

# The Choir

The choir is the oldest of all musical groups. Before human beings even thought of making musical instruments, they used their own voice to make music together. Since choral music comes directly from people, it has a more powerful emotional impact than instrumental music. There is nothing more moving than hearing an entire football stadium resound to the tune of "You'll never walk alone" or an enthusiastic church congregation throwing their hearts and souls into favourite hymns.

Human voices vary in pitch ( some are high and some are low). This makes it possible to sing harmonies in different layers using different pitched voices.

<b>soprano</b>	a high woman's voice
<b>Alto</b>	low woman's voice
<b>Counter-tenor</b>	a very high male voice (very rare)
<b>Tenor</b>	A high male voice
<b>Baritone</b>	A low male voice - not as deep as the bass
<b>Bass</b>	The lowest male voice

There are also many different ways of singing:

<b>Solo singing</b>	singing on your own
<b>Unison singing</b>	a group of people singing the same thing together
<b>Singing in harmony</b>	a group singing melodies that are different but fit together to make nice sounds.
<b>A capella singing</b>	Singing without instruments.

RDA has gone through many changes since it was first published in 2010. Cataloging practice described by RDA has not changed dramatically due to the changes above but nearly every page in RDA Print was impacted by the changes with the result that an RDA Print update packet would require nearly as many pages as the full revision. The most current RDA the revision contains all changes to RDA up to and including the 2013 RDA Update approved by the JSC. Annually the JSC considers proposals to update, enhance and maintain RDA as a current cataloging standard. These updates can and often do change the cataloging process as described by RDA. The JSC also periodically issues changes to RDA to fix errors and to clarify meaning. These changes do not typically change cataloging practice as described by RDA. Reworded RDA: the revision includes the reworded version of RDA instructions. To improve readability and comprehension of complex instructions, RDA has been edited and reworded since its original release. The rewording was carried out by the JSC RDA Copy Editor and reviewed by the U.S. RDA Test Coordinating Committee.
