Behind this figure, there are various geometric and organic shapes, including a large, stylized eye or face. The background is a mix of dark, textured areas and lighter, more defined shapes. The overall color palette is dominated by dark browns, blacks, and greys, with some highlights in white and red.

**Feminist Christian Encounters** Angela Pears, 2019-07-16 Originally published in 2004 Feminist discourses have focused sustained and sometimes devastating critical attention on Christianity over the last fifty years Today feminisms remain significant but often ambiguous forces in contemporary Christian theology At a time in which questions about the success and viability of

feminisms are increasingly posed Feminist Christian Encounters makes a unique contribution to the ongoing investigation into the creative relationship between feminisms and Christianity Angela Pears identifies some of the key theological and methodological mechanisms by which Christian feminist theologies are informed sustained and made possible by feminist values and critiques Pears argues that certain strategies characterize the facilitation of this dialogue in contemporary Christian feminist theologies enabling theologians to accept the values and critiques of feminisms whilst at the same time proclaim some level of commitment to Christianity Engaging in a process of deconstruction of the methodologies of key Christian theological thinkers who have made use of feminisms in their theologies this book reveals the mechanisms of feminist Christian encounter at work     Psychology and Religion Andrew R. Fuller, 2007-11-27 This book articulates a broad range of theoretical viewpoints both classical and contemporary in the field of the psychology of religion Chapters One through Eight are overviews of such classical theorists as William James Sigmund Freud Carl Jung Gordon Allport Abraham Maslow Alan Watts Erich Fromm and Viktor Frankl Chapters Nine through Twelve consider subsequent developments in the field e g the views of object relations theorists on the God image empirical research on the scaling of religiousness and modern consciousness research Chapters Ten through Twelve are new to this edition and comprise an eclectic overview of the feminist psychology of religion recent developments in the intersection of neuroscience and religion and the evolutionary psychology of religion Both wide ranging and current therefore this book offers illuminating and in depth coverage of major theorists and approaches While its breadth makes it an excellent place to begin an exploration of the psychology of religion its depth and detail provide the opportunity for a serious and rewarding immersion in the field     Soul and Psyche Wayne G. Rollins, 1999 The first introduction to the history and method of biblical psychological interpretation     **Phenomenological Inquiry in Psychology** Ron Valle, 2013-11-11 This fine new book the third in a series brings psychologists up to date on the advances of phenomenological research methods in illuminating the nature of human awareness and experiences In the more congenial and welcoming intellectual climate of the 1990s the phenomenological methods have moved to the forefront of discourse on research methods that support and advocate an expanding view of science In Valle and King 1978 phenomenological methods were presented as alternatives to behavioral methods In Valle and Halling 1989 phenomenological methods were advanced to perspectives in psychology This new volume is even less cautious indeed bolder in relation to conventional methods and epistemologies By now people knowledgeable about psychology and most psychologists have digested the criticisms directed against methods that operationalize quantify and often minimize human behavior In bringing us up to date on the growing power of the phenomenological methods this volume brings welcome coherence and integrity to an increasingly harried science attempting to reenchant itself with meaning and depth an endeavor artfully exemplified by phenomenological inquiries of the last several decades     *Sensing Sacred* Jennifer Baldwin, 2016-08-30 *Sensing Sacred* is an edited volume that explores the critical intersection of religion and body through the religious lens of practical theology with

an emphasis on sensation as the embodied means in which human beings know themselves others and the divine in the world The manuscript argues that all human interaction and practice including religious praxis engages body through at least one of the human senses touch smell hearing taste sight kinestics proprioception Unfortunately body and more specifically and ironically sensation is eclipsed in contemporary academic scholarship that is inherently bent toward the realm of theory and ideas This is unfortunate because it neglects bodies physical or communal as the repository and generator of culturally conditioned ideas and theory It is ironic because all knowledge transmission minimally requires several senses including sight touch and hearing Sensing Sacred is organized into two parts The first section devotes a chapter to each human sense as an avenue of accessing religious experience while the second section explores religious practices as they specifically focus on one or more senses The overarching aim of the volume is to explicitly highlight each sense and utilize the theoretical lenses of practical theology to bring to vivid life the connections between essential sensation and religious thinking and practice

**Bodies, Lives, Voices** Janette Gray, Kathleen O'Grady, Ann L. Gilroy, 2016-10-06 This work lies at the critical juncture of feminism and religious studies and participates in the vibrant tradition of the feminist anthology It is part of a broad feminist discourse that continues to grow less monolithic and more varied in material method and style each year The papers are divided into three main sections the representation of women in sacred texts and theologies the fundamental need to recover the heritage of women and to return to women their history and the coming together of canonical texts with contemporary feminist theory in order to address philosophical and theological problems

**Veiled Desires** Maureen Sabine, 2013-08-22 Ingrid Bergman's engaging screen performance as Sister Mary Benedict in The Bells of St Mary's made the film nun a star and her character a shining standard of comparison She represented the religious life as the happy and rewarding choice of a modern woman who had a complete understanding of both erotic and spiritual desire How did this vibrant and mature nun figure come to be viewed as girlish and naïve Why have she and her cinematic sisters in postwar popular film so often been stereotyped or selectively analyzed so seldom been seen as women and religious In Veiled Desires a unique full length in depth look at nuns in film Maureen Sabine explores these questions in a groundbreaking interdisciplinary study covering more than sixty years of cinema She looks at an impressive breadth of films in which the nun features as an ardent lead character including The Bells of St Mary's 1945 Black Narcissus 1947 Heaven Knows Mr Allison 1957 Sea Wife 1957 The Nun's Story 1959 The Sound of Music 1965 Change of Habit 1969 In This

House of Brede 1975 Agnes of God 1985 Dead Man Walking 1995 and Doubt 2008 Veiled Desires considers how the beautiful and charismatic stars who play chaste nuns from Ingrid Bergman and Audrey Hepburn to Susan Sarandon and Meryl Streep call attention to desires that the veil concealed and the habit was thought to stifle In a theologically and psychoanalytically informed argument Sabine responds to the critics who have pigeonholed the film nun as the obedient daughter and religious handmaiden of a patriarchal church and the respectful audience who revered her as an icon of spiritual perfection Sabine provides a framework for a more complex and holistic picture of nuns onscreen by showing how the films dramatize these women's Christian call to serve sacrifice and dedicate themselves to God and their erotic desire for intimacy agency achievement and fulfillment

Religion, Gender, and the Public Sphere Niamh Reilly, Stacey Sriver, 2013-11-26 The re emergence of religion as a significant cultural social and political force is not gender neutral Tensions between claims for women's equality and the rights of sexual minorities on one side and the claims of religions on the other side are well documented across all major religions and regions It is also well recognized in feminist scholarship that gender identities and ethno religious identities work together in complex ways that are often exploited by dominant groups Hence a more comprehensive understanding of the changing role and influence of religion in the public sphere more widely requires complex multidisciplinary and comparative gender analyses Most recent discussion on these matters however especially in Europe has focused primarily on the perceived subordinate status of Muslim women These debates are a reminder of the deep interrelation of questions of gender identity human rights and religious freedom more generally The relatively narrow albeit important purview of such discussions so far however underscores the need to extend the horizon of enquiry vis vis religion gender and the public sphere beyond the binary of Islam versus the West Religion Gender and the Public Sphere moves gender from the periphery to the centre of contemporary debates about the role of religion in public and political life It offers a timely multidisciplinary collection of gender focused essays that address an array of challenges arising from the changing role and influence of religious organisations identities actors and values in the public sphere in contemporary multicultural and democratic societies
