Rethinking Confucianism Benjamin A. Elman, John B. Duncan, Herman Ooms, 2002 **Rethinking East Asian Languages, Vernaculars, and Literacies, 1000-1919**, 2014-08-21 The authors consider new views of the classical versus vernacular dichotomy that are especially central to the new historiography of China and East Asian languages Based on recent debates initiated by Sheldon Pollock's findings for South Asia we examine alternative frameworks for understanding East Asian languages between 1000 and 1919 Using new sources making new connections and re-examining old assumptions we have asked whether and why East and SE Asian languages e.g. Chinese Manchu Mongolian Jurchen Korean Japanese and Vietnamese should be analysed in light of a Eurocentric dichotomy of Latin versus vernaculars This discussion has encouraged us to explore whether European modernity is an appropriate standard at all for East Asia Individually and collectively we have sought to establish linkages between societies without making a priori assumptions about the countries' internal structures or the genealogy of their connections Contributors include Benjamin Elman Peter Kornicki John Phan Wei Shang Haruo Shirane Morten S. Park Chung Hee and Modern Korea Carter J. Eckert, 2016-11-07 This first volume in a two part study examines the origins of South Korean authoritarianism as personified by the militant political leader For South Koreans the twenty years from the early 1960s to late 1970s were the best and worst of times a period of unprecedented economic growth and of political oppression that deepened as prosperity spread In this masterly account Carter J Eckert finds the roots of South Korea s dramatic socioeconomic transformation in the country s long history of militarization a history personified in South Korea s paramount leader Park Chung Hee In Park Chung Hee and Modern Korea Eckert reveals how the foundations of Park s leadership were established during the period of Japanese occupation As a cadet in the Manchurian Military Academy Park and his fellow officers absorbed the Imperial Japanese Army s ethos of victory at all costs and absolute obedience to authority When Park seized power in 1961 he applied this ethos to the project of Korean modernization Korean society under Park exuded a distinctively martial character Eckert shows Its hallmarks included the belief that the army should intervene in politics in times of crisis that a central authority should manage the country s economic system and that the state should maintain a strong disciplinary presence in society reserving the right to use violence to maintain order A milestone in the literature of modern East Asia Bruce Cumings author of Korea s Place in the Sun

Languages, scripts, and Chinese texts in East Asia Peter Francis Kornicki, 2018-01-19 Chinese Writing and the Rise of the Vernacular in East Asia is a wide ranging study of vernacularization in East Asia not only China Japan Korea and Vietnam but also societies that no longer exist such as the Tangut and Khitan empires Peter Kornicki takes the reader from the early centuries of the common era when the Chinese script was the only form of writing and Chinese Buddhist Confucian and medical texts spread throughout East Asia through the centuries when vernacular scripts evolved right up to the end of the nineteenth century when nationalism created new roles for vernacular languages and vernacular scripts Through an examination of oral approaches to Chinese texts it shows how highly valued Chinese texts came to be read through the prism of the vernaculars and ultimately to be translated This long process has some parallels with vernacularization in Europe but a crucial difference is that literary Chinese was unlike Latin not a spoken language As a consequence people who spoke different East Asian

vernaculars had no means of communicating in speech but they could communicate silently by means of written conversation in literary Chinese a further consequence is that within each society Chinese texts assumed vernacular garb in classes and lectures Chinese texts were read and declaimed in the vernaculars What happened in the nineteenth century and why are there still so many different scripts in East Asia How and why were Chinese texts dethroned and what replaced them These are some of the questions addressed in Chinese Writing and the Rise of the Vernacular in East Asia **Ogyu Sorai's**

Philosophical Masterworks John A. Tucker, 2006-01-31 Ogy Sorai 1666 1728 was one of the greatest philosophers of early modern Japan This volume a monumental work of scholarship offers for the first time in any Western language unabridged and fully annotated translations of Sorai's masterpieces *The Bend Distinguishing the Way* and *Benmei Distinguishing Names* are works of political philosophy that define the theoretical foundation for a leadership exercising total power the best remedy in Sorai's view for a regime in crisis The translations are based on the 1740 Genbun 5 woodblock edition the first major edition of these seminal texts published during the Tokugawa period In his commentary John Tucker situates the *Bend* and *Benmei* in relation to Neo Confucianism via what is known as philosophical lexicography This genre which links Sorai's thinking with Neo Confucianism is traced to the early thirteenth century Song dynasty text the *Xingli ziyi* *The Meanings of Neo Confucian Terms* by Chen Beixi 1159 1223 Although Sorai was an unrelenting critic the Neo Confucian formulations of the great Song synthesizer Zhu Xi 1130 1200 his thinking remained due to its genre methodology and conceptual repertory essentially a radical revision of Neo Confucian discourse Tucker's introduction also examines the reception of Sorai's two *Ben* during the remainder of the Tokugawa calling attention to radical tendencies in later developments of Sorai's thought as well as to the increasingly scathing critiques of his Chinese approach to philosophy language and politics Finally it traces the vicissitudes of the two *Ben* in modern Japanese intellectual history and their role in the formation of the ideas of Meiji intellectuals such as Nishi Amane 1829 1897 and Kato Hiroyuki 1836 1916 As before however Sorai came under attack this time for his supposed irreverence toward the throne the Japanese people and the imperial nation state Though an unpopular philosophy in early twentieth century Japan in the postwar years Sorai's thought was interpreted by Maruyama Masao and others as an important modernizing force While it critiques such ideologically grounded attempts to cast Sorai's *Bend* and *Benmei* as theoretical contributions to political modernization Tucker's study nevertheless acknowledges that Sorai's masterworks in their concern for language analysis as the way to solve philosophical problems share significant common ground with the analytic approach to philosophy pioneered by various twentieth century Anglo American philosophers
