Managing Microorganisms David Smith, Matthew J. Ryan, Alan G. Buddie, 2023-03-21 A significant portion of basic and applied life science research requires microorganisms as study specimens *Managing Microorganisms* aims to be the standard reference for anyone who works with microorganisms primarily bacteria and fungi It is applicable to researchers who maintain their own collections of strains and those who use one of the many public service culture collections *Managing Microorganisms* is an essential reference for anyone working with microorganisms and culture collections In addition it will

be of great use for academic researchers and students in applied life sciences especially those who are involved in sourcing and maintaining reference strains whilst it also will provide a useful guide for consultants biotechnologists and other members of bioindustry
