Resolving Counterresistances In Psychotherapy:

Resolving Counterresistances In Psychotherapy Herbert S. Strean, 2014-05-12 Widely acclaimed for his insightful book on resolving patients resistances in psychotherapy Dr Strean now addresses the virtually neglected problem of therapists counterresistances the fantasies defenses and other elements of the therapist's own psychological makeup that can impede the therapeutic process At the core of this book is a crucial question If the therapist cannot or will not confront his or her own resistances how can the patient be expected to The book begins with a clear conceptualization of counterresistance in psychotherapy Subsequent chapters focus on the ways in which counterresistance manifests itself in the initial middle and closing phases of therapy Case vignettes delineate essential features of various types of counterresistance and show how and when to combat them

Personal Development in Counselling and Psychotherapy Sofie Bager-Charleson, 2012-07-18 There is an increased emphasis on self awareness and self care in counselling and psychotherapy training with a focus on how the therapist as a person affects the therapeutic outcome This timely book responds to these complex issues and is designed to help counselling students trainees and graduates with integrating their personal development into their professional planning There are chapters on bringing the Self into therapy choosing the right training and how to succeed as an accredited practitioner Activities and research summaries throughout give this book a fully integrated approach ideal for busy students

Therapeutic Failures in Psychotherapy Nicola Gazzola, Shigeru Iwakabe, Sarah Knox, 2023-10-17 This book examines therapeutic failures in psychotherapy Despite the consistent positive outcome findings and psychotherapists best intentions in their efforts to help their clients psychotherapy simply does not work in all cases In fact 5 10% of adult clients deteriorate during psychotherapy Although not exclusively due to treatment failures per se almost a fifth of clients terminate their therapy prematurely and findings suggest that that between 20 and 30% of clients do not return after the first session with half terminating after just two sessions Therapeutic failures could include a range of negative therapy outcomes such as harm deterioration client non response premature termination or dropout as well as process factors such as negative therapy experiences impasses or alliance ruptures Investigating therapeutic failures holds the key to improving the effectiveness of psychotherapy as well as understanding some of the fundamental conditions that need to be in place for the change mechanisms of psychotherapy to take effect Although psychotherapy has made many strides over the last few decades to improve research rigour and to promote evidence based practices it is a profession that is still growing By embracing the opportunity to learn from therapeutic failures the profession will continue to refine its practices to better serve clients and to strive toward developing ethical and effective practices Both comprehensive and accessible this book will be of great interest to psychotherapists in practice therapists in training as well as students and professionals in psychology and mental health in general The chapters

in this book were originally published in *Counselling Psychology Quarterly*

Key Issues for Counselling in Action

Windy Dryden, Andrew Reeves, 2008-09-17 Effective counselling is based on a strong working relationship between counsellor and client Building and maintaining this therapeutic alliance demands both skill and an ability to negotiate challenges which arise during the counselling process *Key Issues for Counselling in Action* prepares new practitioners for face to face work with clients by looking at what is required at each stage of the process and examining issues which practitioners most frequently need to deal with along the way The topics covered are relevant to all counsellors regardless of theoretical orientation The book explores the everyday issues counsellors face when getting started making an assessment working at relational depth setting goals and ending the relationship Advice is also given on more difficult challenges such as dealing with reluctant clients stuckness client dependency and unplanned endings *Key Issues for Counselling in Action* is a bestselling text which has been used to train many thousands of counsellors as well as supporting their continuing professional development This second edition has been completely re written and includes new material on the use of touch self care culture and counselling evaluation Windy Dryden is Professor of Psychotherapeutic Studies Professional and Community Education PACE at Goldsmiths College University of London Andrew Reeves is a University Counsellor at the University of Liverpool Counselling Service and Editor of the journal *Counselling Psychotherapy Research*

Therapists Who Have Sex With Their Patients Herbert S. Strean, 2018-10-24 First published in 1994 Therapists who use and abuse their power make for high talk show ratings and tabloid sales but are these people simply to be written off as sick and evil Dr Herbert Strean believes not In this unflinchingly honest book Dr Strean who has treated such abusive caregivers many times in his practice seeks to create a more humane portrait of therapists who have affairs with their patients Central to the book are four fascinating case studies of therapists Ronald S is a heterosexual psychiatrist with homosexual fantasies who wants to be a woman with his own male therapist Roslyn M is a therapist who administers love treatment in the therapy room and charges for it Bob W is a promiscuous sex addict who thinks despite his physical unattractiveness that all his women patients hunger for him Al G is a sadomasochistic social worker who makes his female ex patients suffer These cases give voice to the feelings fantasies and dreams of therapists who have crossed the boundary Through them we come to understand that it is treatment not punishment that will prevent others from falling prey to healers who are themselves in desperate need of healing

Essentials Of Psychoanalysis Herbert S. Strean,2013-10-28 Presents the fundamentals of theory and technique of psychoanalytic treatment valuable for psychotherapists and students Begins with a review of Freud s theory of personality and its modifications and discusses transference and countertransference reactions unconscious meanings of problems and

Controversies on Countertransference Herbert S. Strean,2001 Booknews Strean emeritus Rutgers U School of Social Work explores countertransference reactions in psychotherapeutic work and allows colleagues to comment on his ideas in separate discussion sections He argues that therapists need to confront acknowledge and analyze countertransference reactions Contrary to traditional conceptions of countertransference he contends that it can be useful to communicate countertransference reactions to patients viewing the patient and the therapist as equals in dialogue Annotation c Book News Inc Portland OR booknews com *Beyond Medication* David Garfield,Daniel Mackler,2013-12-16 Beyond Medication focuses on the creation and evolution of the therapeutic relationship as the agent of change in the recovery from psychosis Organized from the clinician s point of view this practical guidebook moves directly into the heart of the therapeutic process with a sequence of chapters that outline the progressive steps of engagement necessary to recovery Both the editors and contributors challenge the established medical model by placing the therapeutic relationship at the centre of the treatment process thus supplanting medication as the single most important element in recovery Divided into three parts topics of focus include Strengthening the patient The mechanism of therapeutic change Sustaining the therapeutic approach This book will be essential reading for all mental health professionals working with psychosis including psychoanalysts psychiatrists psychologists and social workers **Doing Better** Jeffrey Kottler,W. Paul Jones,2004-11-23 Doing Better is intended to help therapists and counselors to explore more fully and systematically the processes of self improvement in their work and lives

Moments of Uncertainty in Therapeutic Practice Robert Waska,2011-11-15 One of therapy s greatest challenges is the moment of transference when a patient unconsciously transfers emotion or desire to a new and present object in some cases the therapist During the course of treatment a patient s projections and the analyst s struggle to divert them can stress distort or contaminate the therapeutic relationship It may lead to various forms of enactment in which the therapist unconsciously colludes with the client in interpretation and treatment or it can lead to projective identification in which the client imposes negative feelings and behaviors onto the therapist further interfering with analysis and intervention Drawing on decades of clinical case experience Robert Waska leads practitioners through the steps of phantasy and transference mechanisms and their ability to increase oppose embrace or neutralize analytic contact Operating from a psychoanalytic perspective he explains how to cope professionally with moments of transference and maintain an objective interpretive stance within the ongoing matrix of projective identification countertransference and enactment Each chapter discusses a wide spectrum of cases and clinical situations describing in detail the processes that invite a playing out of the patient s

phantasies and the work required to reestablish balance Refreshingly candid Waska recognizes the imperfections of analysis yet reaffirms its potential for greater psychological integration and stability for the patient He acknowledges the limits and frequent roadblocks of working with difficult patients such as those who suffer from psychic retreat paranoid phantasies and depressive anxieties yet he indicates an effective path for resetting the clinical moment and redirecting the course for treatment

Treating Trauma-Related Dissociation Kathy Steele, Suzette Boon, Onno van der Hart, 2016-11-29 Winner of the 2017 International Society for the Study of Trauma and Dissociation ISSTD Pierre Janet Writing Award Establishing safety and working with dissociative parts in complex trauma therapy Therapists around the world ask similar questions and struggle with similar challenges treating highly dissociative patients This book arose not only out of countless hours of treating patients with dissociative disorders but also out of the crucible of supervision and consultation where therapists bring their most urgent questions needs and vulnerabilities The book offers an overview of the neuropsychology of dissociation as a disorder of non realization as well as chapters on assessment prognosis case formulation treatment planning and treatment phases and goals based on best practices The authors describe what to focus on first in a complex therapy and how to do it how to help patients establish both internal and external safety without rescuing how to work systematically with dissociative parts of a patient in ways that facilitate integration rather than further dissociation how to set and maintain helpful boundaries specific ways to stay focused on process instead of content how to deal compassionately and effectively with disorganized attachment and dependency on the therapist how to help patients integrate traumatic memories what to do when the patient is enraged chronically ashamed avoidant or unable to trust the therapist and how to compassionately understand and work with resistances as a co creation of both patient and therapist Relational ways of being with the patient are the backbone of treatment and are themselves essential therapeutic interventions As such the book also focused not only on highly practical and theoretically sound interventions not only on what to do and say but places strong emphasis on how to be with patients describing innovative compassionately collaborative approaches based on the latest research on attachment and evolutionary psychology Throughout the book core concepts fundamental ideas that are highlighted in the text in bold so they can be seen at a glance are emphasized These serve as guiding principles in treatment as well as a summing up of many of the most important notions in each chapter Each chapter concludes with a section for further examination These sections include additional ideas and questions exercises for practicing skills and suggestions for peer discussions based on topics in a particular chapter meant to inspire further curiosity discovery and growth

Social Work Practice with the Elderly Marvin David Feit, Michael J. Holosko, 2004 The third edition describes significant practice issues and challenges facing gerontological social workers working with the fastest growing demographic cohort in North America Insightful and creative practitioners provide current accounts and case examples from their work in a variety of settings The material includes both micro and macro practice and offers a focus on advanced specialty practice while also providing an

advanced generalist model All the chapters have been rewritten and updated by adding related additional readings and websites Six new chapters have been added on sensory impairment HIV AIDS elder abuse community assisted living rural elderly retirement and volunteerism Social Work Practice with the Elderly offers an exciting collection of well crafted readings and will be useful for any social work student at the undergraduate or graduate level It will also be a valuable resource for those in other helping professions who work side by side with social workers in this field nurses physiotherapists music and art therapists psychologists physicians recreational therapists speech and language therapists and clergy
