Rethinking Nature Essays In Environmental Philosophy:

Rethinking Nature Bruce V. Foltz, Robert Frodeman, 2004-11-02 Rethinking Nature brings the voices of leading Continental philosophers into discussion about what is emerging as one of our most pressing and timely concerns the environmental crisis facing our planet The essays featured in this volume embrace environmental philosophy in its broadest sense and include topics such as environmental ethics environmental aesthetics ontology theology gender and the environment and the role of science and technology in forming knowledge about our world Here philosophy goes out into the field and comes back with rich insights and new approaches to environmental problems This far reaching and lively volume affords firm ground for thinking about the multiple ways that humans engage nature Contributors are David Abram Edward S Casey Daniel Cerezuelle Ron Cooper Bruce V Foltz Robert Frodeman Trish Glazebrook James Hatley Robert Kirkman Irene J Klaver Alphonso Lingis Kenneth Maly Diane Michelfelder Elaine P Miller Robert Mugerauer Stephen David Ross John Sallis Ingrid Leman Stefanovic Bruce Wilshire David Wood and Michael E Zimmerman

Environmental Philosophy Simon P. James, 2015-06-03 Climate change habitat loss rising extinction rates such problems call for more than just new policies and practices They raise fundamental questions about the world and our place in it What for instance is the natural world Do we humans belong to it Which parts of it are we morally obliged to protect Drawing on an exceptionally wide range of sources from virtue ethics to Buddhism leading environmental philosopher Simon P James sets out to answer these vitally important questions The book begins with a discussion of animal minds before moving on to explore our moral relations with non human organisms ecosystems and the earth as a whole James then considers environmental aesthetics humanity s place in the natural world and the question of what it means to be wild In the concluding chapter he applies his findings to the topic of global climate change building a strong moral case for urgent action This accessible entertainingly written book will be essential reading for students of the environment across the humanities and social sciences It will moreover be an ideal guide for anyone keen to deepen their understanding of environmental issues

Re-Imagining Nature Alfred Kentigern Siewers, 2013-12-24 Re Imagining Nature Environmental Humanities and Ecossemiotics explores new horizons in environmental studies which consider communication and meaning as core definitions of ecological life essential to deep sustainability It considers landscape as narrative and applies theoretical frameworks in eco phenomenology and ecossemiotics to literary historical and philosophical study of the relationship between text and landscape It considers in particular examples and lessons to be drawn from case studies of medieval and Native American cultures to illustrate in an applied way the promise of environmental humanities today In doing so it highlights an environmental future for the humanities on the cutting edge of cultural endeavor today

Luce Irigaray Luce Irigaray, Mary Green, 2008-11-18 Luce Irigaray is one of the world s most important and influential contemporary theorists and this book presents a collection of essays exploring the full range of her work from an international team of academics in many different fields

Interpreting Nature Brian

Treanor, Martin Drenthen, David Utsler, 2013-11-11 Modern environmentalism has come to realize that many of its key concerns wilderness and nature among them are contested territory viewed differently by different people Understanding nature requires science and ecology to be sure but it also requires a sensitivity to history culture and narrative Thus understanding nature is a fundamentally hermeneutic task **Nature and Experience** Bryan Bannon, 2016-05-18 What do we mean when we speak about and advocate for nature Do inanimate beings possess agency and if so what is its structure What role does metaphor play in our understanding of and relation to the environment How does nature contribute to human well being By bringing the concerns and methods of phenomenology to bear on questions such as these this book seeks to redefine how environmental issues are perceived and discussed and demonstrates the relevance of phenomenological inquiry to a broader audience in environmental studies The book examines what phenomenology must be like to address the practical and philosophical issues that emerge within environmental philosophy what practical contributions phenomenology might make to environmental studies and policy making more generally and the nature of our human relationship with the environment and the best way for us to engage with it **Inhuman Nature** Jeffrey Jerome Cohen, 2014 Collection of essays examining the ways in which humanity is enmeshed in its surroundings **Linking Ecology and Ethics for a Changing World** Ricardo Rozzi, S.T.A. Pickett, Clare Palmer, Juan J. Armesto, J. Baird Callicott, 2014-02-06 To comprehensively address the complexities of current socio ecological problems involved in global environmental change it is indispensible to achieve an integration of ecological understanding and ethical values Contemporary science proposes an inclusive ecosystem concept that recognizes humans as components Contemporary environmental ethics includes eco social justice and the realization that as important as biodiversity is cultural diversity inter cultural inter institutional and international collaboration requiring a novel approach known as biocultural conservation Right action in confronting the challenges of the 21st century requires science and ethics to be seamlessly integrated This book resulted from the 14th Cary Conference that brought together leading scholars and practitioners in ecology and environmental philosophy to discuss core terminologies methods questions and practical frameworks for long term socio ecological research education and decision making **Hermeneutics of Human-Animal Relations in the Wake of Rewilding** Mateusz Tokarski, 2019-05-21 In consequence of significant social political economic and demographic changes several wildlife species are currently growing in numbers and recolonizing Europe While this is rightly hailed as a success of the environmental movement the return of wildlife brings its own issues As the animals arrive in the places we inhabit we are learning anew that life with wild nature is not easy especially when the accumulated cultural knowledge and experience pertaining to such coexistence have been all but lost This book provides a hermeneutic study of the ways we come to understand the troubling impacts of wildlife by exploring and critically discussing the meanings of ecological discomforts Thus it begins the work of rebuilding the culture of coexistence The cases presented in this book range from crocodile attacks to mice infestations and their analysis consequently builds up an ethics that sees

wildlife as active participants in the shaping of human moral and existential reality This book is of interest not only to environmental philosophers who will find here an original contribution to the established ethical discussions but also to wildlife managers and even to those members of the public who themselves struggle to make sense of encounters with their new wild neighbors

Integral Theory in Action Sean Esbjörn-Hargens,2010-08-01 In a world as complex as ours an integral approach is needed to help sort through a dynamic landscape and respond effectively to individual and collective challenges Integral Theory in Action provides the first multi authored overview of such an approach Integral Theory is the result of 30 years of research and is being applied in over 35 distinct disciplines This volume brings together two dozen leading scholar practitioners who are actively applying integral principles and who address a range of issues from an integral perspective including climate change embodiment feminist aesthetics community discourse treatment of depression developmental theory and global ethics The strengths limitations and potential of Integral Theory and Ken Wilber's AQAL model are weighed by each contributor This collection pushes the field of Integral Theory in new ways and new directions and provides a comprehensive overview that makes it an invaluable resource for any integral effort

From Nature to Creation (The Church and Postmodern Culture) Norman Wirzba,2015-09-23 How does Christianity change the way we view the natural world In this addition to a critically acclaimed series renowned theologian Norman Wirzba engages philosophers environmentalists and cultural critics to show how the modern concept of nature has been deeply problematic He explains that understanding the world as creation rather than as nature or the environment makes possible an imagination shaped by practices of responsibility and gratitude which can help bring healing to our lands and communities By learning to give thanks for creation as God's gift of life Christians bear witness to the divine love that is reconciling all things to God Named a Best Theology Book of 2015 Englewood Review of Books Best Example of Theology in Conversation with Urgent Contemporary Concerns for 2015 Hearts Minds Bookstore

God, Humanity, and the Universe Alexei V. Nesteruk,2023-10-27 The main objective of this book on cosmology and theology is to reassess the current approach to research in the field of interaction mediation and dialogue between modern cosmology and Christian theology Eastern Orthodox theology in particular This project was part of wide ranging cross disciplinary research undertaken by scientists philosophers and theologians across the world within the framework of Science Orthodoxy around the World run by the National Hellenic Research Foundation Athens from 2019 to 2023 The project and this publication contribute to the large scale academic activity in the field of science and religion or science and theology with a particular accent on the contribution of Eastern Orthodox theology to this dialogue as well as to the venues of advancement of this theology given the recent breakthroughs in cosmology physics and philosophy The book also underlines the importance of expressing cosmological ideas theologically symbolically and scientifically in the wide context of culture and humanity's sociopolitical and environmental predicaments

Gratitude for the Wild Nathaniel Van Yperen,2019-06-17 Since the passage of the

Wilderness Act of 1964 a hotly contested debate over the value of wilderness reveals cultural anxieties about an American society that has spurned limits Gratitude for the Wild explores how the wild known in wilderness raises our tolerance for mystery in the recognition of our limits and in the celebration of a God loved world that exceeds our grasping The idea of wilderness introduces questions about the balance between utility and appreciation and between enjoyment and restraint Wilderness is a nexus of competing and contested accounts of responsibility In conversation with the work of Doug Peacock Terry Tempest Williams James Gustafson and Martin Luther King Jr Nathaniel Van Yperen offers an original argument for how wilderness can evoke a vision of a good life in which creaturely limits are accepted in gratitude even in the face of ambiguity and mystery Through the theme of gratitude the book refocuses attention on the role of affection and testimony in ecological ethics and Christian ethics

The Oxford Handbook of Environmental Ethics Stephen Mark Gardiner, Allen Thompson, 2017 We live during a crucial period of human history on Earth Anthropogenic environmental changes are occurring on global scales at unprecedented rates Despite a long history of environmental intervention never before has the collective impact of human behaviors threatened all of the major bio systems on the planet Decisions we make today will have significant consequences for the basic conditions of all life into the indefinite future What should we do How should we behave In what ways ought we organize and respond The future of the world as we know it depends on our actions today A cutting edge introduction to environmental ethics in a time of dramatic global environmental change this collection contains forty five newly commissioned articles with contributions from well established experts and emerging voices in the field Chapters are arranged in topical sections social contexts history science economics law and the Anthropocene who or what is of value humanity conscious animals living individuals and wild nature the nature of value truth and goodness practical reasons hermeneutics phenomenology and aesthetics how things ought to matter consequences duty and obligation character traits caring for others and the sacred essential concepts responsibility justice gender rights ecological space risk and precaution citizenship future generations and sustainability key issues pollution population energy food water mass extinction technology and ecosystem management climate change mitigation adaptation diplomacy and geoengineering and social change conflict pragmatism sacrifice and action Each chapter explains the role played by central theories ideas issues and concepts in contemporary environmental ethics and their relevance for the challenges of the future

New Visions of Nature Martin A. M. Drenthen, F.W. Jozef Keulartz, James Proctor, 2009-07-23 New Visions of Nature focuses on the emergence of these new visions of complex nature in three domains The first selection of essays reflects public visions of nature that is nature as it is experienced encountered and instrumentalized by diverse publics The second selection zooms in on micro nature and explores the world of contemporary genomics The final section returns to the macro world and discusses the ethics of place in present day landscape philosophy and environmental ethics The contributions to this volume explore perceptual and conceptual boundaries between the human and the natural or between an out there and in here They attempt

to specify how nature has been publicly and genomically constructed known and described through metaphors and re envisioned in terms of landscape and place By parsing out and rendering explicit these divergent views the volume asks for a re thinking of our relationship with nature *Protecting Nature, Saving Creation* Pasquale Gagliardi, Philipp Valentini, 2013-12-05 Can religions help us tackle the ecological crisis we are now facing Can we redefine our relationship with the Earth giving spiritual depth to ecological issues This book attempts to answer these questions by exploring the relationship between ecology and theology *Goethe Yearbook 22* Adrian Daub, Elisabeth Krimmer, 2015-01-07 Cutting edge scholarly articles on diverse aspects of Goethe and the Goethezeit featuring in this volume a special section on environmentalism The Goethe Yearbook is a publication of the Goethe Society of North America encouraging North American Goethe scholarship by publishing original English language contributions to the understanding of Goethe and other authors of the Goethezeit while also welcoming contributions from scholars around the world Volume 22 features a special section on environmentalism edited by Dalia Nassar and Luke Fischer with contributions on the metaphor of music in Goethe s scientific work and its influence on Deleuze Merleau Ponty Uexk ll and Zuckerkandl Frederick Amrine his conceptualization of modern civilization in Faust Gernot B hme a non anthropocentric vision of nature in his writings on the intermaxillary bone Ryan Feigenbaum his geopoetics of granite Jason Groves the historical antecedents of biosemiotics in *Die Metamorphose der Pflanzen* Kate Rigby and the concept of the Dark Pastoral in Werther Heather I Sullivan In addition there are articles on Goethe as a spiritual predecessor of phenomenology Iris Hennigfeld concepts of the hermaphrodite in contributions to the *Encyclop die* by Louis de Jaucourt and Albrecht von Haller Stephanie Hilger on Goethe s poem *N he des Geliebten* David Hill on the link between commerce and culture in West stlicher Divan Daniel Purdy on Goethe s thoughts on collecting and museums Helmut Schneider and on intrigues in the works of J M R Lenz Inge Stephan Contributors Frederick Amrine Gernot B hme Ryan Feigenbaum Luke Fischer Jason Groves Iris Hennigfeld Stephanie M Hilger David Hill Dalia Nassar Daniel Purdy Kate Rigby Helmut J Schneider Inge Stephan Heather I Sullivan Adrian Daub is Associate Professor of German at Stanford Elisabeth Krimmer is Professor of German at the University of California Davis Book review editor Birgit Tautz is Associate Professor of German at Bowdoin College **Conversations With Landscape** Karl Benediktsson, Katrín Anna Lund, 2016-05-13 *Conversations With Landscape* moves beyond the conventional dualisms associated with landscape exploring notions of landscape and its relation with humans through the metaphor of conversation Such an approach conceives of landscape as an actor in the ongoing communication that is inherent in any perception recognising the often ignored mutuality of encounters between human and non human actors With contributions drawn from a variety of disciplines including anthropology geography archaeology philosophy literature and the visual arts this book explores the affects and emotions engendered in the conversations between landscape and humans Offering scope for an original and coherent approach to the study of landscape this book will appeal to scholars and researchers across a range of social

sciences and humanities Exploring the Work of Edward S. Casey Azucena Cruz-Pierre, Donald A. Landes, 2013-10-10 An authoritative study of Casey's major themes and ideas exploring and confirming his impact and contributions to contemporary philosophy

Ecology and the Architectural Imagination Brook Muller, 2014-02-24 By including ecological concerns in the design process from the outset architecture can enhance life Author Brook Muller understands how a designer's predispositions and poetic judgement in dealing with complex and dynamic ecological systems impact the greenness of built outcomes Ecology and the Architectural Imagination offers a series of speculations on architectural possibility when ecology is embedded from conceptual phases onward how notions of function and structure of ecosystems can inspire ideas of architectural space making and order and how the architect's role and contribution can shift through this engagement As an ecological architect working in increasingly dense urban environments you can create diverse spaces of inhabitation and connect project scale living systems with those at the neighborhood and region scales Equipped with ecological literacy critical thinking and collaboration skills you are empowered to play important roles in the remaking of our cities
