Decentralization and Economic Development in Nigeria

Nwafekoku Okolie Uwadibia,2000 This is the only book of its kind to address the effect of agricultural decentralization on the Nigerian national economy In his effort to demonstrate how decentralization promotes development that can economically empower individuals Uwadibia thoroughly analyzes three key aspects of Nigeria s decentralization policy These are the Local Government Reform Act of 1976 the creation of new states and the implementation of the Structural Adjustment Program SAP Together these policies reduced the overall role of the federal government in the national economy by diverting revenue to states and dissolving the federal government s direct ownership of agricultural enterprises Based on his extensive research Uwadibia concludes by making a number of additional policy recommendations that he believes are essential for Nigeria to become self sufficient in food production Those with an interest in African studies economic development or agricultural production will find much to their liking in this work

Africa's Ecology Valentine Udoh James,1993 Rising population in Africa has resulted in a growing demand for consumer goods and basic necessities food shelter clothing and energy causing a dramatic decline in the environment Documented through case studies and photographs are five basic ecological issues facing Africa the destruction of wildlife the decline of natural habitats pollution land degradation and human shelter International agencies roles in reversing the negative trends are examined

Sustainable Development in Third World Countries Valentine U. James,1996-02-13 Sustainable development has been approached from many

viewpoints over the past 15 years without a concise or precise definition of what sustainable development really stands for

James has solicited contributions from an international group of experts who write about aspects of sustainable development from many different disciplines. Their consensus is that sustainability depends upon concerted development across the spectrum of socioeconomic factors that affect the environment, natural resources, health, education, and welfare of the populations in the emerging nations. The necessity of incorporating indigenous knowledge with technological and international expertise has become crucial. Africa After the Cold War Adebayo Oyeade, Abiodun Alao, 1998. Although it is widely recognised that Africa's security problems are acute, it has never been a subject of much intellectual inquiry. This lack of scholarly discourse on the many dimensions of the problems of African security is the major consideration of this book. The approach to the questions of security differ markedly from the traditional approach that gives primacy to the threat of military aggression as sole factor in state security. A departure must be made from this dominant preoccupation in a new global order that has seen profound changes. **The Environment and Development in Africa** Moses K. Tesi, 2000-01-01. The premise of *The Environment and Development in Africa* is that current environmental problems in sub-Saharan Africa are an outcome of the continent's development activities. Whether these activities have generated economic growth and raised living standards or have led to growth without overall increases in living standards or have even contributed to a decline in people's well-being, developments in that region have produced effects that have degraded Africa's environment in many ways. This book presents a comprehensive and systematic analysis of the context of the environmental issues facing sub-Saharan African states. Contributors discuss the problems associated with generating the capacity to manage Africa's environmental concerns, assess the impact of economic development efforts on the region's environment, and examine various societal and policy responses to environmental problems and to development problems linked to ecological decay. This is an important book for scholars and policy advisors concerned with African studies and global environmental issues.

IBSS is the essential tool for librarians, university departments, research institutions, and any public or private institution whose work requires access to up-to-date and comprehensive knowledge of the social sciences. Response to Land Degradation E. M. Bridges, 2019-04-24. This work is intended for advanced readers interested in methods of sustainable land management, the prevention and control of land degradation. It offers a coherent view of the situation concerning land degradation and the human response to the problem. It is generally recognized that technological solutions alone cannot solve the problems of land degradation. This book discusses the role of land use and land management policies, programmes, institutional innovations, and economic incentives for the control and prevention of land degradation. Special attention is given to legal issues at the international level and in individual countries. **Issues in Rural Development** Yamāhbarāwī ṭenāt madrak (Ethiopia). Shepherd, Karamo Sonko, 1994-09-30 Combines theory with empirical evidence and economic with political analysis to provide the most comprehensive multi disciplinary coverage to date on IMF and World Bank adjustment programs in Africa **Contemporary Issues in Africa's Development** Ehimika A. Ifidon, Richard A. Olaniyan, 2018-04-18 This volume reports on the state of crisis in Africa in the early twenty first century Africa on the eve of the independence revolution was the continent of hope and high expectations By the third decade of independence optimism had been replaced by dismay African states had been beset by ethno political squabbles military rule civil wars Islamic and insurgent movements extreme poverty and disease With the ascent of redemocratization in the 1990s and of new pan Africanism derived from the formation of the African Union Africa appeared set to claim its vaunted destiny This book asks with hindsight to the first decade of the twenty first century how real was the renaissance in African life If the dismal African condition is a phase in the historical development of Africa this volume does not see any golden age in the past to which Africa aspires to return There is clearly a continuation and persistence of crisis with an absence of good governance personalisation of state power widespread disease and policy failure in education economy and infrastructural development Although endowed with abundant human and natural resources Africa remains the least developed and most indebted continent Whither then the African Renaissance The methodologies that underpin the contributions in this book are as diverse as the specialisations of the contributors The collection questions ideologically protected assumptions and presumptions presenting Africa as it is because it is only by knowing where Africa truly stands that a proper direction can be charted for it *Resource Management by West African Farmers and the Economics of Shifting Cultivation* , Africa ,1997 This indispensable tool provides a breadth and depth of resources for anyone interested in understanding the changing and complex reality that is Africa today To many outside the continent Africa appears to be remote and inaccessible But this doesn't have to be so The print and audiovisual resources gathered together in this directory demonstrate that there are many ways to access this huge and diverse continent **Transafrica Forum** ,1992 **Bibliography of Agriculture with Subject Index** ,1985-04
