Rethinking Abortion Pb 1999:

Rethinking Democratic Innovation Frank Hendriks, 2023-08-25 Rethinking Democratic Innovation takes a fresh look at diverging visions of improving democratic governance and asks whether these existing tensions could be made productive. Could different visions of democratic revitalisation complement and correct each other in ways that are good for democracy? Is it conceivable that combined approaches address a larger part of the democratic challenge while isolated approaches centralizing deliberative or plebiscitary democracy are confined to more limited areas of concern? This book ultimately provides an affirmative answer outlining the scope for hybrid democratic innovations that thrive on exploiting not eliminating tensions between diverging visions of improved democracy. Supplementing democratic theory with a cultural perspective, this book contributes to a deeper understanding of plans and methods geared toward improving democratic governance. Revisiting Mary Douglas's seminal take on culture as pollution, reduction processes of democratic innovation are understood as instances of cultural cleaning in public governance. The book recognizes that democratic cleaning will never be finished but can be done in ways that are more productive. Reflecting on varieties of hybrid democratic innovation: deliberative, referendums, participatory budgeting, new style and more, the author posits that more versatile, connective and embedded innovations stand a better chance of high performance on a broader spectrum than democratic innovations falling short of these qualities. Jürgen Habermas Luca Corchia, 2010 **Criminological Perspectives** Eugene McLaughlin, John Muncie, Gordon Hughes, 2003-02-24 This book presents in accessible form the most relevant readings from the diverse criminology literature and provides students with direct access to the main theories and perspectives which underpin and shape the discipline of criminology. *Social Sciences Index*, 2000 **Cumulated Index Medicus**, 1999 Just Sex? Nicola Gavey, 2018-10-26 In the award winning Just Sex: The Cultural Scaffolding of Rape, Nicola Gavey provides an extensive commentary on the existing literature on rape, analysing recent research to examine the psychological and cultural conditions of possibility for contemporary sexual violence. Just Sex argues that feminist theory on sexual victimization has gone both too far and not far enough. It presents the reader with a challenging and original perspective on the issues of rape, sex and the body, incorporating new material on sexism, misogyny and digital culture as well as debates over gendered analyses of sexual violence. The second edition has been updated and expanded to be extremely timely and relevant with the most recent high profile rape cases, the Stanford rape case and the Belfast rape case being tried in the media and online. The rise of the Hollywood Harvey Weinstein scandal and the MeToo movement makes this book incredibly useful and necessary to those who are working within the area of sexual violence. This will appeal to academic readers studying psychology, sociology and criminology as well as those looking into cultural influences on society. It will also be very useful to those working in the professional sector on prevention and with people who have been subjected to sexual violence. **The Political Geographies of Pregnancy** Laura R. Woliver, 2010-10-01 A searing study of how modern reproductive politics shapes

women's bodily agency Pregnancy indisputably takes place within a woman's body But as reproductive power finds its way into the hands of medical professionals lobbyists and policymakers the geographies of pregnancy are shifting and the boundaries need to be redrawn argues Laura R Woliver The Political Geographies of Pregnancy is a vigorous analysis of the ways modern reproductive politics are shaped by long standing debates on abortion and adoption surrogacy arrangements new reproductive technologies medical surveillance and the mapping of the human genome Across a politically charged backdrop of reproductive issues Woliver exposes strategies that claim to uphold the best interests of children families and women but in reality complicate women's struggles to have control over their own bodies Utilizing feminist standpoint theory and promoting a feminist ethic of care Woliver looks at abortion politics modern adoption laws that cater to male headed families regulations that allow the state to monitor pregnant women but not always provide care for them and the power structures behind the seemingly benign world of egg selling and surrogate parenting She also considers the potentially staggering political implications of mapping the human genome and the exclusion of women's perspectives in discussions about legislation and advancements in reproductive technologies
