roles during the Spanish Civil War 1936-9 little has been written on Nationalist women in the Republican held zones. Women were the anti-Republican resisters of the first hour in the capital but they have been largely overlooked in the historical record. During the bitter civil conflict a sector of dissident women helped to create a subversive and clandestine national Catholic space in the heart of Republican Madrid. By examining the vital and invisible role played by women within Madrid's fifth column this monograph offers a new contribution to the gender historiography of

the Spanish Civil War and re evaluates the significance of women in the Nationalist war effort It explores how and why a sector of Falangist and Catholic women decided to mobilise against the legally constituted Popular Front government in support of an undemocratic military coup While women s subversive activities often involved the transgression of traditional gender norms their social and political agency arose within the conditions and precepts of Catholicism and was conceptualised and imagined within new national Catholic discourses of holy Crusade El riesgo del arbolado urbano.
