Responding to Social Change Basil Honikman, 1975 Resources in Education , 1997 **Community Development Abstracts** Sociological Abstracts, inc., New York, 1964 Combat Poverty Agency Annual Report 2000 , *Innovative Community Responses to Disaster* Brent Hales, Norman Walzer, James Calvin, 2017-10-02

Increasingly community leaders around the world face major natural and economic disasters that require them to find ways to rebuild both physical infrastructure and the local economy. Doing this effectively requires an understanding of how various parts of the community are interconnected as well as information as to which revitalization approaches have succeeded in the past. Community investment in recovery is essential and in some cases may require local leaders to rethink how it can be financed and arranged. This book presents a conceptual framework based on the community capitals and describes approaches that have succeeded in situations where local leaders have coordinated efforts to rebuild and revitalize local conditions. Contributions provide examples of successful approaches around the world thus analysing potential strategies for addressing disasters of many different types in various cultural settings. In this way the book provides insights into a variety of approaches based on applications of accepted community development theory and concepts. This book was originally published as a special issue of *Community Development*.

The Palgrave Handbook of Language and Crisis Communication in Sub-Saharan Africa Ernest Jakaza, Hugh Mangeya, Isaac Mhute, 2024-06-17. This handbook provides a detailed and sustained examination of the scope, purpose and practical application of crisis and disaster management communication in this critical region of the African continent, sub-Saharan Africa (SSA). The volume lays the foundation that enables a nuanced appreciation of two significant issues. The first pertains to SSA's vulnerability to both natural and man-made phenomena. Secondly, it argues that communication plays a critical role in so far as the identification, social construction, raising awareness, preparation, mitigation and eradication of crises and disasters in the region. Communication plays a critical role in potentially reducing the impacts of crises and disasters before their occurrence. This handbook is a key resource for academics, students and practitioners in areas such as political communication, media communication, language and communication, brand communication, social digital media communication and crisis communication among others.
