imaginatively carried out in recent years this book is unequalled in providing expert advice on handling the complex issues you ll need to master a challenging and truly rewarding undertaking *World of Resorts* Chuck Y. Gee,2010 In the case of classic hotels development and management functions are generally treated as separate subjects Resorts are different The resort business is built on the fulfillment of dreams and desires while classic hotels focus on necessity and convenience in serving business travelers Resort development is not a one time activity ending with the opening of the resort but is rather an ongoing process and a planning responsibility of management on behalf of ownership The variables of a resort are many A resort s products go beyond the simple provision of lodging food and beverage although these hospitality basics must not only be provided but given special attention by resorts Each variable type and scope of resort location seasonality range of recreation and amenities forms of ownership and other development related aspects will have a significant effect on the work of management Because resorts cater to the leisure traveler whose wants are diverse and fluid so management must constantly keep abreast of emerging trends that shape guest preferences and create market appeal Continual reinvestment in the resort plant or investment into new ROI projects is the price of competition in the resort world Successful resorts whether a single resort estate or an entire destination remain perpetual works in progress Managers who understand the development process will have greater appreciation of the reinvestment costs required to keep a resort attractive enough to retain current guests and gain new ones Page xiii
