Rethinking Fisheries Management:

Rethinking Fisheries Governance Hoang Viet Thang, 2017-08-11 This book explores how the state can foster collective action by fisher s communities in fisheries management It presents a different perspective from Elinor Ostrom s classic work on the eight institutional conditions that foster collective action in natural resource management and instead emphasizes the role of the state in fisheries co management engaging a state centric notion of meta governance It argues that first the state is required to foster collective action by fishers and secondly that the current fisheries co management arrangements are state centric The study develops these arguments through the analysis of three case studies in Japan Vietnam and Norway The author also makes a theoretical contribution to governance literature by developing Ostrom s society centric framework in a way which makes it more amenable to the analysis of state capacity and government intervention in a comparative context This book will appeal to students and scholars of global governance fisheries management co management and crisis management as well as practitioners of fisheries management

Approaches to Fisheries Management Harish Mehta, 2025-02-20 *Innovative Approaches to Fisheries Management* presents a groundbreaking perspective on the intricate process of managing fisheries We delve into the complexities of this integrated system addressing crucial aspects from information gathering to regulation enforcement Emphasizing a holistic approach we acknowledge the interconnectedness of environmental economic and social factors in maintaining fisheries productivity Through meticulous analysis and consultation we advocate for innovative strategies beyond traditional methodologies Dynamic decision making processes that adapt to changing circumstances ensure sustainable utilization of marine resources Resource allocation is scrutinized to optimize efficiency while preserving fisheries long term viability Central to this approach is recognizing the need for collaboration among stakeholders including governments industry players scientists and local communities By fostering inclusive dialogue and incorporating diverse perspectives we aim to create consensus driven solutions that balance competing interests Ultimately *Innovative Approaches to Fisheries Management* offers a comprehensive framework for navigating the complex challenges facing fisheries today We advocate for proactive measures prioritizing environmental stewardship economic prosperity and social equity paving the way for a sustainable future for marine ecosystems and dependent communities *Reinventing Fisheries Management* T.J. Pitcher, P. Hart, D.

Pauly, 2012-12-06 Judged by a dismaying track record and a consequent downturn in the reputation of fisheries scientists fisheries management is certainly a candidate for calls for reinvention with many of the world leaders in this area holding the view that no fishery has ever been properly understood or managed With fisheries science in a state of flux this extremely important book seeks a new paradigm that will place this flux of ideas in perspective and help us to choose those that will make fisheries management work The book was planned at a symposium of over 100 fishery researchers at the Fisheries Centre University of British Columbia Vancouver Canada and is organized into five parts Why does Fisheries Science Need

Reinventing New Policies The Role of the Social Sciences Ecology Modelling Carefully integrated and edited by three of the world's leading fishery scientists this stimulating book should find a place on the shelves of all fishery scientists throughout the world It will be an invaluable reference source to those studying fish biology fisheries and oceanography and all those involved in fisheries policy decisions in government and university research establishments *Rethinking the public*

Mahony, Nick, Newman, Janet, 2010-06-16 This book rethinks the public public communication and public action in a globalising and mediated world It develops novel theoretical perspectives for investigating the formation of publics focusing on four overlapping processes claiming publics personalising publics mediating publics and becoming public Using fascinating case studies *Rethinking the public* offers a rich set of methodological resources on which other researchers can draw and foregrounds the need to interrogate the boundaries between theory research and politics It is ideal reading for higher level undergraduate and masters programmes in politics geography public policy sociology social policy public administration and cultural studies **Rethinking Heritage for Sustainable Development** Sophia Labadi, 2022-06-06

The Sustainable Development Goals SDGs adopted by the UN in 2015 have influenced the actions of international and intergovernmental organisations and governments around the world and have dictated priorities for international aid spending Culture including heritage is often presented as fundamental to addressing the SDGs since 2010 the United Nations has adopted no fewer than five major policy recommendations that assert its importance as a driver and enabler of development Yet heritage is marginalized from the Sustainable Development Goals *Rethinking Heritage for Sustainable Development* constitutes a substantial and original assessment of whether and how heritage has contributed to three key dimensions of sustainable development namely poverty reduction gender equality and environmental sustainability within the context of its marginalisation from the Sustainable Development Goals and from previous international development agendas Sophia Labadi adopts a novel inclusive large scale and systematic approach providing the first comprehensive history of the international approaches on culture including heritage for development from 1970 to the present day This book is also the first to assess the negative and positive impacts of all the international projects implemented in sub Saharan Africa by a consortium of UN organisations that aimed to provide evidence for the contribution of heritage for development in time for the negotiation of the SDGs The book's conclusions provide recommendations for rethinking heritage for development while reflecting on the major shortcomings of the selected projects **Comparative Evaluations of Innovative Fisheries**

Management Kjellrun Hiis Hauge, Douglas Clyde Wilson, 2009-09-23 *Comparative Evaluations of Innovative Fisheries Management* begins with a look at four places outside the European Union known for innovative management New Zealand Nova Scotia Alaska and Iceland Then the focus shifts to the success criteria related to specific disciplines including biological and social robustness economic efficiency and impacts on management costs Hypotheses are tested using data capable of generating useful results The main conclusions include a retrospective of how key concepts defined and represented the

various perspectives skills and backgrounds that made up the multidisciplinary CEVIS project

Poverty and Small-scale Fisheries in West Africa Arthur E. Neiland, Christophe Béné, 2013-04-17 This book arises from case studies and two back to back workshops held in Cotonou Benin in November 2001 They were the combination of much experience and knowledge gathered in the West Africa region and were brought about to explore the concept of poverty especially how it is a part of the life of fishing communities and our ways of thinking about resolving the issue The workshops were conceived as a partnership between the UK Department for International Development DFID the Food and Agriculture Organization of the United Nations FAO and 25 countries of West Africa working together through the Sustainable Fisheries Livelihood Programme SFLP to join forces with the Centre for the Economics and Management of Aquatic Resources CEMARE The SFLP with its remit of poverty alleviation in West African artisanal fisheries communities through better governance and improved policies to involve communities in management of the resources on which their livelihoods depend had quickly realised that it needed to define what and whom it was targeting In this respect the two large back to back workshops marked a milestone for the SFLP Those participating in the workshop soon emphasised that we need to push forward our ideas from the previous simplistic less than a dollar a day type definitions to show that poverty is multi faceted and a dynamic feature of human society

Institutional Economics and Fisheries Management Elizabeth H. Petersen, 2006-01-01 The litany of world fishery failures shows that reform of fisheries governance and institutions is essential The valuable insights and applications in this book will be enormously useful for fishery regulators as they try to sustainably and profitably manage fish stocks especially highly migratory species such as tuna Quentin Grafton Australian National University Elizabeth H Petersen argues that economists and other social scientists are increasingly focusing their attention towards institutions defined as humanly devised rules as critical determinants of economic social and politic

Living Marine Resources Edwin S. Iversen, 2012-12-06 *Living Marine Resources* provides a thorough up to date introduction to all aspects of fisheries science This clearly written text offers insight into a topic of increasing importance the wise utilization and management of sea fisheries to maximize production without exceeding their carrying capacity Adoption of the approaches presented will improve the conservation and management of the many world fisheries that are suffering from years of inefficient practices The book is divided into five sections beginning with an introduction to the ocean environment and the various resource species Part two examines fisheries biology including age growth fecundity and mortality enabling readers to appreciate yield models designed to give estimates of maximum sustainable yield and maximum economic yield The third part covers

gear methods and landings and includes material on the handling and processing of seafood as well as aquaculture In part four yield models are presented to introduce students to theories on population dynamics stock assessment and management The book concludes with coverage of recreational fisheries including socioeconomic importance catch and effort research management techniques and their interface with commercial fisheries Living Marine Resources is an invaluable introduction to the subject for advanced undergraduate and graduate students of fisheries science In addition the material presented will be valuable to fishery and social scientists fishery officers and administrators and students in biology engineering economics and law

Inland Fisheries ,2008-04-15 The current high demand for fish and increased awareness of the role of the environment in supporting human well being has led to a situation where attitudes to inland water resources are changing rapidly Trends in resource use and environmental impact are very evident in inland waters which are particularly vulnerable as they act as collectors of all the activities occurring in their basins and rank as some of the most endangered ecosystems in the world The principle changes influencing the evolution of the aquatic resource for fisheries are described in this book which has been compiled for the Food and Agriculture Organization of the United Nations

Future Climate Change and Regional Fisheries Gary Duane Sharp,2003 This publication considers issues of global change versus global warming using climate history graphics to illustrate the earth s climate variability from paleoclimate research Topics discussed include the hydrological cycle and its relevance to fisheries and the evolution of species and fisheries variability production variabilities and changes in vulnerability owing to constant dynamics of ocean motion affects bioindicators spatial and temporal scales regional ecological responses examples of ocean ecosystems defined by seasonal thermal properties synchrony and systematic transitions
