Responsibility Trap A Blueprint For Treating The Alcoholic Family:

The Responsibility Trap Claudia Bepko, 2002-01-15 Bepko and Krestan integrate theory and practice in describing the treatment of families with alcohol problems This book is the outgrowth of seven years of work in which we have made an attempt to integrate our own understanding of alcoholic dynamics within the framework of systemic family therapy Since we share both a commitment to the principles of Alcoholics Anonymous as well as a commitment to approaching problems from a systemic viewpoint it has always been a source of concern for us that the fields of alcoholism treatment and family therapy seem so polarized in their respective views on the nature of alcoholism as a symptomatic process Our hope is that this book can provide a bridge between those two viewpoints as well as some new ways of looking at alcoholism that can be clinically useful and relevant to other practitioners from *The Responsibility Trap* Sourcebook of Family Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project *The Handbook of Marriage and the Family* edited by Harold Christensen and published in 1964 the two *Contemporary Theories about the Family* volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the *Handbook of Marriage and the Family* edited by Marvin Sussman and Suzanne Steinmetz then in production Narrative Means to Sober Ends Jonathan Diamond, 2012-01-27 Working with clients who abuse drugs or alcohol poses formidable challenges to the clinician Addicted persons are often confronting multiple complex problems from the denial of the addiction itself to legacies of early trauma or abuse to histories of broken relationships with parents spouses and children Making matters more confusing the treatment field is too often splintered into different approaches each with its own competing claims This eloquently written book proposes a narrative approach that builds a much needed bridge between family therapy psychodynamic therapy and addictions counseling Demonstrated are innovative flexible ways to help clients form new understandings of what has happened in their lives explore their relationships to drugs and alcohol and develop new stories to guide and nourish their recovery **Bridges to Recovery** Jo-ann Krestan, 2000-03-15 This book will be an asset to teachers and students in clinical social work psychology and substance abuse counseling programs **BOOK JACKET** **Practical Approaches in Treating Adolescent Chemical Dependency** Paul B Henry, Bruce Carruth, 2019-07-23 Here at last is a comprehensive volume on the often ignored but vitally important subject of care for the chemically dependent adolescent The most current treatment approaches are included all focused on the unique needs of this population For the

first time a book on adolescent chemical dependence illustrates in a practical way the major issues of on going care from intervention and assessment through aftercare and relapse Written by professionals who have worked extensively with chemically dependent youth Practical Approaches in Treating Adolescent Chemical Dependency will be appreciated by all in the field of chemical dependency administrators treatment directors and certified addictions counselors as well as by social workers family therapists school guidance counselors and student assistance personnel BACKCOVER COPY The treatment of alcoholism and drug use is a relatively young field that has developed only in the past 25 years And as most of the expertise efforts and money have been targeted toward the chemically dependent adult population the use and abuse of substances among young people has skyrocketed Here at last is a comprehensive book on the often ignored but vitally important subject of care for the chemically dependent adolescent The most current treatment approaches are included all focused on the unique needs of this population For the first time a book on adolescent chemical dependence illustrates in a practical way the major issues of on going care from intervention and assessment through aftercare and relapse Written by professionals who have worked extensively with chemically dependent youth Practical Approaches in Treating Adolescent Chemical Dependency features a comprehensive overview of the dynamics of adolescence and the destructive impact that chemicals have upon kids a description of adolescents who are at risk for chemical dependency guidelines for making accurate assessments of chemically dependent adolescents successful programs and interventions that involve communities schools and families special insights into treating chemically dependent minority youth a review of the stages of recovery adapted to the developmental needs of adolescents a look at support groups that best facilitate the recovery process among adolescents much more *Family Interventions in Substance Abuse* Oliver Morgan, Cheryl Lizke, 2013-09-13 Leading clinicians discuss the latest evidence based approaches to working with families that have an addicted or substance abusing member Family Intervention in Substance Abuse Current Best Practices gathers together in one easy to read volume the most effective family based clinical approaches to work with families and the difficult issues of substance abuse The field s most respected and best known clinicians discuss the latest interventions that prove most effective and how to easily integrate them into clinical practice This unique text is ideal for clinical trainers and professors working with students in the addictions and family therapy fields Family Intervention in Substance Abuse Current Best Practices provides students practicing professionals and educators with a range of clinical strategies from engaging resistant substance abusers into treatment to therapy from a systemic viewpoint to relapse prevention This essential text comprehensively discusses nine of the most current and evidence based approaches to working with families that have an addicted or substance abusing member Each chapter contains basic theoretical descriptions case applications practical points for implementation reviews of the outcome studies and extensive bibliographies Topics discussed in Family Intervention in Substance Abuse Current Best Practices include Family systems interventions Motivational Interviewing stages of family recovery from addiction integration of clinical work with Twelve Step

programs strategies for engaging reluctant alcohol and other drug abusers working with adolescent alcohol and other drug abusers behavioral couples work for alcoholism and drug abuse and more Family Intervention in Substance Abuse Current Best Practices is an invaluable resource for students counselors social workers addiction specialists marriage and family therapists psychologists psychiatrists and professors and trainers in the fields of addiction and family therapy *Treating Chronic and Severe Mental Disorders* Stefan G. Hofmann, Martha C. Tompson, 2004-07-26 While recent developments in psychopharmacology have been widely disseminated equally important advances in psychological strategies for severe mental health problems have received less attention Filling a crucial gap in the literature this volume brings together leading clinical scientists to present evidence based approaches for treating schizophrenia mood disorders substance use problems and severe personality disorders Cutting edge modalities presented include behavioral and cognitive behavioral therapies dynamic therapies interpersonal therapies couple and family treatments motivational interviewing and more Throughout step by step clinical guidelines are accompanied by illustrative case examples and patient therapist dialogues Particular attention is given to strategies for integrating psychological and pharmacological interventions as well as to gender and cultural issues in treatment Women, Feminism and Family Therapy Lois Braverman, 2013-12-16 Women Feminism and Family Therapy encourages sensitivity to feminist perspectives and challenges many traditional notions held by therapists clients and society One of the few guides that takes into account feminist ideals and the changing status of women in society this provocative new book explores a feminist approach to theory clinical applications training and supervision in family therapy Topics in this exciting and though provoking book include women in alcoholic families women and abuse in the family context lesbian daughters and mothers and women and eating disorders Editor Lois Braverman and the other expert contributors are practicing psychotherapists who have struggled with the problems of integrating a feminist perspective with the practice of family therapy Their discussions both theoretical and practical in scope provide professionals with actual treatment interventions as well as a frank discussion of theoretical dilemmas *Feminism and Addiction* Claudia Bepko, 2014-02-25 Feminism is a beneficial force in addictions therapy as they have the same goals mending imbalances of power A variety of important topics related to addictions treatment are addressed in this timely volume accompanied by concrete clinical solutions for therapists and counselors to use in their own practice Feminism and Addiction demonstrates the positive impact feminism can have on addictions treatment Addictions treatment methods that have been developed primarily based on research with men are examined and questioned to determine what changes need to be made to meet the needs of women The applicability of twelve step treatment programs for example is investigated as to whether its required adoption of belief in powerlessness is concurrent with feminism s battle with female subjugation This thought provoking volume contains the most current theoretical social and clinical issues enmeshed in the debates between men s experiences and women s experiences of addiction Critical issues addressed include advice for how to deal with issues of codependency how to treat

clients faced with physical or sexual abuse in addition to addiction how to integrate cultural differences into treatment and how to face the particular difficulties of gay and lesbian clients in addictions treatment This valuable book will help you apply constructivist approaches to build therapy methods which are collaborative internal and organic thus more appropriate to treating women s experience with addiction Feminism and Addiction helps family therapists who work with women and their families strike a unique balance between the principles of feminism and family therapy s goal of repairing and healing relationships between men and women Family Therapy Techniques Jon Carlson, Len Sperry, Judith A. Lewis, 2013-01-11 Family Therapy Techniques briefly reviews the basic theories of marriage and family therapy It then goes into treatment models designed to facilitate the tailoring of therapy to specific populations and the integration of techniques from what often seems like disparate theories Based on the assumption that no single approach is the definitive approach for every situation the book leads students through multiple perspectives In teaching students to integrate and tailor techniques this book asks them to take functional methods and approaches from a variety of theoretical approaches without attempting to reiterate the theoretical issues and research covered in theories courses **Alcoholism And The Family** Saturo Saitoh, Peter Steinglass, Marc A. Schuckit, 2013-05-24 The science of the etiology and treatment of alcohol has made notable progress in recent years Since the early 1970s there have been growing in roads made concerning the relevance of hereditary factors in alcoholism This has led to the presentation of various innovative hypotheses in this field In conjunction with this there has been much discussion and study of the alcoholic personality and its possible characteristics These may be considered the longitudinal aspects linked to the transmission of alcoholism **Chemical Dependency** Eileen B Isaacson, 2012-12-06 This helpful book underscores the importance of working with both the individual and family as part of a comprehensive biopsychosocial approach in assessment intervention and treatment of chemical addiction With many case studies highlighting the treatment guidelines Chemical Dependency is an ideal guide for professionals and students in addictions studies mental health and other human service related fields intent on working with and providing services to individual and family addiction **Handbook for Assessing and Treating Addictive Disorders** John Levitt, Douglas Ruben, Chris E. Stout Ph.D., 1992-06-16 This comprehensive reference offers a fresh integrative perspective on the assessment and treatment of addictive disorders The work is organized into five sections which treat theories of addiction the diagnosis and evaluation of addictive behavior treatment approaches addiction among special populations and clinical and legal issues concerning substance abuse professionals The broad scope of the handbook encompasses alcoholism drug addiction eating disorders and smoking Theory is consistently used to illuminate practice resulting in a valuable overview of the field Within each section essays by contributors discuss the most important issues and developments in the diagnosis and treatment of addiction The opening essays establish a solid theoretical foundation by outlining behavioral familial and psychoanalytical explanations for the origins of addictive behavior The later essays build on that base by overiewing

diagnostic and treatment issues concerning addiction among Native Americans the elderly victims of traumatic brain injury adult children of alcoholics and teenagers Useful appendixes list additional sources of information and describe certification for substance abuse professionals in each state Psychologists psychiatrists and substance abuse counselors will find this handbook a necessary addition to their professional libraries Working with Children of Alcoholics Bryan E. Robinson, J. Lyn Rhoden, 1997-12-18 Working with Children of Alcoholics was originally published when the plight of children of alcoholics was just beginning to gain widespread public attention It was the first book to provide professionals with a direct step by step approach that shows them not only what to look for when working with children but what they can do to help them Some of the critical topics covered include identifying children of alcoholics establishing effective children's programs treatment strategies for children of alcoholics life and survival in an alcoholic home the intergenerational transmission of alcoholism the psychological adjustment of children of alcoholics health and safety hazards and academic and behavioral concerns Working with Children of Alcoholics includes extensive resources such as names of helpful organizations periodicals therapeutic games and curriculum materials The book will be of interest to social workers public health workers psychologists school administrators drug and alcohol counselors pastoral counselors teachers and treatment centers It makes an excellent supplemental text for graduate and undergraduate courses in family and community adjustment problems of children and youth substance abuse human services and community problems *Military Chaplains' Review*, 1989
