Rethinking Citizenship Welfare Ideology And Change In Modern Society:

Rethinking Citizenship Maurice Roche,1992-11-03 Citizenship rights have become vital to our sense of personal identity and social membership in modern society In this book Maurice Roche argues that today we have to shift from the conventional post war politics of social rights to a new politics of social obligations and personal responsibility Recent social changes have created new problems which require rethinking of both social policy and the welfare state In a wide ranging discussion Roche provides a new analysis and assessment of citizenship in developed societies The book is particularly important in its inclusion of an assessment of contemporary debates about the rise of the new poverty the development of an underclass as well as other post industrial changes affecting employment and family life *European Citizenship : National Legacies and Transnational Projects* Klaus Eder,Berhard Giesen,2001-02-01 Is there a common ground on which a European citizenship can be constructed This volume looks at four foundations of citizenship in Europe the legacy of national identities current designs and projects for social and political citizenship in Europe a transitional public space as the basis of an active European Citizenship in Europe and a transitional collective identity as a symbolic boundary marker for European citizenship Such options raise the theoretical question of how to conceive citizenship in a transnationalizing world Since the idea of European citizenship cannot escape the problem of defining who is a European citizen and who is not the theoretical problem is tackled by defining the collective bonds of European citizens beyond primordial or traditional bonds that have dominated European history **Social Justice and Public Policy** Craig, Gary,Burchardt, Tania,David Gordon,2008-06-18 This important book explores the meaning of social justice and examines how it translates into the everyday concerns of public and social policy **Social justice and public policy** Craig, Gary,Burchardt, Tania,2008-06-18 Social justice is a contested term incorporated into the language of widely differing political positions Those on the left argue that it requires intervention from the state to ensure equality at least of opportunity those on the right believe that it can be underpinned by the economics of the market place with little or no state intervention To date political philosophers have made relatively few serious attempts to explain how a theory of social justice translates into public policy This important book drawing on international experience and a distinguished panel of political philosophers and social scientists addresses what the meaning of social justice is and how it translates into the everyday concerns of public and social policy in the context of both multiculturalism and globalisation The McDonaldization of Social Work Donna Dustin,2016-02-17 Based upon George Ritzer s McDonaldization of Society thesis and incorporating aspects of social theory this book examines the introduction of care management to social work practice Donna Dustin analyzes care management as an example of the managerial application of efficiency calculability predictability and control to social work practice These principles put to good use in organizations that produce tangible outputs at a profit are being increasingly applied in non profit public sector organizations where the outcomes require intangibles such as professional relationships The author examines whether the

McDonaldisation process heightens dilemmas such as cost versus rights for professionals working in the social services. Using social theory to frame her research with care managers and their managers in the UK the author examines the day to day implications of care management for social work practice and questions whether the construction of service users as customers contributes to empowering practice. The book's in depth analysis of the policy background implementation and practice of care management will resonate with social workers in other national contexts such as the US where the care management model has been introduced.

Money for Everyone Malcolm Torry, 2013-06-27 Due to government cuts the benefits system is currently a hot topic. In this timely book a Citizen's Income sometimes called a Basic Income is defined as an unconditional non withdrawable income for every individual as a right of citizenship. This much needed book written by an experienced researcher and author is the first for over a decade to analyse the social economic and labour market advantages of a Citizen's Income in the UK. It demonstrates that it would be simple and cheap to administer would reduce inequality enhance individual freedom and would be good for the economy social cohesion families and the employment market. It also contains international comparisons and links with broader issues around the meaning of poverty and inequality making a valuable contribution to the debate around benefits. Accessibly written this is essential reading for policy makers researchers teachers students and anyone interested in the future of our society and our economy.

Environment and Citizenship Mark J. Smith, Doctor Piya Pangsapa, 2013-07-04 Citizenship and the environment are hotly debated as climate change places more responsibility on individuals and institutions in shaping policy. Using new evidence and cases from across the globe *Environment and Citizenship* explores the new vocabulary of ecological citizenship and examines how successful environmental policy making depends on the responsible actions of citizens and civil society organizations as much as on governments and international treaties. This accessible and thought provoking book provides a comprehensive and timely guide to the debates on environmental and ecological citizenship expertly combining examples of practice with theory. It examines how environmental movements have become increasingly involved in governance processes at the local national regional and intergovernmental levels. It explores the increasing importance of corporations and transnational networks through examples of stakeholding processes and participatory research in environmental decision making. It calls on researchers policy makers and activists to face a new challenge how to effectively link environmental justice with social justice. Breaking new ground Smith and Pangsapa address how environmental responsibility operates through politics ethics culture and the everyday experiences of activists as well as how awareness of environmental and social injustice only leads to responsible actions and strategic change through civic engagement.

Diasporic Citizenship Michel S. Laguerre, 2016-07-27 This book briefly delineates the history of the Haitian diaspora in the United States in the nineteenth century but it primarily concerns itself with the contemporary period and more specifically with the diasporic enclave in New York City. It uses a critical transnational perspective to convey the adaptation of the immigrants in American society and the

border crossing practices they engage in as they maintain their relations with the homeland It further reproblematises and reconceptualizes the notion of diasporic citizenship so as to take stock of the newer facets of the globalization process

Human Geography Derek Gregory, Ron Martin, Grahame Smith, 1994-10-10 Human geography is currently undergoing a rapid and far reaching re orientation based on a redefined and much closer relationship with other social sciences Aimed at a broad student readership this book focuses on developments in social scientific theory of particular significance in rethinking human geography and on the contribution the geographical imagination can make to good social science **The Future of**

Social Security Policy Ailsa McKay, 2005-07-25 Current debates concerning the future of social security provision in advanced capitalist states have raised the issue of a citizen s basic income CBI as a possible reform package a proposal based on the principles of individuality universality and unconditionality which would ensure a minimum income guaranteed for all members of society Implementing a CBI would consequently entail radical reform of existing patterns of welfare delivery and would bring into question the institutionalized relationship between work and welfare Ailsa McKay s book makes a unique and positive contribution to the CBI literature by examining the proposal from a feminist economics perspective Gender concerns are central to any debate on the future of social security policy in that state intervention in the field of income redistribution has differential impacts on men and women By drawing attention to the potential a CBI has in promoting equal rights of freedom for men and women this book serves to open up the debate to incorporate a more realistic and inclusive vision of the nature of modern socio economic relationships Fear, Space and Urban Planning Simone

Tulumello, 2016-07-27 This book examines the phenomenon of urban fear the increasing anxiety over crime and violence in Western cities despite their high safety with a view to developing a comprehensive critical exploratory theory of fear space and urban planning that unravels the paradoxes of their mutual relations By focusing especially on the southern European cities of Palermo and Lisbon the book also aims to expand upon recent studies on urban geopolitics enriching them from the perspective of ordinary as opposed to global cities Readers will find enlightening analysis of the ways in which urban fear is re produced including by misinformative discourses on security and fear and the political construction of otherness as a means of exclusion The spatialization of fear e g through fortification privatization and fragmentation is explored and the ways in which urban planning is informed by and has in turn been shaping urban fear are investigated A concluding chapter considers divergent potential futures and makes a call for action The book will appeal to all with an interest in whether and to what extent the production of fearscape the contemporary landscapes of fear constitutes an emergent urban political economy Solidarity in Individualized Societies Søren Juul, 2013-02-11 In today s individualized culturally diverse and globalized society many sociologists have concluded that the conceptualizations developed by classical sociology are no longer sufficient to promote social cohesion So what kind of solidarity can achieve this Engaging with recent thought in social and political theory and philosophy including Honneth Forst Ricoeur Bauman Sennett Taylor Rawls MacIntyre and

many others this book develops a renewed concept of solidarity based on the notion of recognition with regard to others With attention to the implications of such an account for justice and judgement particularly where competing claims for recognition arise *Solidarity in Individualized Societies* examines what in a society based on recognition a fair distribution of recognition would mean The book provides a critical analysis of trends in modern culture and in the policy on welfare that seem to constitute obstacles to solidarity and social cohesion It is a rigorous examination of forms of solidarity that may sustain social cohesion in the contemporary Western world This book will appeal to scholars and students of sociology social theory politics and philosophy

Ordinary Consumption Jukka Gronow, Alan Warde, 2013-01-11 The sociology of consumption has concentrated unduly on the more spectacular and visual aspects of contemporary consumer behaviour thereby constructing an unbalanced and misleading view This collection emphasises ordinary rather than extraordinary items routine and repetitive behaviour rather than conscious decision making It studies practical contexts of use rather than decisions to purchase and analyses collective identification rather than personal identity Each essay argues one or more of these points for the most part using new empirical material from several different national contexts The topics analysed include shopping in Taiwan second home ownership in France environmental considerations concerning food choice in Denmark the take up of new domestic technologies in Finland and kitchen design in England Key concepts like tradition routine and habit are clarified and new conceptual distinctions are made with the book defending theoretical approaches deriving from Simmel Weber Durkheim and Bourdieu *Ordinary Consumption* promotes a distinctive approach to the understanding of the central practices of consumer society it is a book with a controversial message one which will be a source of debate about the appropriate agenda for future research

A Theory Of Citizenship Herman R. Van Gunsteren, 2018-10-08 Does vital citizenship require moral consensus Or is it the ability to organize their differences that allows people to live together as citizens in a republic Whereas liberal republican and communitarian theories of citizenship analyzed the conditions of citizenship the central message of this book is that the practical exercise of citizenship under conditions that are far from ideal is the main source of its vitality Instead of arguing for more participation it focuses on the citizenship of those who for whatever reason are already active in the public sphere Herman van Gunsteren develops a theory of citizenship well suited to the era of political reform that was inaugurated by the revolutions of 1989

The Digital Divide Massimo Ragnedda, Glenn W. Muschert, 2013-06-19 This book provides an in depth comparative analysis of inequality and the stratification of the digital sphere Grounded in classical sociological theories of inequality as well as empirical evidence this book defines the digital divide as the unequal access and utility of internet communications technologies and explores how it has the potential to replicate existing social inequalities as well as create new forms of stratification The Digital Divide examines how various demographic and socio economic factors including income education age and gender as well as infrastructure products and services affect how the internet is used and accessed Comprised of six parts the first section examines theories of the digital divide and then looks in turn at Highly developed nations and regions including the USA the EU and Japan Emerging large powers Brazil China India Russia Eastern European countries Estonia Romania Serbia Arab and Middle Eastern nations Egypt Iran Israel Under studied areas East and Central Asia Latin America and sub Saharan Africa Providing an interwoven analysis of the international inequalities in internet usage and access this important work offers a comprehensive approach to studying the digital divide around the globe It is an important resource for academic and students in sociology social policy communication studies media studies and all those interested in the questions and issues around social inequality

The Rise of Confucian Citizens in China Canglong Wang, 2023-07-07 This book explores the relationship between Confucianism and citizenship and the rise of Confucian citizens in contemporary China Combining theoretical and empirical approaches to the topic the book constructs new frameworks to examine the nuances and complexities of Confucianism and citizenship exploring the process of citizen making through Confucian education By re evaluating the concept of citizenship as a Western construct and therefore

challenging the popular characterization of Confucianism and citizenship as incompatible this book posits that a new type of citizen the Confucian citizen is on the rise in 21st century China The book s clear accessible style makes it essential reading for students and scholars interested in citizenship Confucianism and Chinese studies and those with an interest in religion and philosophy more generally

Framing Civic Engagement, Political Participation and Active Citizenship in Europe Cristiano Bee,Roberta Guerrina,2017-12-22 This book evaluates the role that civic engagement political participation and active citizenship can play in promoting the establishment of a European polity The chapters included here examine how the practice of active citizenship is managed and constructed in the context of a European drive to increase civic engagement and political participation in three member states Portugal Italy and the UK and one accession country Turkey Looking at both processes and policies promoting active citizenship at the European and national levels this book uncovers current discourses as well as political priorities and values that surround the activities of non governmental organizations NGOs Of particular interest are debates about the nature and level of civic and political participation and engagement of marginal groups women youths migrants and minorities as they are particularly vulnerable to social exclusion The book focuses on the interaction between institutions and civil society actors addressing a number of questions related to their reciprocal role in influencing shaping criticising or disregarding certain political priorities This book was published as a special issue of the Journal of Civil Society
