Retail and Channel Marketing Sandro Castaldo, Monica Grosso, Katia Premazzi, 2020-10-30 Now in its second edition this updated text explores the contemporary trends in retail and channel marketing Disentangling the complexity of channel marketing issues it offers a systematic overview of the key concepts and intricacies of the subject and provides a holistic approach to retail and channel marketing

Retailing in the European Union Stewart Howe, 2005-08-12 As retailing becomes increasingly important in global economics the similarities and differences of retailing from country to country are now more evident This unique and timely study of retail structures across Europe gives an insightful overview of the internationalization of retailing and asks important questions regarding the effectiveness of different retailing sectors With chapters on Denmark France Germany Greece Italy Spain and the United Kingdom this contemporary study examines the extent to which Europe s increasingly homogenous environment applies to retailing By considering overall structural and socio economic variables of country to country retailing it draws fascinating conclusions on efficiency and competition within the European Union A major contribution to the field of European retail studies this significant work in comparative legislation is essential reading for anyone studying retailing at postgraduate or undergraduate level or with an interest in comparative economics

The Routledge Companion to the History of Retailing Jon Stobart, Vicki Howard, 2018-11-08 Retail history is a rich cross disciplinary field that demonstrates the centrality of retailing to many aspects of human experience from the provisioning of everyday goods to the shaping of urban environments from earning a living to the construction of identity Over the last few decades interest in the history of retail has increased greatly spanning centuries extending to all areas of the globe and drawing on a range of disciplinary perspectives By offering an up to date comprehensive thematic spatial and chronological coverage of the history of retailing this Companion goes beyond traditional narratives that are too simplistic and Euro centric and offers a vibrant survey of this field It is divided into four broad sections 1 Contexts 2 Spaces and places 3 People processes and practices and 4 Geographical variations Chapters are written in an analytical and synthetic manner accessible to the general reader as well as challenging for specialists and with an international perspective This volume is an important resource to a wide range of readers including marketing and management specialists historians geographers economists sociologists and urban planners

National Capitalisms, Global Production Networks Christel Lane, Jocelyn Probert, 2009-03-19 Firms in the clothing industry engage in global sourcing and operate in global markets Their global production networks have often been subject to scrutiny as the power relationships between buyer firms in developed countries and supplier firms in developing countries raise issues concerned with fast fashion the role of brands labour standards in developing countries job losses among the most vulnerable workers in Europe

and the US and the growing differentiation within the bloc of developing countries between the least developed and fast developers such as China and India This book analyses the way British American and German firms in the clothing industry manufacturing and retail co ordinate and govern their global production networks value chains It offers a multi level study concerned with processes of economic interaction between international regional and national economic institutions and actors This combines an analysis of international regional regulatory systems global markets and conditions in the developing countries where suppliers are found with a focus on the recent development of the clothing industry in three western countries The analysis of firms global networks focuses on the power relationships between western producers and retailers on the one hand and between buyer firms in developed and supplier firms in developing countries on the other as well as their impact on labour Utilising over one hundred interviews in six countries on three continents it follows the value chain from developed to developing countries and studies the many issues which confront students of globalization at the current time The study combines theoretical perspectives from economic sociology political economy and management and seeks to utilise the complementary strengths of the Varieties of Capitalism approach and that of Global Production Networks Value Chains It will appeal to advanced students and academics interested in processes of economic globalization and the way firms manage them as well as to those looking for a study of the clothing industry which combines theoretical depth with broad empirical coverage

The Third Globalization Dan Breznitz,John Zysman,2013-03-26 Given the powerfully negative and ongoing impact of the Great Recession on western economies the question of whether historically wealthy nations the US Western European countries Japan can stay wealthy has become an overriding concern for virtually every interested observer Can their middle classes remain comfortable as more and more good and technically jobs disappear to other parts of the world Can they support themselves as they devote more and more economic resources to an aging population base In The Third Globalization eminent political economists Dan Breznitz and John Zysman gather some of the discipline s leading scholars to assess the prospects for growth and prosperity among advanced industrial nations

Electricity Reform in Europe Jean-Michel Glachant,2009-01-01 this volume comes across as one of the most profound sources on the specifics of European electricity market restructuring Competition and Regulation in Network Industries The SESSA study on the Internal Energy Market was an important and influential contribution towards the Commission s proposal for a third package of proposals intending to bring more effective competition and better security of supply to Europe s energy markets This volume based on the results of the study is an important and welcome contribution to the ongoing debate on these proposals Andris Piebalgs Commissioner for Energy at the European Commission The chapters in this book are written by the leading European scholars who have studied the structure behavior and performance of liberalised electricity markets in many European countries as well as in other regions of the world Both the analyses and

the policy recommendations contained in this volume are well worth careful consideration by policymakers in Europe as well as by policymakers in other countries that are seeking to adopt successful electricity sector liberalisation programs

From the foreword by Paul L Joskow Massachusetts Institute of Technology US Dynamism or dissipation Competition or national champions Will enlargement promote or delay reform Energy economists contemplate the challenges posed by the restless and discontent European Commission Stephen Littlechild University of Birmingham and Judge Institute for Management Studies University of Cambridge UK The challenge of European electricity reform is being met although gradually delays notwithstanding This book provides precious help in spotting where the necessary further efforts should be directed In the US mistakes and delays have occurred no less than in Europe but an aggressive federal regulator absent in Europe is working to overcome them Electricity markets do not happen they have to be built Here are suggestions for a workable European market design No ideology just competence and wisdom from both theory and experience Will Europe learn Pippo Ranci Universit Cattolica del Sacro Cuore Italy The realisation of a European internal market for energy is still a work in progress Written by leading European scholars and discussed with major energy stakeholders this book presents a thorough analysis of the motives and methods needed to achieve a single European energy market The authors discuss the critical issues surrounding an internal European energy market including market design competition and market power sustainable energy versus the market regulation and harmonisation benchmarking and indicators modelling of competition market prices and energy forecasts They provide a multi disciplinary assessment of the best way to build the market base of a future European energy policy Electricity Reform in Europe will be of great interest to decision makers and managers in the energy industry or business sector as they will be able to see the whole European energy policy picture beyond their own corporate interests The book will also appeal to national and European energy administrations regulatory bodies and policy makers providing a synthesis of all relevant policy issues

Industry and the European Union Michael Darmer, Laurens Kuyper, 2000-01-01 This book is a most valuable contribution to the understanding of the complexity of European policies and their impact on individual businesses and industry as a whole That focus makes this book unique All in all there are only a few books about the industrial policy of the European Union and none with such a focus Karel van Miert Universiteit Nyenrode The Netherlands Contrary to standard works covering community industrial policy this book is based on the experience of those involved in the actual formulation of policies It documents the evolution of this policy towards a horizontal approach combining various instruments that need to be made consistent with each other This book will be very valuable to scholars and policymakers alike Alexis Jacquemin European Commission and Universit Catholique de Louvain Belgium European policies increasingly affect the daily decisions of European firms Better understanding of the motivation and reasoning behind policies that affect industry is therefore essential to those interested in or affected by industrial policy Industry and the European Union explores different European policy areas focusing on aspects that are of particular
