New Leadership into the 21st Century Yahya ibn Shabazz, 2003-09-17

Imam W Deen Mohammed said in a public address words make people I believe that a word can be anything that leaves an impression on the minds of human society be it spoken acted out or whatever form it may take all creation is to be seen as a word According to scripture all creation is here as a result of a word spoken by G d so again we say words make people If we can go deeper and look at the mind of the human being and look at what kinds of words that are going into the mental makeup of a person we then can get a better picture of what forms the character of that person We must understand that our physical construction only acts as a vehicle that transports the mind which is the real person So just to view the physical makeup of a person is not really seeing that person at all It is the ideas the activities the words etc that comes from that person's mind that helps us to see the real person So now we can see the importance of understanding a word like leader Leader a person that leads or has commanding influence or authority over others The director conductor or guide Ship the state condition or quality of something Art skill of office So now we see that not only do we still need leaders but also we must have leaders that have the best interest of the people at heart Leaders with the vision the wisdom knowledge and the

integrity to know when to stay or change courses so that not only will they be able to get the people to the next level but will also give the people the knowledge so that they may guide themselves through the rough waters of society When we talk about leadership we should understand that for the subject to even come up there has to be something lacking in the minds of the people in term of where we as a people or as a society want to go and how we are going to reach the goals we have set for ourselves In todays society we hear some foolish people make the statement I dont need a leader Or I follow my self I make my own decisions We must understand that theres not a thought or an idea that we can think of that is our very own We are influenced by the environment that we live in We should also realize that this society is not hap hazard but rather very orchestrated Therefore many decisions that we make become life determining In todays society we are lead to think that all accomplishments have to be material With this kind of thinking we can easily see how a person can become so limited in terms of growth and development and a non contributor to the positive development of human society as a whole Many are influenced by the all pervasiveness of the media which contrary to what those in media would have us believe media is not art mimicking life but rather it helps to set the trends of life We see many people with lots of money especially those in the field of entertainment with little or no vision reach their peak in the early stages of their development and then suddenly crash as a result of the trials of life Still others who desire to have these material accomplishments although never rise to that level still they see it as their lifes goal and in their quest for it they use illegal methods which eventually leaves them dead in the streets or locked up behind bars for a good deal of their young lives Then there are those who continue to struggle to make ends meet and those who do manage to make it up the higher end of the economic ladder Too many of these tend to lose their identity because they have been lead to believe that the goal for the African American community is voting rights or integration and once these goals are achieved then the struggle is over As a consequence of this kind of thinking as African Americans we still see ourselves at the bottom of American society Not only here in America but around the world as well It is unfortunate

Leadership Charles B.M Balenga,2018-07-02 In 31 Essential Principles of Leadership Charles Balenga has compiled an extensive list of attributes that will make a leader as effective as possible Each attribute is clearly explained with examples of how you can apply them to both your everyday life and your leadership Charles passion for leaders both young and old to be as effective as possible is inspiring and contagious he truly desires to see Africa and the world as a whole become a stronger place for all He uses his own considerable leadership experience through being a teacher a missionary executive director board president and a pastor to compile this list If you read understand and apply these 31 principles your leadership s effectiveness will rise to a greater height Although it is meant to be read as a daily devotion for each day for a month you can read two three or more principles a day depending on your reading speed and understanding The important thing is your comprehension and application of these principles Charles discusses leadership at a global level but includes some discussions on African leadership specifically The principles addressed in this book are applicable anywhere in the world and can be used in any community country or kingdom These principles are meant to help every leader wherever he or she may be to lead well It is important we each know that the greatness of any human being the ultimate success of any leader is in the we not in the me doing well Greatness is in my ability and your ability to rejoice in the others success The more I rejoice in the blessings of someone else the closer to coming my blessing is This means then that jealousy rivalry and negative competition with others are all chasing after the wind A leader blesses others He empowers others He throws a party to

celebrate the success and achievements of others He works with others to ensure community success Wanting to be the only successful person in the community is not being a leader
