Thrill of the Chaste Valerie Weaver-Zercher,2013-04-15 Weaver Zercher blends academic analysis with her own experiences of researching reading and talking with others about Amish fiction in order to explore the phenomenon with particular attention to the hypermodernity and hypersexuality that are fueling the appeal of the genre for evangelical Christian readers *Buddhism in the Modern World* David L. McMahan,2012-03-15 *Buddhism in the Modern World* explores the challenges faced by Buddhism today the distinctive forms that it has taken and the individuals and movements that have shaped it Part One discusses the modern history of Buddhism in different geographical regions from Southeast Asia to North America Part Two examines key themes including globalization gender issues and the ways in which Buddhism has confronted modernity science popular culture and national politics Each chapter is written by a distinguished scholar in the field and includes photographs summaries discussion points and suggestions for further reading The book provides a lively and up to date overview that is indispensable for both students and scholars of Buddhism **The Cambridge Companion**

to Christian Mysticism Amy Hollywood,Patricia Z. Beckman,2012-09-17 *The Cambridge Companion to Christian Mysticism* is a multi authored interdisciplinary guide to the study of Christian mysticism with an emphasis on the 3rd through the 17th centuries Written by leading authorities and younger scholars from a range of disciplines the volume both provides a clear introduction to the Christian mystical life and articulates a bold new approach to the study of mysticism *More Than Belief* Manuel A. Vasquez,2020-04-08 This book challenges the traditional idea that religions can be understood primarily as texts to be interpreted decoded or translated In *More Than Belief* Manuel A V squez argues for a new way of studying religions one that sees them as dynamic material and historical expressions of the practices of embodied individuals who are embedded in social fields and ecological networks He sketches the outlines of this approach through a focus on body practices and space In order to highlight the centrality of these dimensions of religious experience and performance V squez recovers materialist currents within religious studies that have been consistently ignored or denigrated Drawing on state of the art work in fields as diverse as anthropology sociology philosophy critical theory environmental studies cognitive psychology and the

neurosciences V squez offers a groundbreaking new way of looking at religion Satan in America W. Scott Poole,2009-11-16 Satan in America tells the story of America s complicated relationship with the devil New light evangelists of the eighteenth century enslaved African Americans demagogic politicians and modern American film makers have used the devil to damn their enemies explain the nature of evil and injustice mount social crusades construct a national identity and express anxiety about matters as diverse as the threat of war to the dangers of deviant sexuality The idea of the monstrous and the bizarre providing cultural metaphors that interact with historical change is not new Poole takes a new tack by examining this idea in conjunction with the concerns of American religious history The book shows that both the range and the scope of American religiousness made theological evil an especially potent symbol Satan appears repeatedly on the political religious and cultural landscape of the United States a shadow self to the sunny image of American progress and idealism Culture and Redemption Tracy Fessenden,2011-06-27 Many Americans wish to believe that the United States founded in religious tolerance has gradually and naturally established a secular public sphere that is equally tolerant of all religions or none Culture and Redemption suggests otherwise Tracy Fessenden contends that the uneven separation of church and state in America far from safeguarding an arena for democratic flourishing has functioned instead to promote particular forms of religious possibility while containing suppressing or excluding others At a moment when questions about the appropriate role of religion in public life have become trenchant as never before Culture and Redemption radically challenges conventional depictions celebratory or damning of America s secular public sphere Examining American legal cases children s books sermons and polemics together with popular and classic works of literature from the seventeenth to the twentieth centuries Culture and Redemption shows how the vaunted secularization of American culture proceeds not as an inevitable by product of modernity but instead through concerted attempts to render dominant forms of Protestant identity continuous with democratic civil identity Fessenden shows this process to be thoroughly implicated moreover in practices of often violent exclusion that go to the making of national culture Indian removals forced acculturations of religious and other minorities internal and external colonizations and exacting constructions of sex and gender Her new readings of Emerson Whitman Melville Stowe Twain Gilman Fitzgerald and others who address themselves to these dynamics in intricate and often unexpected ways advance a major reinterpretation of American writing **God in the Details** Eric Mazur,Kate McCarthy,2010-10-04 Exploring the blurred boundary between religion and pop culture God in the Details offers a provocative look at the breadth and persistence of religious themes in the American consciousness This new edition reflects the explosion of online activity since the first edition including chapters on the spiritual implications of social networking sites and the hazy line between real and virtual religious life in the online community Second Life Also new to this edition are chapters on the migration of black male expression from churches to athletic stadiums new configurations of the sacred and the commercial and post 9 11 spirituality and religious redemption through an analysis of vampire drama True Blood Popular

chapters on media sports and other pop culture experiences have been revised and updated making this an invaluable resource for students and scholars alike

Devotional Fitness Martin Radermacher, 2017-01-05 This book examines evangelical dieting and fitness programs and provides a systematic approach of this diverse field with its wide variety of programs When evangelical Christians engage in fitness and dieting classes in order to glorify God they often face skepticism This book approaches devotional fitness culture in North America from a religious studies perspective outlining the basic structures ideas and practices of the field Starting with the historical backgrounds of this current the book approaches both practice and ideology highlighting how devotional fitness programs construe their identity in the face of various competing offers in religious and non religious sectors of society The book suggests a nuanced and complex understanding of the relationship between sports and religion beyond simple functional equivalency It provides insights into the formation of secular and religious body ideals and the way these body ideals are sacralized in the frame of an evangelical worldview

The God Problem Robert Wuthnow, 2012-10-01 The United States is one of the most highly educated societies on earth and also one of the most religious In The God Problem Robert Wuthnow examines how middle class Americans juggle the seemingly paradoxical relationship between faith and reason Based on exceptionally rich and candid interviews with approximately two hundred people from various faiths this book dispels the most common explanations that Americans are adept at keeping religion and intellect separate or that they are a nation of joiners Instead Wuthnow argues we do this not by coming up with rational proofs for the existence of God but by adopting subtle usages of language that keep us from making unreasonable claims about God In an illuminating narrative that reveals the complex negotiations many undertake in order to be religious in the modern world Wuthnow probes the ways of talking that occur in prayers in discussions about God in views of heaven in understandings of natural catastrophes and personal tragedies and in attempts to reconcile faith with science

MOVE Richard Kent Evans, 2020-06-01 What is a religion That is the question that Richard Kent Evans attempts to answer in this book He does so through the story of MOVE a little known group with a fascinating story MOVE emerged in Philadelphia in the early 1970s It was a small mostly African American group devoted to the teachings of John Africa In 1985 the Philadelphia Police Department working in concert with federal and state law enforcement attacked a home that MOVE people as they preferred to be known shared in West Philadelphia Hundreds of police officers and firefighters laid siege to the building using tear gas ten thousand rounds of ammunition and improvised explosives Most infamously a police officer riding in a helicopter dropped a bomb containing C 4 explosives which he had acquired from the FBI onto the roof of the MOVE house The bomb started a fire which officials allowed to spread in hopes of chasing the MOVE people out of the house Police officers fired upon those who tried to escape the flames Eleven MOVE people died in the attack including John Africa Five of those who died were children In this book Richard Kent Evans tells the story of MOVE a story that has been virtually lost outside of Philadelphia What was MOVE Many MOVE members thought of themselves as belonging to a religion and they

sought legal recognition But to others including other religious groups like the Quakers and more importantly the courts MOVE was anything but a religion Evans dives deep into how we decide what constitutes a genuine religious tradition and the enormous consequences of that decision **Jews, Christians, Muslims** John Corrigan, Frederick Denny, Martin S Jaffee, Carlos Eire, 2016-01-08 Thematic examination of monotheistic religions The second edition of Jews Christians Muslims A Comparative Introduction to Monotheistic Religions compares Judaism Christianity and Islam using seven common themes which are equally relevant to each tradition Provoking critical thinking this text addresses the cultural framework of religious meanings and explores the similarities and differences among Judaism Christianity and Islam as it explains the ongoing process of interpretation in each religion The book is designed for courses in Western and World Religions **Researching Female Faith** Nicola Slee, Fran Porter, Anne Phillips, 2017-11-09 Religious and spiritual engagement has undergone multiple significant changes in recent decades Researching Female Faith is a collection of essays based on recent and original field research conducted by the contributors and informed by a variety of theoretical perspectives into the faith lives of women and girls broadly from within a Christian context Essays describe and recount original qualitative research that identifies illuminates and enhances our understanding of key aspects of women s and girls faith lives Offered as a contribution to feminist practical and pastoral theology the essays arise out of and feed back into a range of mainly UK pastoral and practical contexts While the essays in this volume will contribute to an enhanced appreciation and analysis of female faith the core focus is on feminist qualitative research methods and methodology Thus they demystify and illuminate the process of research including features of research which are frequently under examined The book is a first in bringing together a specific focus on feminist qualitative research methodology with the study of female faith lives It will therefore be of great interest to students academics and practitioners with interests in faith and gender in theology religious studies and sociology

Crossings and Dwellings Kyle B. Roberts, Stephen Schloesser, J.S., 2017-07-31 In Crossings and Dwellings Kyle Roberts and Stephen Schloesser S J bring together essays by eighteen scholars in one of the first volumes to explore the work and experiences of Jesuits and their women religious collaborators in North America over two centuries following the Jesuit Restoration Long dismissed as anti liberal anti nationalist and ultramontanist restored Jesuits and their women religious collaborators are revealed to provide a useful prism for looking at some of the most important topics in modern history immigration nativism urbanization imperialism secularization anti modernization racism feminism and sexual reproduction Approaching this broad range of topics from a variety of disciplinary perspectives this volume provides a valuable contribution to an understudied period Culture and Redemption , Visions of a Better World Quinton Dixie, Peter Eisenstadt, 2011-08-30 In 1935 at the height of his powers Howard Thurman one of the most influential African American religious thinkers of the twentieth century took a pivotal trip to India that would forever change him and that would ultimately shape the course of the civil rights movement in the United States When Thurman 1899 1981 became the first

African American to meet with Mahatma Gandhi he found himself called upon to create a new version of American Christianity one that eschewed self imposed racial and religious boundaries and equipped itself to confront the enormous social injustices that plagued the United States during this period Gandhi s philosophy and practice of satyagraha or soul force would have a momentous impact on Thurman showing him the effectiveness of nonviolent resistance After the journey to India Thurman s distinctly American translation of satyagraha into a Black Christian context became one of the key inspirations for the civil rights movement fulfilling Gandhi s prescient words that it may be through the Negroes that the unadulterated message of nonviolence will be delivered to the world Thurman went on to found one of the first explicitly interracial congregations in the United States and to deeply influence an entire generation of black ministers among them Martin Luther King Jr Visions of a Better World depicts a visionary leader at a transformative moment in his life Drawing from previously untapped archival material and obscurely published works Quinton Dixie and Peter Eisenstadt explore for the first time Thurman s development into a towering theologian who would profoundly affect American Christianity and American history

The Crisis of the Holy Alon Goshen-Gottstein, 2018-08-08 All the world s religions are experiencing rapid change due to a confluence of social and economic global forces Factors such as the pervasive intrusion of globalizing political and economic developments polarized and morally equivalent presentations seen in the media and the sense of surety demanded in and promised by a culture dominated by science are some of the factors that have placed extreme pressure on all religious traditions This has stimulated unprecedented responses by religious groups ranging from fundamentalism to the syncretistic search for meaning As religion takes on new forms the balance between individual and community is disrupted and reconfigured Religions often lose the capacity to recall their ultimate purpose or lead their adherents toward it This is the situation we call the crisis of the holy It is a confluence of threats challenges and opportunities for all religions This volume explores the contours of pressures changes and transformations and reflects on how all our religions are changing By identifying commonalities across religions as they respond to these pressures The Crisis of the Holy recommends ways religious traditions might cope with these changes and how they might join forces in doing so Contributors Vincent J Cornell Alon Goshen Gottstein Sidney H Griffith Maria Reis Habito B Barry Levy Deepak Sarma Michael von Br ck

Charles Hodge Paul C. Gutjahr, 2011-03-02 Charles Hodge 1797 1878 was one of nineteenth century America s leading theologians owing in part to a lengthy teaching career voluminous writings and a faculty post at one of the nation s most influential schools Princeton Theological Seminary Surprisingly the only biography of this towering figure was written by his son just two years after his death Paul C Gutjahr s book is the first modern critical biography of a man some have called the Pope of Presbyterianism Hodge s legacy is especially important to American Presbyterians His brand of theological conservatism became vital in the 1920s as Princeton Seminary saw itself and its denomination split The conservative wing held unswervingly to the Old School tradition championed by Hodge and ultimately founded the

breakaway Orthodox Presbyterian Church The views that Hodge developed refined and propagated helped shape many of the central traditions of twentieth and twenty first century American evangelicalism Hodge helped establish a profound reliance on the Bible among Evangelicals and he became one of the nation s most vocal proponents of biblical inerrancy Gutjahr s study reveals the exceptional depth breadth and longevity of Hodge s theological influence and illuminates the varied and complex nature of conservative American Protestantism *Applied Christian Ethics* Matthew Lon Weaver,2014-09-09

Applied Christian Ethics addresses selected themes in Christian social ethics The book is divided in three parts In the first section Foundation several contributors reveal their Christian realist roots and discuss the prophetic origins and multifarious agenda of social ethics Thus the names of Reinhold Niebuhr and Paul Tillich come up frequently In the second section Economics and Justice the focus turns to the different levels at which economics has significance for social justice These chapters discuss fair housing at the local level the dialogue between Christians and Native Americans over property rights at the regional and national levels and trade and international organization In the third and final section Politics War and Peacemaking the content ranges from the existential experience of a soldier to that of a veteran of civil rights activism from theorizing about peacemaking to commenting on the use of drones
