New Insights into Fibromyalgia William S. Wilke, 2012-01-05 Given the potential problems that can obscure any scientific enterprise inconsistent results across studies are bound to occur How are we to decide what is true Let's turn to philosophy for a reasonable answer The mathematician philosopher Bertrand Russell approached a similar problem in his monograph *The Problems of Philosophy* Russell B 1912 He addressed the following question How do we know that anything is real Is the only reality subjective and simply in our minds as Bishop Berkley challenged or can we mostly believe the objective reality His pragmatic answer All possibilities may be true but when the preponderance of evidence indicates that objective reality and knowledge are the most probable case go with it If the preponderance of all evidence about the clinical description of fibromyalgia and its pathogenic mechanisms and treatment strategies indicate a highly probable interrelated hypothesis go with it The direction of the literature on the whole trumps the less likely tangents At the same time remember Bertrand Russell and his pragmatic answer and keep an open mind
