Resolving Disputes In Christian Groups:

Resolving Disputes in Christian Groups Marlin E. Thomas, 1994 **Sharia Tribunals, Rabbinical Courts, and Christian Panels** Michael J. Broyde, 2017-05-31 This book explores the rise of private arbitration in religious and other values oriented communities and it argues that secular societies should use secular legal frameworks to facilitate enforce and also regulate religious arbitration It covers the history of religious arbitration the kinds of faith based dispute resolution models currently in use how the law should perceive them and what the role of religious arbitration in the United States and the western world should be Part One examines why religious individuals and communities are increasingly turning to private faith based dispute resolution to arbitrate their litigious disputes It focuses on why religious communities feel disenfranchised from secular law and particularly secular family law Part Two looks at why American law is so comfortable with faith based arbitration given its penchant for enabling parties to order their relationships and resolve their disputes using norms and values that are often different from and sometimes opposed to secular standards Part Three weighs the proper procedural jurisdictional and contractual limits of arbitration generally and of religious arbitration particularly It identifies and explains the reasonable limitations on religious arbitration Part Four examines whether secular societies should facilitate effective legally enforceable religious dispute resolution and it argues that religious arbitration is not only good for the religious community itself but that having many different avenues for faith based arbitration which are properly limited is good for any vibrant pluralistic democracy inhabited by diverse faith groups *In Pursuit of Creative Conflict Management: an Overview* Winston A.
