Resolving Infertility:

Healing the Infertile Family Gaylene Becker,1997-01-01 Unlike most infertility books that focus on medical treatment Healing the Infertile Family examines the social and emotional problems experienced by couples confronting infertility and suggests how they can be alleviated In this updated edition Gay Becker discusses her most recent study of couples experiencing infertility and offers guidelines for resolution of this common problem that will enable couples to face the future with hope Unlike most infertility books that focus on medical treatment Healing the Infertile Family examines the social and emotional problems experienced by couples confronting infertility and suggests how they can be alleviated In this updated edition Gay Becker discusses her most recent study of couples experiencing infertility and offers guidelines for resolution of this common problem that will enable couples to face the future with hope *Male Infertility - Men Talking* Mary-Claire Mason,2003-09-02 How do men react to diagnosis of male infertility and how if at all are all their lives affected by it Male infertility is commonplace yet the male experience of it has been woefully neglected Male Infertility Men Talking explores these issues by gathering together men s stories and seeing what common strands if any exist between them Mary Claire Mason explores the past and present medical management of male infertility as this forms an essential backdrop to the men s stories but the main emphasis is on how men s lives are affected In the first half of this book the discovery of sperm and the man s role in reproduction is considered together with a review of how the past affects the present medical management of male infertility and the problems that bedevil it The male voice predominates in the second painful events and relationships with families and friends their feeling of isolation their medical experiences the importance of biological fatherhood and their hopes for the future **Oncofertility** Teresa K. Woodruff,Laurie Zoloth,Lisa Campo-Engelstein,Sarah Rodriguez,2010-09-02 Oncofertility has emerged as a way to address potential lost or impaired fertility in cancer patients and survivors with active biomedical research that is developing new ways to help these individuals preserve their ability to have biological children In order to move beyond oncofertility as a science and medical technology and begin to address the ethical legal and social ramifications of this emerging field we must give voice to scholars from the humanities and social sciences to engage in a multidisciplinary discussion This book brings together a pool of experts from a variety of fields including communication economics ethics history law religion and sociology to examine the complex issues raised by recent developments in oncofertility and to offer advice from national and international perspectives as we create new technology Given the inherent interdisciplinary nature of oncofertility this book is not only valuable but also necessary to cultivate a deep understanding of new issues with the eventual aim of offering proposals for addressing them Indeed this book will be useful for people not only within the humanities and social sciences disciplines but also for those who are confronted with cancer and the possibility of impaired fertility and the medical practitioners within oncology and reproductive medicine who are at the front lines of this emerging field Ethics and Economics of Assisted Reproduction Maura A. Ryan,2003-06-11 For those who undergo it

infertility treatment is costly time consuming invasive and emotionally and physically arduous yet technology remains the focus of most public discussion of the topic Drawing on concepts from medical ethics feminist theory and Roman Catholic social teaching Maura A Ryan analyzes the economic ethical theological and political dimensions of assisted reproduction Taking seriously the experience of infertility as a crisis of the self the spirit and the body Ryan argues for the place of reproductive technologies within a temperate affordable sustainable and just health care system She contends that only by ceasing to treat assisted reproduction as a consumer product can meaningful questions about medical appropriateness and social responsibility be raised She places infertility treatments within broader commitments to the common good thereby understanding reproductive rights as an inherently social rather than individual issue Arguing for some limits on access to reproductive technology Ryan considers ways to assess the importance of assisted reproduction against other social and medical prerogatives and where to draw the line in promoting fertility Finally Ryan articulates the need for a compassionate spirituality within faith communities that will nurture those who are infertile
