Responsories And Versicles Of The Latin Office Of The Dead:

The Responsories and Versicles of the Latin Office of the Dead Knud Ottosen, 2008-01-25 It may seem astonishing to some that there is a need for reprinting a 14 year old dissertation but the fact is that the book is exactly as relevant to scholars today as it was in 1993 It still represents the world's largest database to compare the responsories of the Office of the Dead in more than 2 000 sources Since the order of these responsories differed from church to church this order can be used to localize medieval and Renaissance liturgical books The book is therefore an absolute necessity for everyone who conducts research on the area it covers Put differently the book reveals the geography of the concept of death in Europe from the 9th 16th centuries from a theological liturgical ecclesiastical musical and political perspective seen from one particular liturgical office The Office of the Dead

Singing the Resurrection Erin M. Lambert, 2018 Singing the Resurrection brings music to the foreground of Reformation studies as author Erin Lambert explores song as a primary mode for the expression of belief among ordinary Europeans in the sixteenth century for the embodiment of individual piety and the creation of new communities of belief Together resurrection and song reveal how sixteenth century Christians from learned theologians to ordinary artisans and Anabaptist martyrs to Reformed Christians facing exile defined belief not merely as an assertion or affirmation but as a continuous living practice Thus these voices raised in song tell a story of the Reformation that reaches far beyond the transformation from one community of faith to many With case studies drawn from each of the major confessions of the Reformation Lutheran Anabaptist Reformed and Catholic Singing the Resurrection reveals sixteenth century belief in its full complexity

Music and Performance in the Book of Hours Michael Alan Anderson, 2022-06-14 This study uncovers the musical foundations and performance suggestions of books of hours guides to prayer that were the most popular and widespread books of the late Middle Ages Exploring a variety of musical genres and sections of books of hours with musical implications this book presents a richly textured sound world gleaned from dozens of extant manuscript sources from fifteenth century France It offers the first overview of the musical content of these handbooks to liturgy and devotional prayer together with cues that show scribal awareness for the articulation of sacred plainchants Although books of hours lack musical notation this survey elucidates the full range of musical genres and styles suggested both within and beyond the liturgical offices prescribed in books of hours Privileging sound and ritual enactment in the experience of the hours the survey complements studies of visual imagery that have dominated the category The book's interdisciplinary approach within a musical context and beautiful full color illustrations will attract not only specialists in musicology liturgy and late medieval studies but also those more broadly interested in the history of the book memory performance studies and art history

The Performance Tradition of the Medieval English University Thomas Meacham, 2020-01-20 This is a truly paradigm shifting study that reads a key text in Latin Humanist studies as the culmination rather than an early example of a tradition in university drama It persuasively argues against the common assumption that there was no drama in the medieval

universities until the syllabus was influenced by humanist ideas and posits a new way of reading the performative dimensions of fourteenth and fifteenth century university education in for example Ciceronian tuition on epistolary delivery David Bevington calls it an impressively learned discussion and commends the sophistication of its use of performativity theory

Music in Medieval Rituals for the End of Life Elaine Stratton Hild, 2024 Medieval documents reveal that for centuries of European history singing for a person at the moment of death was considered to be the ideal accompaniment to a life s ending Through investigations of four manuscripts as case studies author Elaine Stratton Hild examines and recovers the music sung for the dying during the Middle Ages and considers the functions of the music a lost art of comforting the dying and the grieving *Hear My Voice, O God* Matthew Cheung Salisbury, 2014 This study considers what Christian worship has meant to its contemporaries across the centuries It treats different episodes in the history of the Christian Church and applies to each episode the questions Why did Christians go to church Why worship What happened to Christians there substantively and otherwise and how did they respond With these particular queries as well as passages from contemporary theological and liturgical texts as a starting point Cheung Salisbury carefully explores the evidence for the functions of Christian worship He argues that the purpose and function of worship in Christian life has never been static and the particular approach of different periods to the liturgy has been moderated by wider cultural influences by theological developments and changes and by the particular circumstances in which the worship was carried out Cheung Salisbury proposes that the various forms of worship through the centuries and the understanding of liturgy and worship among and upon Christians demonstrates the variety of ways that Christian living operates in service of God **The Divine Office in Anglo-Saxon England,**

597-c.1000 Jesse D. Billett, 2014 When did Anglo Saxon monks begin to recite the daily hours of prayer the Divine Office according to the liturgical pattern prescribed in the Rule of St Benedict Going beyond the simplistic assumptions of previous scholarship this book reveals that the early Anglo Saxon Church followed a non Benedictine Office tradition inherited from the Roman missionaries the Benedictine Office arrived only when tenth century monastic reformers such as Dunstan and thelwald decided that true monks should not use the same Office liturgy as secular clerics a decision influenced by eighth and ninth century Frankish reforms The author explains for the first time how this reduced liturgical diversity in the Western Church to a basic choice between secular and monastic forms of the Divine Office he also uses previously unedited manuscript fragments to illustrate the differing attitudes and Continental connections of the English Benedictine reformer and to show that survivals of the early Anglo Saxon liturgy may be identifiable in later medieval sources **The Divine Office in the Latin Middle Ages** Margot E. Fassler, Rebecca A. Baltzer, 2000-08-17 The Divine Office the cycle of daily worship other than the Mass is the richest source of liturgical texts and music from the Latin Middle Ages However its richness the great diversity of its manuscripts and its many variations from community to community have made it difficult to study and it remains largely unexplored terrain This volume is a practical guide to the Divine Office for students and scholars

throughout the field of medieval studies The book surveys the many questions related to the Office and presents the leading analytical tools and research methods now used in the field Beginning with the Office in the early Middle Ages the book covers manuscript sources and their contents regional developments and variations the relationship between the Office the Mass and other ceremonies and repertoires and the deep links between the Office and medieval hagiography The book concludes with a discussion of recent technical advances for handling the enormous amounts of evidence on the Office and its performance in particular CANTUS the vast electronic database developed by Ruth Steiner of Catholic University for the analysis of chant repertoires The Divine Office in the Latin Middle Ages is an essential resource for anyone studying medieval liturgy Its accessible style and broad coverage make it an important basic reference for a wide range of students and scholars in art history religious studies social history literature musicology and theology

The Practice and Politics of Reading, 650-1500 Daniel G. Donoghue, Daniel

Donoghue, James Simpson, Nicholas Watson, Anna Wilson, 2022 A new look at how reading was practised and represented in England from the seventh century to the beginnings of the print era finding many kinships between reading cultures across the medieval *longue durée* Even as it transforms human cultures routines attention spans and the wiring of our brains the media revolution of the last few decades also urges a reconsideration of the long history of reading The essays in this volume take a new look at how reading was practised and represented in England from the seventh century to the beginnings of the print era using texts from Aldhelm to Malory and Wynkyn de Worde arguing that whether unpicking intricate Latin contemplating image texts or participating in semiotically rich public rituals reading cultivated and energized the subject's values perceptions and attitudes to the world Part I Practices of Reading asks how writers scribes and artists engaged readerly attention through textual layout poetic form hermeneutic difficulty or images while Part II Politics of Reading explores how different textual communities manipulated the anxieties and opportunities for education moral improvement or entertainment associated with reading particular topics addressed include Bible translation and exegesis page layout literary form and readerly practice fiction hermeneutics and performance Although it understands reading as culturally and technologically localized the book finds many kinships between reading cultures across the medieval *longue durée* and the literatures and literacies that proliferate today Contributors Amy Appleford Michelle De Groot Daniel Donoghue Andrew James Johnston Andrew Kraebel Katherine O'Brien O'Keefe Catherine Sanok Samantha Katz Seal James Simpson Emily V Thornbury Kathleen Tonry Kathryn Mogk Wagner Nicholas Watson Erica Weaver Anna Wilson *The Requiem of Tomás Luis de Victoria (1603)* Owen Rees, 2019-03-28 The first substantial study of Victoria's Requiem among the most prominent Renaissance musical works encompassing its genesis style and impact *The Care of Nuns* Katie Ann-Marie Bugyis, 2019-04-01 In her ground breaking new study Katie Bugyis offers a new history of communities of Benedictine nuns in England from 900 to 1225 By applying innovative paleographical codicological and textual analyses to their surviving liturgical books Bugyis recovers a treasure trove of unexamined evidence for understanding these women's lives and the liturgical and pastoral ministries they performed She examines the duties and responsibilities of their chief monastic officers abbesses prioresses cantors and sacristans highlighting three of the ministries vital to their practice liturgically reading the gospel hearing confessions and offering intercessory prayers for others Where previous scholarship has argued that the various reforms of the central Middle Ages effectively relegated nuns to complete dependency on the sacramental ministrations of priests Bugyis shows that in fact these women continued to exercise primary control over their spiritual care Essential to this argument is the discovery that the production of the liturgical books used in these communities was carried out by female scribes copyists correctors and creators of texts attesting to the agency and creativity that nuns exercised in the care they extended to themselves and those who sought their hospitality counsel instruction healing forgiveness and intercession *Liturgy and the Arts in the Middle Ages* Eva Louise Lillie, Nils Holger Petersen, 1996 This volume contains a

collection of essays in honour of the late Professor of Comparative Literature C Clifford Flanigan who died suddenly in 1993 at the age of 52 The scholarship of this book constitutes an example of the interdisciplinary approach to the study of ecclesiastical history which is the aim of the newly established Centre for Christianity and the Arts at the Theological Faculty at the University of Copenhagen

Binding the Absent Body in Medieval and Modern Art Emily Kelley, 2017-07-05 This collection of essays considers artistic works that deal with the body without a visual representation It explores a range of ways to represent this absence of the figure from abject elements such as bodily fluids and waste to surrogate forms including reliquaries manuscripts and cloth The collection focuses on two eras medieval and modern when images referencing the absent body have been far more prolific in the history of art In medieval times works of art became direct references to the absent corporal essence of a divine being like Christ or were used as devotional aids By contrast in the modern era artists often reject depictions of the physical body in order to distance themselves from the history of the idealized human form Through these essays it becomes apparent even when the body is not visible in a work of art it is often still present tangentially Though the essays in this volume bridge two historical periods they have coherent thematic links dealing with abjection embodiment and phenomenology Whether figurative or abstract sacred or secular medieval or modern the body maintains a presence in these works even when it is not at first apparent

Intercessory Prayer and the Monastic Ideal in the Time of the Carolingian Reforms Renie Shun-Man Choy, 2016 In early medieval Europe monasticism constituted a significant force in society because the prayers of the religious on behalf of others featured as powerful currency The study of this phenomenon is at once full of potential and peril rightly drawing attention to the wider social involvement of an otherwise exclusive group but also describing a religious community in terms of its service provision Previous scholarship has focused on the supply and demand of prayer within the medieval economy of power patronage and gift exchange Intercessory Prayer and the Monastic Ideal in the Time of the Carolingian Reforms is the first volume to explain how this transactional dimension of prayer factored into monastic spirituality Renie S Choy uncovers the relationship between the intercessory function of monasteries and the ascetic concern for moral conversion in the minds of prominent religious leaders active between c 750 820 Through sustained analysis of the devotional thought of Benedict of Aniane and contemporaneous religious reformers during the reigns of Charlemagne and Louis the Pious Choy examines key topics in the study of Carolingian monasticism liturgical organization and the intercessory performances of the Mass and the Divine Office monastic theology and relationships of prayer within monastic communities and with the world outside Arguing that monastic leaders showed new interest on the intersection between the interiority of prayer and the functional world of social relationships this study reveals the ascetic ideal undergirding the provision of intercessory prayer by monasteries
