Resolving Traumatic Memories David J. Grove, B. I. Panzer, 1991 **Resolving Traumatic Memories** David J. Grove, B. I. Panzer, 1989 **Metaphors, Trauma and Symptoms** Amy Qiu, 2024-07-22 This book investigates how victims of a large scale traumatic event converge and diverge in metaphor use in describing their traumatic experiences By combining qualitative and quantitative methods the book identifies patterns that are shared by this group of trauma victims By juxtaposing linguistic data with psychometric data it also explores how metaphor use can vary with the speakers psychopathological symptoms While metaphorical language has been a rare focus in clinical contexts this book establishes metaphor use as a previously overlooked yet rewarding avenue for studying mental health communication **Solution Focused Practice Around the World** Kirsten Dierolf, Debbie Hogan, Svea van der Hoorn, Sukanya Wignaraja, 2020-05-10 Solution Focused Practice Around the World provides an exploration of the diverse uses of SF and offers fascinating insights into how the Solution Focused approach is currently used in many applications around the globe Bringing together prominent authors practitioners and trainers the collection is divided into five sections theory therapeutic applications working with children and adolescents coaching and working with organisations Originating from the first international conference on Solution Focused practice spanning all applications of the approach the chapters provide a grounding in the theory and practice and an exploration of the breadth and depth of Solution Focused therapy All practitioners of the Solution Focused approach globally as well as those working in the wider fields of therapy social work education coaching and human resources will benefit from this text and the applicability of the inherent theories to their area of expertise *Scientific Gestalt* Ray Edwards, 2012-08-15 Goldstein Koffka Khler Lewin and Wertheimer were scientists who at the turn of the 20th century founded the gestalt approach in psychology Fritz Perls 1944 recognized the potential of the gestalt approach in psychotherapy and founded what is now the widespread system of gestalt therapy Perls understanding of gestalt theory was broadened by Zinker with recognition of stages of development of each gestalt so that what is now termed the Cleveland cycle of experience was recognized Ray Edwards has proposed two innovations First it is shown that completion and grounding of the gestalt cycle of events facilitates re energization of depressed people Second attention to Gendlins felt senses aided by use of David Groves clean subset of language facilitates freeing post trauma patients from the effect of recurrent nightmares and or flash backs The relevant felt senses are termed proto figures and are usually phenomena like butterflies in the stomach lumps in the stomach or throat and or clouds are hanging over me This present book sets these innovations in full historical context and reveals the gestalt system to be scientific in character Malcolm Parlett Ph D First Editor of the British Gestalt Journal commented on an earlier version of this book This is a thought provoking read a quirky and vividly argued alternative version of gestalt therapy that challenges most of the assumptions of contemporary Gestalt psychotherapy and will send many a reader flying to a computer to type a rebuttal But Ray Edwards book is definitely worth
