

A tropical beach scene at sunset. The sky is a mix of orange, pink, and purple. Palm fronds hang from the top left. Waves are breaking on a sandy beach in the foreground.

Self-responsibility is a two way street. Not only does being accountable for your health and happiness mean being responsible for yourself, but it also means allowing other people to take responsibility for themselves.

Responsible Self:

The Responsible Self Helmut Richard Niebuhr, 1999-01-01 The Responsible Self was H Richard Niebuhr's most important work in Christian ethics. In it, he probes the most fundamental character of the moral life and it stands today as a landmark contribution to the field. The Library of Theological Ethics series focuses on what it means to think theologically and ethically. It presents a selection of important and otherwise unavailable texts in easily accessible form. Volumes in this series will enable sustained dialogue with predecessors through reflection on classic works in the field. *Healing World Trauma with the Therapeutic Spiral Model* Kate Hudgins, Adam Blatner, Francesca Toscani, 2013 This book provides an accessible introduction to the Therapeutic Spiral Model in practice, describing how it works, its relationship with classical psychodrama, neurobiology, experiential psychotherapy, and clinical psychology, how it differs from other experiential methods, and how it has been used with diverse populations and in different cultures. *Phenomenology, Transversality, and World Philosophy* Hwa Yol Jung, 2021-03-12 Phenomenology, Transversality, and World Philosophy explores the concept of world philosophy, *Weltphilosophie*, to take into account the reality of today's multicultural and globalizing world. It challenges the assumption that the particular in the West is universalizable, but the particular in the non-West is particular forever, using the concept of transversality to construct an intercontinental philosophy. In the tradition of Johann Wolfgang von Goethe's world literature, *Weltliteratur*, and in dialogue with work in ethics and political philosophy, Hwa Yol Jung examines the roles that phenomenology and transversality play in constructing world philosophy. **Sanctify them in the Truth** Stanley Hauerwas, 2016-01-28 In *Sanctify them in the Truth*, Stanley Hauerwas provides an overview of the development of theology and ethics. He considers how the two disciplines interrelate, discusses the nature of sin, how any account of sin requires a more determinative account of moral law, the nature of sanctification, the body as a subject for Christian holiness, and the relationship between sanctification and truthfulness. The volume ends with sermons. Hauerwas emphasizes the freedom the sermons create as they remind us that the words we use are not our words. The inclusion of sermons also underlines Hauerwas's point that the truth of the gospel cannot be discovered apart from its embodiment in specific communities of faith. The Christian life, he argues, is not about being in possession of the truth defined as a set of timeless and universal principles of belief and action. Rather, it is about learning and living the life of truthfulness toward God and one another. For this Cornerstones edition, Hauerwas has provided a new preface that places the work in the present debate and brings this remarkable work to a new audience. **The Gift of the Other** Lisa Guenther, 2012-02-01 Winner of the 2007 Symposium Book Award presented by the Symposium, Canadian Journal of Continental Philosophy, *The Gift of the Other* brings together a philosophical analysis of time, embodiment, and ethical responsibility with a feminist critique of the way women's reproductive capacity has been theorized and represented in Western culture. Author Lisa Guenther develops the ethical and temporal implications of understanding birth as the gift of the Other, a gift which makes existence possible and already orients this

existence toward a radical responsibility for Others Through an engagement with the work of Levinas Beauvoir Arendt Irigaray and Kristeva the author outlines an ethics of maternity based on the givenness of existence and a feminist politics of motherhood which critiques the exploitation of maternal generosity

Who Knew? George Sher, 2009-08-07 Unlike most other discussions of responsibility which focus on the idea that to be responsible agents must in some sense act voluntarily this book focuses on the relatively neglected idea that they must in some sense know what they are doing Because it integrates first and third personal elements this account is well suited to capture the complexity of responsible agents who at once have their own private perspectives and live in a public world

Repudiating Feminism Christina Scharff, 2016-04-08 Gender equality is a widely shared value in many western societies and yet the mention of the term feminism frequently provokes unease bewilderment or overt hostility Repudiating Feminism sheds light on why this is the case Grounded in rich empirical research and providing a timely contribution to debates on engagements with feminism Repudiating Feminism explores how young German and British women think talk and feel about feminism Drawing on in depth interviews with women from different racial and class backgrounds and with different sexual orientations Repudiating Feminism reveals how young women s diverse positionings intersect with their views of feminism This critical and reflexive analysis of the interplay between subjective accounts and broader cultural configurations shows how postfeminism neoliberalism and heteronormativity mediate young women s negotiations of feminism revealing the manner in which heterosexual norms structure engagements with feminism and its consequent association with man hating and lesbian women Speaking to a range of contemporary cultural trends including the construction of essentialist notions of cultural difference and the neoliberal imperative to take responsibility for the management of one s own life this book will be of interest to anyone studying sociology gender and cultural studies

Responsibilisation at the Margins of Welfare Services Kirsi Juhila, Suvi Raitakari, Christopher Hall, 2016-11-10 The impetus for this book is the shift in welfare policy in Western Europe from state responsibilities to individual and community responsibilities The book examines the ways in which policies

associated with advanced liberalism and New Public Management can be identified as influencing professional practices to promote personalisation participation empowerment recovery and resilience In examining the concept of responsabilisation from the point of view of both the responsabilised client and welfare worker the book breaks from the traditional literature to demonstrate how responsibilities are negotiated during multi professional care planning meetings home visits staff meetings focus groups and interviews with different stakeholders The settings examined in the book can be described as on the margins of welfare mental health substance abuse homelessness services and probation work where the rights and responsibilities of clients and workers are uncertain and constantly under review Each chapter approaches the management of responsibilities from a particular angle by combining responsabilisation theory and discourse analysis to examine everyday encounters Taken together the chapters paint a comprehensive picture of the responsabilisation practices at the margins of welfare services and provide an extensive discussion of the implications for policy and practice Drawing upon both the governmentality literature and everyday encounters the book provides a broad approach to a key topic It will therefore be a valuable resource for social policy public administration social work and human service researchers and students and social and health care professionals

Metaphors for Leading - Leading by Metaphors Stefan Jung, Volker Kessler, Louise Kretzschmar, Elke Meier, 2019-06-17 Führung und Organisation sind komplexe Phänomene die oftmals durch Metaphern beschrieben werden Zunehmend interessieren sich Theorie und Praxis für ihre Verwendung Wie sehen sich Führungskräfte selbst und wie werden sie von anderen metaphorisch beschrieben Gängige Sprachbilder reichen vom Gärtner und Coach bis hin zum Macher oder Priester Alle diese Bilder sollen helfen die zugrunde liegende Sichtweise auf Führung und Organisation zu beschreiben und geben einen Einblick wie Führung von unseren metaphorischen Weltbildern beeinflusst wird Wenig Aufmerksamkeit erfuhren bisher kulturelle Unterschiede bei der Verwendung von Metaphern im Bereich Führung und Organisation Wie können wir die verborgenen Metaphern die unser Denken unterbewusst prägen an die Oberfläche bringen Wie können wir alte Metaphern der Führung in einer modernen und globalisierten Welt nutzen Der vorliegende Band dokumentiert die zentralen Ergebnisse einer interdisziplinären Konferenz zu Metaphern und Führung an der Wissenschaftler und Wissenschaftlerinnen aus Afrika Asien Europa und Nordamerika teilgenommen haben Metaphors are used increasingly in leadership theory and leadership development How do leaders view themselves and how are they seen by others in terms of metaphors One can find a wide range described in publications and on coaching websites They range from gardener and coach to manager or priest They all

help describe the underlying view on leadership and give insight into how leadership is influenced by our metaphorical view of the world. However, little work has been done on describing the influence of cultural perspectives in metaphors used in the area of leadership and organisations. How can we bring to the surface the hidden metaphors that shape our thinking subconsciously? How can we utilise old metaphors of leadership in a new and globalised world? This volume documents the central results of an interdisciplinary conference on metaphors and leadership in which scientists from Africa, Asia, Europe and North America took part.

Factors that influence the outcome concept are discussed as well as the consequences for clients' health and well-being. The strength of the evidence is reviewed concerning the sensitivity of the outcome concept to nursing structure variables and nursing processes/interventions. The Limit of Responsibility Esther D. Reed, 2018-08-23. This volume frames the question of responsibility as a problem of agency in relation to the systems and structures of globalization. According to Ricoeur, responsibility is a shattered concept when considered too narrowly as a problem of act, agency and individual freedom. To examine this, Esther Reed develops a short genealogy of modern liberal and post liberal concepts of responsibility in order to understand better the relationship dominant modern framings of the meanings of responsibility. Reed engages with writings by major modern philosophers: Schleiermacher, Hegel, Marx, Weber and post liberal Buber, Levinas, Derrida, Badiou, Butler, Young, Critchley. Theorists are used to illustrate the shift from an ethnic responsibility built on notions of accountability and attributions to an ethic responsibility that starts variously from the other. Reed sees Dietrich Bonhoeffer as the most promising partner of this theological dialogue as his learning of responsibility from the risen Christ present now in the global church is a welcome provocation to new thinking about the meaning of responsibility learned from land distant neighbour, global church and the bible. Bonhoeffer's reflections on the centre boundaries and limits of responsibility remain helpful to Christian people struggling with an increasingly exhausted concept of accountability.

Finding God Again John J. Shea, 2005-05-20. Growing out of two decades of teaching and practice, *Finding God Again: Spirituality for Adults* addresses in an experiential and pastoral way the need to re-envision God as we grow from an adolescent to adult spirituality. John Shea, a renowned pastoral counselor and teacher, shows how we can lose touch with religion, spirituality and a belief in God because of times when our image of God is

too narrow unreal or inadequate to make sense of our experience Shea uses real life stories to illustrate and offer a life changing challenge to leave behind the Superego God of childhood in favor of a Living God we can relate to as adults By showing the reader how to revisit God as an adult Shea provides the motivation and method to embrace a Living God and claim the independence and responsibility that accompany genuine adulthood **The Relationship Handbook** Shakti Gawain, Gina Vucci, 2015-10-15 In her first new book in fifteen years personal development pioneer Shakti Gawain encapsulates a lifetime of teaching and learning to offer her most trenchant and universal work to date These exercises and insights have been tested and refined in the popular workshops Gawain has taught for decades They reflect the fact that each of us is in relationship with romantic partners family coworkers and so on but also with internal core beliefs and a variety of selves including primary disowned and shadow selves Her revelatory teaching incorporates strategies for becoming aware of hidden beliefs applying the Voice Dialogue process developed by therapists Hal and Sidra Stone and learning to experience our every relationship as a path to self knowledge intrapersonal enhancement and even community and global betterment

Vestal, 1920 In Between Espen Dahl, 2011-04-06 Thanks to the recent return to religion the holy has become a relevant issue in public debate as is suggested by concepts such as re sacralization and re enchantment Holy war and religiously motivated terrorist attacks the fascination in popular culture for subjects such as the Holy Grail as in Dan Brown s Da Vinci Code new spiritual longings both within and outside institutional religion all testify to the new religious climate This situation calls for a reassessment of both classical and new theories about the holy Espen Dahl offers a theoretical account of the holy Central to its approach is the idea that the holy cannot be reduced to one stable essence but is fundamentally composite and takes place in between This means that the typical modern dichotomies between the holy and the profane the pure and the impure the pious and the violent cannot be drawn as sharply as scholars once did Instead the manifestation of the holy takes place in the interstice between those spheres Such a position is not strong it attests to the weakness of the holy Through a critical dialogue with the most influential recent contributions various theories and responses to them are presented on the basis of the book s overall perspective Espen Dahl deals with various theoretical perspectives corresponding to the numerous dimensions of the holy Phenomenology plays the principal role because it offers the best means to preserve the experiential dimensions which are essential to the holy From this perspective the book discusses theories from religious science theology philosophy and psychology **Kids Are Like Jell-O (R)** Lynn Edwards, 2003-06 So you are a parent Congratulations But don t bother looking for the 25 page instruction manual because there isn t one There isn t even a tag that says do not
